Imagining Terrorism Pierpaolo Antonello, 2017-07-05 No other European country experienced the disruption of political and everyday life suffered by Italy in the so-called 'years of lead' (1969-c.1983), when there were more than 12,000 incidents of terrorist violence. This experience affected all aspects of Italian cultural life, shaping political, judicial and everyday language as well as artistic representation of every kind. In this innovative and broad-ranging study, experts from the fields of philosophy, history, media, law, cinema, theatre and literary studies trace how the experience and legacies of terrorism have determined the form and content of Italian cultural production and shaped the country's way of thinking about such events?

The Archipelago John Foot, 2018-05-17 'An enjoyable, highly readable history that manages to bring murky, often fiendishly complex events into the light' Sunday Times Italy emerged from the Second World War in ruins. Divided, invaded and economically broken, it was a nation that some people claimed had ceased to exist. And yet, as rural society disappeared almost overnight, by the 1960s, it could boast the fastest-growing economy in the world. In *The Archipelago*, historian John Foot chronicles Italy's tumultuous history from the post-war period to the present day. From the silent assimilation of fascists into society after 1945 to the artistic peak of neorealist cinema, he examines both the corrupt and celebrated sides of the country. While often portrayed as a failed state on the margins of Europe, Italy has instead been at the centre of innovation and change - a political laboratory. This new history tells the fascinating story of a country always marked by scandal but with the constant ability to re-invent itself. Comprising original research and lively insights, *The Archipelago* chronicles the crises and modernisations of more than seventy years of post-war Italy, from its fields, factories, squares and housing estates to Rome's political intrigue.

Stillness in Motion Sarah Patricia Hill, Giuliana Minghelli, 2014-11-21 *Stillness in Motion* brings together the writing of scholars, theorists, and artists on the uneasy relationship between Italian culture and photography. Highlighting the depth and complexity of the Italian contribution to the technology and practice of photography, this collection offers essays, interviews, and theoretical reflections at the intersection of comparative, visual, and cultural studies. Its chapters, illustrated

with more than 130 black and white images and an eight-page colour section, explore how Italian literature, cinema, popular culture, and politics have engaged with the medium of photography over the course of time. The collection includes topics such as Futurism's ambivalent relationship to photography, the influence of American photography on Italian neorealist cinema, and the connection between the photograph and Duchamp's concept of the Readymade. With contributions from writer and theorist Umberto Eco, photographer Franco Vaccari, art historian Robert Valtorta, and cultural historian Robert Lumley, *Stillness in Motion* engages with crucial historical and cultural moments in Italian history, examining each one through particular photographic practices.
