The Cambridge Handbook of English Corpus Linguistics Douglas Biber, Randi Reppen, 2015-06-25 The Cambridge Handbook of English Corpus Linguistics (CHECL) surveys the breadth of corpus-based linguistic research on English, including chapters on collocations, phraseology, grammatical variation, historical change, and the description of registers and dialects. The most innovative aspects of the CHECL are its emphasis on critical discussion, its explicit evaluation of the state of the art in each sub-discipline, and the inclusion of empirical case studies. While each chapter includes a broad survey of previous research, the primary focus is on a detailed description of the most important corpus-based studies in this area, with discussion of what those studies found, and why they are important. Each chapter also includes a critical discussion of the corpus-based methods employed for research in this area, as well as an explicit summary of new findings and discoveries.

ELT Revisited Marcela Malá, Zuzana Šaffková, 2016-08-17 This volume brings together selected papers presented during the 9th International Conference of the Association of Czech Teachers of English, titled "Teaching for Tomorrow" and hosted by the English Department of the Faculty of Science, Humanities and Education at the Technical University of Liberec, Czech Republic. The conference brought together English Language Teaching (ELT) professionals from primary, secondary and tertiary education to discuss a variety of English as a Foreign Language (EFL)-related topics, ranging from reports on language research to viewpoints and insights on classroom practice. The contributions are grouped into three sections: a) Focus on Selected Language Topics, b) Increasing Learner Autonomy and c) Innovative Teaching English as a Foreign Language (TEFL) ideas. Papers were carefully chosen in order to appeal to a broad audience. Consequently, there are articles which have a mainly theoretical bent and those which have a more practical leaning. Although the conference was hosted in the Czech Republic and the majority of participants were from this country, the book is relevant to any context where English is taught as a foreign or second language. Therefore, teachers, advanced students of English, language researchers, and, indeed, anyone engaged in the EFL profession will find this collection both educational and thought-provoking.

Native and Non-Native Teacher Talk in the EFL Classroom Eric Nicaise, 2020-11-11 Native and Non-Native Teacher Talk in the EFL Classroom explores and compares the linguistic features of native and non-native English teacher talk with the aid of corpus linguistics. Setting aside the wide range of audio and video materials available, the EFL teacher is in many instances the main model of English to which students are exposed in secondary-level education. The basis of this book is to work towards a framework for the language that teachers of English need to be proficient in, based on an empirical study of language used in the ELT classroom by both native and expert non-native users. Presenting a corpus-informed treatment of the precise linguistic features used by EFL teachers within the framework of their most common teaching functions, this book:

- Relates directly to the teacher talk of secondary-level EFL teachers;
- Combines quantitative and qualitative approaches to data analysis;
- Looks into pedagogical implications for ELT and proposes a flexible language development model based on evidence from the teacher training classroom;
- Provides a corpus-based repertoire of language for the classroom which is of relevance to native and non-native student-teachers and practising teachers.

Highlighting the need for much greater awareness of the impact of language use in both learning and teaching, this book is a major resource for advanced students and researchers of TESOL, classroom discourse, corpus linguistics, ELT, English for professional purposes, and teaching placement preparation.

EFL Context: One World Or Different Worlds? Abbas Deygan Darweesh Al-Duleimi, 2017-11-01 This book attempts to define English as a Foreign Language (EFL) and globalization based on the literature and highlighting its major facets. Discussing the spread of English and motives for this kind of spread, the book outlines some of the impacts the language has had on different societies, cultures and the kind of reactions this language has generated among different cultures. The spread of the English language can't be fully understood without the hegemonic nature of English. Yet, this book claims that, despite the hegemonic nature of English, it is still badly needed in the Arab world for the purpose of communicating with the world, education, acquiring technology and development at large. To teach English as such, it is necessary to change the traditional methods of instruction. It is important to solidify teaching of the native language, empower the learners to have more self-confidence through learning English, teach the language as a foreign, rather than second language, and make

changes in the curriculum in response to the needs of the learners and society.

A Comprehensive Reference Dictionary of Linguistics, A-D Huseynaga Rzayev, 2019-09-10 This exhaustive linguistic dictionary has been designed both for classroom use and for English language professionals. It provides a unique and effective learning source which 'mirrors' the continual spring of linguistic knowledge. It suggests a comprehensive, insightful analysis of the highly controversial and complicated issues of present day linguistics. This dictionary provides a pedagogical tool for those teaching various aspects of language to both upper level undergraduates and graduate level researchers, and exploits the benefits of Turkish, Azerbaijani and Russian language scholarship in this field.
