Major Aspects of Chinese Religion and Philosophy Chun Shan, 2012-06-26 The book addresses academically the major aspects of Chinese religion and philosophy, designated as the doctrine of being internal sage and external king. The perspective applied is the integration between western and Chinese scholarship and English readers may gain an easy and interesting access to Chinese intellectual tradition, distinctive itself in a harmony between being holy and secular in any mundane human being to the western tradition of "Give to Caesar what is Caesar's, and to God what is God's". By this contrast the intellectual charms and spiritual merits of Chinese tradition will be better appreciated, hence conducive to the much anticipated dialogues between western and eastern civilizations at this globalized yet conflicted world.

*Buddhism* Huston Smith, Philip Novak, 2009-03-17 Huston Smith and Philip Novak offer a highly readable and incisive guide to the heart of Buddhism, a quickly growing tradition with an increasing presence and importance in the Western world. The first half of the book is written by Smith, the world's premier authority on religious traditions. Smith traces the history of Buddhism, with a special focus on the differences and similarities between the Mahayana and Theravada traditions. Noted scholar (and former student of Smith) Novak then traces the spread of Buddhism out of Asia and into the West. Esoteric concepts like the Four Noble Truths and the Eightfold Path are explained in a clear and straightforward manner that those new to Buddhism will easily understand. This book will stand apart as the most concise, timely, and reliable introduction to Buddhism available today. Huston Smith is internationally known and revered as the premier teacher of world religions and for his bestselling book *The World's Religions*. He was the focus of a five-part PBS television series with Bill Moyers, and has taught at Washington University, the Massachusetts Institute of Technology, Syracuse University, and the University of California, Berkeley. Philip Novak is professor of philosophy and religion at Dominican University in San Rafael, CA, where he has won several teaching awards, and the editor of *The World's Wisdom*, the companion reader to Huston Smith's *The World's Religions*. Novak did his doctoral work with Huston Smith, and Smith considers him his most accomplished student. Novak is a committed Buddhist. "Stellar...outstanding....Highly recommended." -Library Journal

*The Philosophy of Buddhism* A. Verdu, 2012-12-06 The riddles that world-causation pose to the human mind lie at the bottom of all cosmological systems of thought. In their origins, all philosophical attitudes are conditioned by partiality and

perspectivism. The philosopher's attempted flight towards the seemingly remote kingdom of truth is often aborted by the binding twines of perspectival language. Thus his insights lose themselves in conflicting, contradictory manifestos. Greek cosmology, as it is formally set forth by the pre-Socratics, is a clear example of this weary pilgrimage of mind's embodied vision from angle to angle, from perspective to perspective. Not less is to be expected from the systems of Hinduism and, *mutatis mutandis*, also of Buddhist thought. More confined from the very outset to the study of reality as a study of human existence, of its awareness of embodiment, of its spatio-temporal bondage, and of its ultimate ontological status, Buddhism gave rise to truly astounding theories of life-world causation. The process of Buddhist thought, as it refers to the nature of the human experience as in-the-world existence, covers a vast range of doctrines, from original theories of pluralism and phenomenalism with sectional, multifarious and relativistic notions of causality, through the unitary conceptions of monistic idealism, up to the top of universal integrationism and dialectical totalism.

The World of Tibetan Buddhism Dalai Lama XIV Bstan-'dzin-rgya-mtsho, 1995-03-03 Introduces the basic beliefs of Buddhism, discusses the practice of lovingkindness, and looks at Vajrayana Buddhism and the path of tantra.

**Buddhism, Knowledge and Liberation** David Burton, 2017-03-02 Buddhism is essentially a teaching about liberation - from suffering, ignorance, selfishness and continued rebirth. Knowledge of 'the way things really are' is thought by many Buddhists to be vital in bringing about this emancipation. This book is a philosophical study of the notion of liberating knowledge as it occurs in a range of Buddhist sources. *Buddhism, Knowledge and Liberation* assesses the common Buddhist idea that knowledge of the three characteristics of existence (impermanence, not-self and suffering) is the key to liberation. It argues that this claim must be seen in the context of the Buddhist path and training as a whole. Detailed attention is also given to anti-realist, sceptical and mystical strands within the Buddhist tradition, all of which make distinctive claims about liberating knowledge and the nature of reality. David Burton seeks to uncover various problematic assumptions which underpin the Buddhist worldview. Sensitive to the wide diversity of philosophical perspectives and interpretations that Buddhism has engendered, this book makes a serious contribution to critical and philosophically aware engagement with Buddhist thought. Written in an accessible style, it will be of value to those interested in Buddhist Studies and broader issues in comparative philosophy and religion.

Critical Buddhism James Mark Shields, 2016-04-22 In the late 1980s and early 1990s, the relative calm world of Japanese Buddhist scholarship was thrown into chaos with the publication of several works by Buddhist scholars Hakamaya Noriaki and Matsumoto Shiro, dedicated to the promotion of something they called Critical Buddhism (hihan bukkyo). In their quest to re-establish a true - rational, ethical and humanist - form of East Asian Buddhism, the Critical Buddhists undertook a radical deconstruction of historical and contemporary East Asian Buddhism, particularly Zen. While their controversial work has received some attention in English-language scholarship, this is the first book-length treatment of Critical Buddhism as both a philosophical and religious movement, where the lines between scholarship and practice blur. Providing a critical and constructive analysis of Critical Buddhism, particularly the epistemological categories of critica and topica, this book examines contemporary theories of knowledge and ethics in order to situate Critical Buddhism within modern Japanese and Buddhist thought as well as in relation to current trends in contemporary Western thought.

Buddhism As Philosophy Mark Siderits, 2021-10-06 In Buddhism As Philosophy, Mark Siderits makes the Buddhist philosophical tradition accessible to a Western audience. Offering generous selections from the canonical Buddhist texts and providing an engaging, analytical introduction to the fundamental tenets of Buddhist thought, this revised, expanded, and updated edition builds on the success of the first edition in clarifying the basic concepts and arguments of the Buddhist philosophers. Since the publication of the first edition of Buddhism As Philosophy, the need for such a book has only grown as even more undergraduate programs are teaching Buddhist philosophy and looking for accessible materials that still do justice to the tradition's intellectual complexity. This updated version retains the first version's successful balancing act between fidelity to primary source material and application to general philosophical problems. The book teaches students how to do philosophy at the same time as it teaches them the particularities of Buddhist philosophy. Siderits moves fluidly from translations of primary texts to their explication and evaluation, both modeling expert philosophical methodology and pausing to explain to students how philosophical argumentation works. --Malcom Keating, Yale-NUS College
