Teaching Kids with Learning Difficulties in Today's Classroom Susan Winebrenner, Lisa Kiss, 2017-02-28 A gold mine of practical, easy-to-use teaching methods, strategies, and tips to improve learning outcomes for students who score below proficiency levels. This fully revised and updated third edition of *Teaching Kids with Learning Difficulties in Today's Classroom* provides information on integrated learning, problem solving, and critical thinking in line with Common Core State Standards and 21st-century skills. It reflects the use of technology and schoolwide cluster grouping in support of all students and includes proven, practical, classroom-tested strategies and step-by-step instructions for how to use them. Sidebars throughout highlight special information for working with students on the autism spectrum; "tech tips" describe technologies that are especially useful for kids with LD. Digital content includes all of the book's customizable forms, additional content organization charts, and a PDF presentation for book study groups and professional development.

**A Time for Choosing** Jonathan M. Schoenwald, 2001 How did American conservatism, little more than a collection of loosely related beliefs in the late 1940s and early 1950s, become a coherent political and social force in the 1960s? What political strategies originating during the decade enabled the modern conservative movement to flourish? And how did mainstream and extremist conservatives, frequently at odds over tactics and ideology, each play a role in reshaping the Republican Party? In the 1960s conservatives did nothing less than engineer their own revolution. *A Time for Choosing* tells the remarkable story behind this transformation. In the first decade after World War II, two broad branches of organized conservatism emerged: mainstream or electoral conservatism and extremist conservatism. By the end of the 1950s, both groups had grown dissatisfied with the Republican party, yet they disagreed about how to create political change. Looking to private organizations as a means of exerting influence, extremists tapped the reserves of conservative discontent and formed maverick factions such as the John Birch Society. Mainstream conservatives, on the other hand, attempted to capture the GOP, seeking reform through the electoral and party systems. They drafted Barry Goldwater as their presidential candidate in 1964, and though he suffered a devastating defeat, the campaign electrified millions of Americans. Four years later, American conservatism, a perennial underdog in national politics, was firmly in the ascent. *A Time for Choosing*, making unprecedented use of archival material to document the strategies and influence of grassroots citizens' groups, provides the

fullest picture yet of the way conservatism's two cultures combined to build a triumphant political movement from the ground up. Where previous accounts of conservatism's rise tend to speed from 1964 through the start of the Reagan era in 1980, *A Time for Choosing* explores in dramatic detail how conservatives took immediate action following the Goldwater debacle. William F. Buckley, Jr.'s 1965 bid for Mayor of New York City and Reagan's 1966 California governor's campaign helped turn the tide for electoral conservatism. By decade's end, independent splinter groups vied for the right to bear the conservative standard into the next decade, demonstrating the movement's strength and vitality. Although conservative ideology was not created during the 1960s, its political components were. Here, then, is the story of the rise of the modern conservative movement. Provocative and beautifully written, *A Time for Choosing* is a book for anyone interested in politics and history in the postwar era.

Civil-Military Relations in International Interventions Karsten Friis, 2020-02-13 This book examines military and civilian actors in international interventions and offers a new analytical framework to apply on such interventions. While it is frequently claimed that success in international interventions hinges largely on military-civilian coherence, cooperation has proven challenging to achieve in practice. This book examines why this is the case, by analysing various approaches employed by military and civilian actors and discussing the different relationships between the intervening actors and those upon whom they have intervened. The work analyses different military concepts, such as peacekeeping and counterinsurgency, and the often-troubled relationship between the humanitarian and military intervening actors. It presents a new analytical framework to examine these relationships based on identification theory, which illuminates how the interveners represent those they have been deployed to engage, as well as their own identity and role. As such the book offers an enhanced understanding of the challenges related to civil-military cooperation in international interventions, as well as a theoretical contribution to the study of interventions, more generally. This book will be of much interest to students of international interventions, military studies, peacekeeping, security studies and International Relations.

The Negotiation of Urgency Mirko Pasquini, 2025-06-17 Who is to be attended first? And how should such a decision be made? *The Negotiation of Urgency: Economies of Attention in an Italian Emergency Room* ethnographically explores the everyday life of one of the thickest places in contemporary societies: the ER, where aging, economic precarity, draconian migration laws, hospital overcrowding, and life and death, intersect daily. The book describes the effect of those intersections for clinicians and their patients, as well as for policy makers and the health-care system more generally. Mirko Pasquini shows that there is more than medical urgency at stake in the ER, where mistrust of medical authority is fueled and violence often sparks. He analyzes the making of urgency, that is triage, not as a neutral medical way of sorting, but as a practice that actively creates difference through economies of attention. *The Negotiation of Urgency* illustrates both the limits of triage, and how those limits can spark improvisation and creative reinvention.

Ninety Humanists and the Ethical Transition of Britain Callum G. Brown, 2025-10-16 This book re-writes the origins of the progressive 1960s. It argues that 94 leading British intellectuals, nearly all humanists, were inspired by H.G. Wells to amend the ethical laws of the nation under a banner of "The Open Conspiracy". Using a wealth of correspondence and other materials covering 1930 to 1980, Callum Brown identifies a new motivation behind ethical change. Whilst established narratives attribute most changes to youth revolt, the sex revolution and feminism, he shows how a humanist-led network realigned much of the British state to the principles of humanitarianism, the autonomy of the individual, and internationalism. The author examines the network's campaigns and the work of individual intellectuals. High profile members come into focus, including Bertrand Russell, Julian Huxley, and Barbara Wootton. Highlighting the amazing breadth of the group's work, the book reveals 11 main areas of ethical ambition, ranging from abolishing world hunger, hanging, child beating and women's entrapment in abusive marriages, to nuclear disarmament and the promotion of federal world government. The result is a compelling new perspective on modern British history, and the key social and moral reforms of the past century.

*The Routledge Companion to Literature of the U.S. South* Katharine A. Burnett, Todd Hagstette, Monica Carol Miller, 2022-07-11 The Routledge Companion to Literature of the U.S. South provides a collection of vibrant and multidisciplinary essays by scholars from a wide range of backgrounds working in the field of U.S. southern literary studies. With topics ranging from American studies, African American studies, transatlantic or global studies, multiethnic studies, immigration studies, and gender studies, this volume presents a multi-faceted conversation around a wide variety of subjects in U.S. southern literary studies. The Companion will offer a comprehensive overview of the southern literary studies field, including a chronological history from the U.S. colonial era to the present day and theoretical touchstones, while also introducing new methods of reconceiving region and the U.S. South as inherently interdisciplinary and multi-dimensional. The volume will therefore be an invaluable tool for instructors, scholars, students, and members of the general public who are interested in exploring the field further but will also suggest new methods of engaging with regional studies, American studies, American literary studies, and cultural studies.

*Nymphs, Stoneflies, Caddisflies, and Other Important Insects* Ernest Schwiebert, 2007-09-01 Volume II After the mayfly

family, detailed in *Nymphs: The Mayflies*, the fly fisher must know the caddisfly, stonefly, and midge populations just as well to catch trout that are keyed in on such insects. *Nymphs: Caddisflies, Stoneflies, and Other Important Species* gives the reader all the essential information about identifying individual species of these insects throughout their North American range, and then delves into detailed instructions for scores of artificial patterns to imitate them. Few books in fishing literature have focused so closely on so many individual species of the particular genera of aquatic insects in this volume. And just as in *Nymphs: The Mayflies*, this book contains numerous stories and anecdotes from Schwiebert's travels that illuminate the selection and use of nymph patterns, and recount great days spent on the water as interpreted through one of the great minds of modern fly fishing.
