

Which Contains The Sayings Of Confucius

Josephus Nelson Larned

The Sayings of Confucius Confucius, 2021-01-01 The Sayings of Confucius by Confucius: This timeless collection presents the teachings and wisdom of the ancient Chinese philosopher Confucius. The Sayings of Confucius contains a compilation of moral and ethical principles, emphasizing the importance of filial piety, social harmony, and self-cultivation in leading a virtuous life. Key Aspects of the Book The Sayings of Confucius: Philosophy of Confucius: The book encapsulates the core beliefs and teachings of Confucius, providing valuable insights into his ethical and philosophical ideas. Confucian Ethics: The Sayings of Confucius explores the concept of the Junzi (gentleman) and the qualities that define a noble character. Legacy and Influence: Confucius' teachings have had a profound and enduring impact on Chinese culture, and this book reflects the timeless relevance of his wisdom. Confucius was an ancient Chinese philosopher and teacher born in 551 BCE. He is one of the most influential figures in Chinese history, with his teachings forming the foundation of Confucianism, a school of thought that has shaped Chinese culture, ethics, and governance for centuries.

??? Confucius, E. Bruce Brooks, A. Taeko Brooks, 1998 Bruce and Taeko Brooks have returned this wide-ranging text to its full historical and intellectual setting, organizing the sayings in their original chronological sequence, and permitting the Analects to be read for maximum understanding, not as a closed system of thought but as a richly revealing record of the interaction of life and thought as it evolved over almost the entire Warring States period.

The Sayings of Confucius Confucius, 2014-08-07 This Is A New Release Of The Original 1910 Edition.

Historical Dictionary of Confucianism Ronnie L. Littlejohn, 2023-11-03 Historical Dictionary of Confucianism is devoted exclusively to Confucianism, the great Chinese tradition that has gathered around the teachings of Confucius (Kongzi) for more than 2,500 years. Confucianism encompasses a broad array of moral, social, philosophical and religious ideas, values and practices. It is an ancient and immense tradition of great subtlety and complexity. This work provides ready access to terms, personalities, movements, and texts of the tradition as it has made its trek throughout East Asia, especially Korea and Japan. This book contains a chronology, introduction, and extensive bibliography. The dictionary section has more than 700 cross-referenced entries on terms, personalities, movements, and texts of the tradition. Historical Dictionary of Confucianism is an excellent resource for students, researchers, and anyone wanting to know more about Confucianism.

Confucianism Ronnie L. Littlejohn, 2010-10-23 It is arguably Confucianism, not Communism, which lies at the core of

China's deepest sense of self. Although reviled by Chinese intellectuals of the 1950s-1990s, who spoke of it as 'yellow silt clotting the arteries of the country', Confucianism has defied eradication, remaining a fundamental part of the nation's soul for 2500 years. And now, as China assumes greater ascendancy on the world economic stage, it is making a strong comeback as a pragmatic philosophy of personal as well as corporate transformation, popular in both home and boardroom. What is this complex system of ideology that stems from the teachings of a remarkable man called Confucius (Kongzi), who lived in the distant sixth century BCE? Though he left no writings of his own, the oral teachings recorded by the founder's disciples in the 'Analects' left a profound mark on later Chinese politics and governance. They outline a system of social cohesiveness dependent upon personal virtue and self-control. For Confucius, society's harmony relied upon the appropriate behaviour of each individual within the social hierarchy; and its emphasis on practical ethics has led many to think of Confucianism as a secular philosophy rather than a religion. In this new, comprehensive introduction, Ronnie Littlejohn argues rather that Confucianism is profoundly spiritual, and must be treated as such. He offers full coverage of the tradition's sometimes neglected metaphysics, as well as its varied manifestations in education, art, literature and culture.

A Guide to Asian Philosophy Classics Puqun Li, 2012-07-19 This book guides readers through ten classic works of Asian philosophy. Several major schools of Eastern thought are discussed, including Hinduism, Buddhism, Confucianism, Daoism/Taoism, and Chan/Zen. The author connects the ideas of these schools to those of Western philosophy, thereby making the material accessible to people who are unfamiliar with the cultures and intellectual traditions of Asia. A wide range of important topics are addressed: reality, time, self, knowledge, ethics, human nature, enlightenment, and death.
