**Ethics and the Sociology of Morals** Emile Durkheim,1993-11 Emile Durkheim (1858-1917) was one of the founders of modern sociology. Ethics and the Sociology of Morals (La science positive de la morale en Allemagne) laid the foundation for Durkheim's future work. More than a review of current thought, it was a proclamation that ethics needed to be liberated

from its philosophical bondage and developed as a distinct branch of sociology. Written when Durkheim was charting the course of his own research, it provides a unique key to the interpretation of his earlier work and presents a number of points of Durkheim's ethical theory which are of considerable interest in light of current ethical theory. This volume makes available in English a crucial essay by a master of social thought.

*The Intimate World of Abraham Lincoln* C.A. Tripp, 2005-01-11 In *The Intimate World of Abraham Lincoln*, C.A. Tripp offers a full examination of Lincoln's inner life and relationships that, as Dr. Jean Baker argues in the Introduction, will define the issue for years to come. The late C. A. Tripp, a highly regarded sex researcher and colleague of Alfred Kinsey, and author of the runaway bestseller *The Homosexual Matrix*, devoted the last ten years of his life to an exhaustive study of Abraham Lincoln's writings and of scholarship about Lincoln, in search of hidden keys to his character. Throughout this riveting work, new details are revealed about Lincoln's relations with a number of men. Long-standing myths are debunked convincingly—in particular, the myth that Lincoln's one true love was Ann Rutledge, who died tragically young. Ultimately, Tripp argues that Lincoln's unorthodox loves and friendships were tied to his maverick beliefs about religion, slavery, and even ethics and morals. As Tripp argues, Lincoln was an invert—a man who consistently turned convention on its head, who drew his values not from the dominant conventions of society, but from within. For years, a whisper campaign has mounted about Abraham Lincoln, focusing on his intimate relationships. He was famously awkward around single women. He was engaged once before Mary Todd, but his fiancée called off the marriage on the grounds that he was lacking in smaller attentions. His marriage to Mary was troubled. Meanwhile, throughout his adult life, he enjoyed close relationships with a number of men. He shared a bed with Joshua Speed for four years as a young man, and—as Tripp details here—he shared a bed with an army captain while serving in the White House, when Mrs. Lincoln was away. As one Washington socialite commented in her diary, What stuff! This study reaches far beyond a brief about Lincoln's sexuality—it is an attempt to make sense of the whole man, as never before. It includes an Introduction by Jean Baker, biographer of Mary Todd Lincoln, and an Afterword containing reactions by two Lincoln scholars and one clinical psychologist and longtime acquaintance of C.A. Tripp. As Michael Chesson explains in one of the Afterword essays, Lincoln was different from other men, and he knew it. More telling, virtually every man who knew him at all well, long before he rose to prominence, recognized it. In fact, the men who claimed to know him best, if honest, usually admitted that they did not understand him. Perhaps only now, when conventions of intimacy are so different, so open, and so much less rigid than in Lincoln's day, can Lincoln be fully understood.

**The Development of Ethics: Volume 2** Terence Irwin, 2008-07-31 *The Development of Ethics* is a selective historical and critical study of moral philosophy in the Socratic tradition, with special attention to Aristotelian naturalism. It discusses the main topics of moral philosophy as they have developed historically, including: the human good, human nature, justice,

friendship, and morality; the methods of moral inquiry; the virtues and their connexions; will, freedom, and responsibility; reason and emotion; relativism, subjectivism, and realism; the theological aspect of morality. This volume examines early modern moral philosophy from the sixteenth to the eighteenth century. Volume 3 will continue the story up to Rawls's Theory of Justice. The present volume begins with Suarez's interpretation of Scholastic moral philosophy, and examines seventeenth- and eighteenth- century responses to the Scholastic outlook, to see how far they constitute a distinctively different conception of moral philosophy. The treatments of natural law by Grotius, Hobbes, Cumberland, and Pufendorf are treated in some detail. Disputes about moral facts, moral judgments, and moral motivation, are traced through Cudworth, Clarke, Balguy, Hutcheson, Hume, Price, and Reid. Butler's defence of a naturalist account of morality is examined and compared with the Aristotelian and Scholastic views discussed in Volume 1. The volume ends with a survey of the persistence of voluntarism in English moral philosophy, and a brief discussion of the contrasts and connexions between Rousseau and earlier views on natural law. The emphasis of the book is not purely descriptive, narrative, or exegetical, but also philosophical. Irwin discusses the comparative merits of different views, the difficulties that they raise, and how some of the difficulties might be resolved. The book tries to present the leading moral philosophers of the past as participants in a rational discussion that is still being carried on, and tries to help the reader to participate in this discussion.

**Higher Education Ethics** Russell Porter, Janet Gordon, 2023-09-01 This book provides a typology of higher education ethics that infuses both cognitive and affective domains to help mitigate ethical issues in colleges and universities at the global level. The five ethical domains presented are decision ethics (with 24 ethical theories and 14 ethical decision-making processes), professional ethics, business ethics, organizational ethics, and social ethics at the national and global levels. Higher education accreditation issues are presented with a call to implement ethics committees to help provide proactive ethics programs to better educate faculty and staff in colleges and universities. Using 220 educational objectives and 16 ethical cases, as well as the Ethics Statements of the American Association of University Professors (AAUP) and the Society of Corporate Compliance and Ethics (SCCP), ethics and compliance officers, higher education administrators, higher education graduate students, and higher education student advisors are provided with specific ethical theories and ethics decision making processes to tackle ethics issues in higher education.
