*The Metaphysics of Sex ...in a Changing World!* Christopher Alan Anderson, 2014-07-16 Is sex metaphysical? This is to say, does it have a purpose and a nature that is encoded in the very construct of the universe? These are the questions the author takes up in this day and age where most everything is up for grabs. This writing is not without an examination of sensitive issues and explicit terms. Think of it as a third way, if you will. It resides between the fixed identity of our declining religions and the fluid identity of the emerging L,G,B,T,Q movement. In that it presents to us all another choice. In the end, it is about a construct for sexual balance that any reader can understand and use as a guide for his or her life. Keywords: Metaphysics, Sex, Relationship, Procreation, Soul, Life, Birth, Love, Desire, Healing

**The Natural Law of Cycles** James H. Bunn, 2017-07-28 The Natural Law of Cycles assembles scientific work from different disciplines to show how research on angular momentum and rotational symmetry can be used to develop a law of energy cycles as a local and global influence. Angular momentum regulates small-scale rotational cycles such as the swimming of fish in water, the running of animals on land, and the flight of birds in air. Also, it regulates large-scale rotation cycles such as global currents of wind and water. James H. Bunn introduces concepts of symmetry, balance, and angular momentum, showing how together they shape the mobile symmetries of animals. Chapter 1 studies the configurations of animals as they move in a head-first direction. Chapter 2 shows how sea animals follow currents and tides generated by the rotational cycles of the earth. In chapter 3, Bunn explores the biomechanical pace of walking as a partial cycle of rotating limbs. On a large scale, angular momentum governs balanced shifts in plate tectonics. Chapter 4 begins with an examination of rotational wind patterns in terms of the counter-balancing forces of angular momentum. The author shows how these winds augment the flights of birds during migrations. A final chapter centres on the conservation of energy as the most basic principle of science. Bunn argues that in the nineteenth century the unity of nature was seen in the emergent concept of energy, not matter, as the source of power, including the movements of animals and machines. In each chapter Bunn features environmental writers who celebrate mobile symmetries. This book will interest students, naturalists, and advocates of the environmental movement.

**Characteristics and Functions of Direct Quotes in Hispanic Fiction** Isolde J. Jordan,2001 The application of pragmlinguistic methods of analysis to literature is often difficult due to the special and unique way language is used in a written literary work. Based on the assumption that literature is an act of communication, Isolde J. Jordan applies communication models, such as Bühler's, Jacobson's, and Ducrot's, and theories of relevance, information and dialogue structure, and foregrounding to direct quotations taken from Hispanic fiction. Jordan shows how direct speech reporting can facilitate the interpretation of fiction by creating context, enhancing relevance, and by foregrounding information, and thus speaking directly to the reader.

**'My' Peace 'I' Give Unto You** Christopher Alan Anderson,2012-09-17 What is this peace that can be given unto us? In a world that seemingly is at war within itself, if we could just find peace, i.e., spiritual peace. But that may demand we enter a deeper placement within ourselves, even giving up our current belief structure and comfort zone. Is this why there are so few takers? Author Bio: Christopher Alan Anderson (1950 - ) received the basis of his education from the University of Science and Philosophy, Swannanoa, Waynesboro, Virginia. He resides in the transcendental/romantic tradition, that vein of spiritual creativity of the philosopher and poet. His quest has been to define and express an eternal romantic reality from which a man and a woman could together stand in their difference and create a living universe of procreative love. Mr. Anderson began these writings in 1971. The first writings were published in 1985. On a personal note, when Mr. Anderson was asked to describe the writings and what he felt their message was he responded, Spiritual procreation. Mankind has yet to distinguish the two sexes on the spiritual level. In this failure lies the root of our problems and why we cannot yet touch the eternal together. The message of man and woman balance brings each of us together in love with our eternal other half right now. Keywords: Man and Woman Balance, Relationships, Procreation, Spirituality, Love, Metaphysics, Eternal, Creation, Sexuality, & Soul.
