

Humble Is The Way

Oscar C. Labang

Storytelling Sermons H. S. Ryu , Table of Contents Why Forgive? You are the salt and light of the world! Hungry and thirsty for righteousness They obey immediately leaving everything The Christian faith is not taught but caught through experiences. Obey Jesus even when you don't understand Experiencing Jesus Negative Fear & Positive Fear Greater obedience produce greater results Prophetic Gifts Walk with Jesus The power of giving thanks to God

The Greatness of Humility Joseph J. McInerney, 2016-02-15 The jury is out on the virtue of humility. Most people find humility a more attractive character trait in others than its opposites of pride and arrogance. Yet many philosophers, be they ancient or modern, find little value in humility as a virtue. For the Aristotelian moral tradition, humility is an impediment to greatness. Modern philosophers take this sentiment further, asserting that humility is a sham virtue that leads to unhappiness and human debasement. The Christian intellectual tradition, however, provides a contrast to these negative appraisals of humility. St. Augustine of Hippo is an eloquent and robust proponent of humility's value. Unlike the thinkers of the classical and modern philosophic traditions, Augustine asserts that humility is not only a significant virtue; it is the indispensable foundation of human greatness. *The Greatness of Humility* traces how Augustine makes his argument regarding the importance of humility and shows how his position measures up to those of his philosophical rivals.

Songs for Tomorrow Oscar C. Labang, 2010-04-30 ... The poems in this collection, consequently, speak the immortal language of confusion, betrayal, anger, hate, and despair, in relation to Cameroon and the world at large, yet there is room for true love, and forgiveness. It is true that in an increasingly unstable nation and a world that seems to have lost its head, the works of writers, such as the poets here assembled, must engage in a most powerful manner the goals and ethos of the entire human race. These then are poems by poets who are desperate yet practically involved in an individual but equally collective effort to trigger positive change throughout their national territory and wherever the wailing voices of mankind suffering under the yoke of oppression, disillusionment, and despair can be heard. Consequently, these are poems shaped by the poets' experiences and those of their societies as a whole. These poets mean their poems to reshape the cosmos, to shatter especially government sponsored illusions by making concrete the reality which has, until of recent, only been a mirage to the common man; hence, the socio-cultural nature of the contextual definition of this volume. Emmanuel Fru Doh

The True Life ,1890

An Introduction to Metaphysics John W. Carroll, Ned Markosian, 2010-04-08 This book is an accessible introduction to the central themes of contemporary metaphysics. It carefully considers accounts of causation, freedom and determinism, laws of nature, personal identity, mental states, time, material objects, and properties, while inviting students to reflect on metaphysical problems. The philosophical questions discussed include: What makes it the case that one event causes another event? What are material objects? Given that material objects exist, do such things as properties exist? What makes it the case that a person may exist at two different times? An Introduction to Metaphysics makes these tough questions tractable by presenting the features and flaws of current attempts to answer them. Intended primarily for students taking a first class in metaphysics, this lucid and well-written text would also provide an excellent introduction for anyone interested in knowing more about this important area of philosophy.
