Applied Statistical Learning Matthias Schonlau, 2023-08-02 This textbook provides an accessible overview of statistical learning methods and techniques, and includes case studies using the statistical software Stata. After introductory material on statistical learning concepts and practical aspects, each further chapter is devoted to a statistical learning algorithm or a group of related techniques. In particular, the book presents logistic regression, regularized linear models such as the Lasso, nearest neighbors, the Naive Bayes classifier, classification trees, random forests, boosting, support vector machines, feature engineering, neural networks, and stacking. It also explains how to construct n-gram variables from text data. Examples, conceptual exercises and exercises using software are featured throughout, together with case studies in Stata, mostly from the social sciences; true to the book's goal to facilitate the use of modern methods of data science in the field. Although mainly intended for upper undergraduate and graduate students in the social sciences, given its applied nature, the book will equally appeal to readers from other disciplines, including the health sciences, statistics, engineering and computer science.

The Puzzle Maker Alexandra Chatz, 2022-09-27 My mind functions like a puzzle. I receive from the environment, from Source, pieces of information that ring as truth to me. At some point a few pieces match together and the resulted perspective offers me a jump in consciousness. This is a journey to emotional and spiritual growth, so I've left the stages intact, even though my views on different topics have shifted over time. You as my reader, will get to witness this process and

maybe relate to it. You might even find your own shift. If just one person is comforted or inspired by my journey, then this book has reached the intended purpose of bringing a bit of good into the world. Mintea mea funcționează ca un puzzle. Primesc din mediul înconjurător, de la Sursă, fragmente de informație pe care le simt ca fiind adevărate. La un moment dat câteva astfel de fragmente se potrivesc împreună, iar perspectiva care rezultă din această unire îmi oferă un salt în conștiință. Aceasta este o călătorie spre dezvoltarea emoțională și spirituală, așa că am lăsat etapele intacte, deși opiniile mele despre diferite subiecte s-au schimbat în timp. Tu ca cititor al meu, vei putea să observi acest proces și poate să te identifice cu el. Poate chiar îți vei găsi propria evoluție. Dacă o singură persoană este alinată sau inspirată de călătoria mea, atunci această carte și-a atins obiectivul intenționat, acela de a aduce un pic de bine pe lume.

Leave a Light on for Christmas Barb Bissonette, 2013-04 *Leave a Light on for Christmas* is reminiscent of Christmases past and is old fashioned in its sincerity. It is Christmas Eve. The elderly woman narrating the story is rocking her great-grandchild by the light of her Christmas tree. She proceeds to tell the story behind every ornament on the tree, thereby telling her own life story. The book starts in 1935, covers the war years, and the many important changes that have led up to present day. The story is told year by year, as Christmas comes around and the ornaments on the old woman's tree reflect the changes and events of her life. Set in present day, the narrator reflects back on her childhood until gradually her life story is told, one Christmas at a time.
