The Power of Hope Anthony Sciolli, Henry Biller, Henry B. Biller,2010-04 How to Find, Cultivate, and Sustain Hope in an Age of Anxiety The Power of Hope provides a wealth of tools for addressing the inevitable challenges of the human condition: fear, loss, illness, and death. Drawing on their personal journeys of overcoming hopelessness, Anthony Sciolli, Ph.D., and Henry Biller, Ph.D., also answer these questions: How do you build and sustain hope in trying times? How will hope help you achieve your life goals? How will hope improve your relationships with others? How can hope aid in recovery from trauma or illness? How will hope strengthen your spirituality? Understanding, cultivating, and sustaining the power of hope will allow you to realize a greater sense of purpose in life, boost your health and healing potential, strengthen your relationships, and increase your spiritual intelligence. The Power of Hope will keep you from being mired in a perpetual cycle of doom that permeates when the tools of hope are missing.

The A Level Mindset Steve Oakes, Martin Griffin, 2016-02-26 In *The A Level Mindset*, Steve Oakes and Martin Griffin share the secrets of coaching students to develop the characteristics, habits and mindsets which will help them realise their potential. Those students who make real and sustained progress at A level aren't necessarily the ones with superb GCSEs. Some students leap from average results aged 16 to outstanding results aged 18. Others seem to hit a ceiling. But why? It was in trying to answer this question that the VESPA system emerged. Steve and Martin have cut through the noise surrounding character development and identified five key characteristics that all students need to be successful: vision, effort, systems, practice and attitude. These characteristics beat cognition hands down. Successful students approach their studies with the right behaviours, skills and attitudes: they understand how to learn and revise effectively, they're determined and organised, they give more discretionary effort and they get top results. Success at A level is a result of character, not intelligence. Much has been written about growth mindsets and character development in recent years, but teachers are still left wondering how to apply these ideas in their contexts: how can these theories help learners in practice? Taking cues from the work of Peter Clough, Carol Dweck and Angela Lee Duckworth, and informed by their collective 30 plus years of teaching and coaching, Steve and Martin have spent years researching how character and behaviours affect student outcomes in their sixth form. After identifying the core traits that contributed to student success, they developed practical activities to help every student develop the A Level Mindset. Discover 40 concrete, practical and applicable tools and strategies that will supercharge learners' ambition, organisation, productivity, persistence and determination. Suitable for teachers, tutors, heads of sixth form or anyone else who wants to help A level students achieve their potential, *The A Level Mindset* offers 40 easy-to-use activities to develop students' resilience, commitment, buoyancy, motivation and determination. It could be your key to transforming student outcomes.
