**Applied Wisdom** Alexander Ineichen, 2021-11-16 Applying wisdom and avoiding foolishness are two sides of the same coin. Slipping away from either can lead to risky and uncertain situations. Luckily, author Alexander Ineichen has been collecting witticisms for thirty-five years that have made him successful in his career and life. In *Applied Wisdom*, he collects an anthology of wit and wisdom containing over 700 quotations from sources as wide ranging as Thomas Aquinas and Frank Zappa. He provides entertaining food for thought for businesspeople and the general audience alike, and enables readers to think outside the box to find wisdom. These nuggets, along with his commentary for each, are the valuable words needed for those facing risk and uncertainty. The witticisms provide a full range of being level-headed, truth seeking, brutally heretical, wonderfully insightful, refreshingly politically incorrect, and other intellectual treats and provocations. The advice, blending economics, politics, history, philosophy, psychology, risk management, and much more, provides a winning mix of humor, intellectual heft, and economic survival tips.

*The Chadar of Secrets* Harsh Singhal, 2019-01-30 MAGIC - The shortest and the most complete answer. When you enter a magic show, you only know about the name of the trick which you are about to see and nothing else, right? And with that one name being enough already for you, you start making your own stories to tell yourself how the trick will be performed or how will the magician do it according to your own ideas and your own understanding. Later when the magician performs his

tricks and his magic doesn't match with your expected stories, you feel surprised and something unexpected has happened. And ta-da! But that's not the end. Now the magician waits for something more magical and that is, the sound of your claps and the look on your faces. And that's when it ends. Does anything up above sounds similar? That's how you and your life work. You know one thing and you start making up stories according to your own beliefs and your own ideas of what you know. You are already prepared. And later, life changes your already prepared game and it surprises you and something unexpected has happened. Again! This book will not teach you any lessons because that's your life's job, but it will show you how life tries to teach you those lessons. And once you have read this book till the end, you will know that you are a magician yourself and perform magic tricks almost every day.
