Entertainment Labor Jonathan Handel, 2013 A must-have for academics and attorneys working in entertainment labor, *Entertainment Labor: An Interdisciplinary Bibliography* is a 345 page annotated bibliography of over 1,500 books, articles, dissertations, legal cases and other resources dealing with entertainment unions and guilds and select other aspects of entertainment labor. Also included are: • Annotations (where necessary to explain the relevance of the book or article) • Capsule descriptions of legal cases • Page references (where only a portion of the book or article is relevant) • URLs (for full-text articles that are available online at no charge) • A detailed chapter on materials available from the unions and guilds themselves • A 90-page index

Translation and Localisation in Video Games Miguel Á. Bernal-Merino, 2014-09-19 This book is a multidisciplinary study of the translation and localisation of video games. It offers a descriptive analysis of the industry – understood as a global phenomenon in entertainment – and aims to explain the norms governing present industry practices, as well as game localisation processes. Additionally, it discusses particular translation issues that are unique to the multichannel nature of video games, in which verbal and nonverbal signs must be cohesively combined with interactivity to achieve maximum playability and immerse players in the game's virtual world. Although positioned within the theoretical framework of descriptive translation studies, Bernal-Merino incorporates research from audiovisual translation, software localisation, computer assisted translation, comparative literature, and video game production. Moving beyond this framework, *Translation and Localisation in Video Games* challenges some of the basic tenets of translation studies and proposes changes to established and unsatisfactory processes in the video game and language services industries.

The Long Ascent, Volume 3 Robert Sheldon, 2023-06-20 Can Eden, the flood, and the Tower of Babel be real events that historians have simply renamed? Could Finnish and Norse, Hindu, Greek and Egyptian myth all be recording this same real history? Did Noah's generation surpass the agricultural, nuclear, and biotech technology of the twenty-first century? How did the ancients cut the multi-ton stones of the Egyptian pyramids and Incan walls, or melt Scottish forts? Did ancient China and Sumer know about the twin helix of DNA? Were successful human breeding experiments the origin of giants, while monsters like Grendel were the result of failures? What disaster occurred to them that caused the forgetting of all this knowledge? We know that comets captured by the sun's gravity break up into boulder streams that periodically intersect the Earth's orbit.

Plato and the rabbis told us that repeating cosmic disasters have erased most of our history, leaving us only myth and Genesis. This book weaves the modern scientific evidence from Greenland ice cores, Mediterranean bathymetry, NASA archaeology, and human genetics with the linguistic insights of the Hebrew of Genesis 1-11 into a compelling narrative that we are only the second-most advanced civilization on planet Earth. For now.

The Best of SlashNOT Matthew Strebe, Michael Moncur, Charles Perkins, 2006 The Best of SlashNOT is a collection of short satirical stories ranging from true observations of humorous events to hilarious absurdity that any true geek will love. The Best of SlashNOT takes the most humorous stories from posted on SlashNOT.com and presents them in the order that the SlashNOT community ranked them. You won't find Geek humor funnier or more laser focused on technology than The Best of SlashNOT. Articles include all the community favorites, like: . Einstein returns from grave to bitch-slap dark matter . Quaker: The non-violent first person shooter . Microsoft seeking two letters cooler than X and P . Science reverts to mad science Universe even darker and scarier than previously thought . Google arrested while dumping body . Gates and Torvalds to finally settle this thing . Schrodinger arrested on cruelty, weapons charges . IBM developing Artificial Stupidity . Microsoft releases Windows XP Homeless edition SlashNOT is a satirical website that parodies Slashnot.com, the ridiculously popular open-source advocacy website. In addition to the stories and comments from SlashNOT.com, The Best of SlashNOT includes exclusive commentary and insights from the author and editor of the website.

Children's Literature and Imaginative Geography Aida Hudson, 2019-01-10 Where do children travel when they read a story? In this collection, scholars and authors explore the imaginative geography of a wide range of places, from those of Indigenous myth to the fantasy worlds of Middle-earth, Earthsea, or Pacificus, from the semi-fantastic Wild Wood to real-world places like Canada's North, Chicago's World Fair, or the modern urban garden. What happens to young protagonists who explore new worlds, whether fantastic or realistic? What happens when Old World and New World myths collide? How do Indigenous myth and sense of place figure in books for the young? How do environmental or post-colonial concerns, history, memory, or even the unconscious affect an author's creation of place? How are steampunk and science fiction mythically re-enchanting for children? Imaginative geography means imaged earth writing: it creates what readers see when they enter the world of fiction. Exploring diverse genres for children, including picture books, fantasy, steampunk, and realistic novels as well as plays from Canada, the United States, the United Kingdom, and Ireland from the early nineteenth century to the present, *Children's Literature and Imaginative Geography* provides new geographical perspectives on children's literature.

The Beauty of God's House Francesca Aran Murphy, 2014-05-23 For thirty years, Stratford Caldecott has been an inspirational figure in liturgy, fantasy literature, graphic novels, spirituality, education, ecology and social theory. Hundreds of people have learned from his spiritual approaches to the great existential questions. The Beauty of God's House is a

Festschrift dedicated to him. The book seeks to cover the whole range of Caldecott's interests, from poetics to politics. Anyone interested in the field of theology and the arts will find much to intrigue them in this delightful multi-authored volume. The common core of Stratford's interests is in the beauty of the cosmos and how it reflects the beauty of God. This book is about the beauty of God's realm, and it conceives God's realm as the arts, politics, liturgy, religions, and human life. It touches on the many places where beauty and spirituality overlap. It is an engagement in theological aesthetics that goes well beyond the aesthetic.

Copyright Matters Lena Henningsen, 2010 In her first book, Lena Henningsen offers five studies that challenge the widespread prejudice among the Western Press that China is an empire of plagiarism, sometimes even referred to as the People's Republic of Cheats. By analyzing the cases of convicted plagiarist Guo Jingming, the victim of plagiarism Han Han, the follow-up publications to Jiang Rong's *Wolf's Totem*, the Harry Potter fakes and fan fiction, as well as discussions of academic plagiarism, Henningsen proves that copyright increasingly matters to Chinese writers. Confronted with instances of copyright infringements on their own works, they voice their opposition and fight for their rights, be it through legal action or their writing. At the same time, the author demonstrates that a text that is commonly considered to be plagiarized or imitated may turn out to be a highly creative work in its own right, for example when Harry Potter appears as a timid exchange student in China. Therefore, Henningsen opts for a literary reading of these derivative works and argues that imitation may, at times, be a creative tool. While these two central arguments appear to be contradictory, the author shows that they represent two sides of the same coin: the emergence of a new self-conception among Chinese authors, as they struggle to recast their relationship with society and state. --Book Jacket.

American Identity in Crisis: Notes from an Accidental Activist Kat Calvin, 2023-09-19 A trailblazing activist's passionate and incisive look at why she started a movement to ensure that 26 million Americans have access to the IDs they need to escape poverty and live healthy and productive lives American Identity in Crisis weaves together three remarkable stories: the making of an activist in the wake of the 2016 presidential election; the fight against the onerous rules that are being used to keep vulnerable and targeted populations from participating in all facets of American life -from obtaining jobs and housing to going to the polls- and how we can solve a problem that impacts millions of American adults. Kat Calvin ties all of these threads together in profound ways. In American Identity in Crisis, she takes us on a cross-country tour as she and her team uncover one of the biggest secrets in America and learn how to solve it. We meet veterans, the unhoused, and senior citizens, and learn the story of the fierce advocate who insists on recognizing their humanity and seeing them as souls who are resilient and striving for change. Told in a voice that is strong and vulnerable; funny and fearless, confident and self-deprecating, American Identity in Crisis is a defense of human dignity and everyone's right to have access to the pursuit of happiness.
