Publishing as a Creative Industry Stevie Marsden,2025-04-21 Book publishing is big business, contributing significant employment in the creative industries and adding billions to the global economy. Despite this, the sector is often overlooked in the creative industries' research tide. This book remedies this gap in knowledge, providing an examination of book publishing in the UK within the wider context of the creative industries and the existing academic discourse. Balancing the tensions of art and commerce perhaps more than any other creative field, this book considers the position of the book publishing industry within the contemporary cultural economy. Through this focused analysis on the culture(s) and organisation(s) of book publishing in the UK, the author demonstrates how this creative industry reflects, and perpetuates, many of the key issues and challenges, including inequalities in representation, cultural and economic dominance of global conglomerates, and hierarchies of value, already recognised as central within the creative industries in the UK and beyond. This concise book will be essential reading for academics, researchers, and students with an interest in the publishing industry and its position within the UK Creative Industries and cultural economy.

The World of Work to 2030 Russell Beck,2024-02-01 *Winner of the Leadership Book of the Year 2024, as awarded by the UK's Institute of Leadership* A book that helps make sense of the megatrends playing out in the world today and, as a result, how individuals can future-proof their businesses and careers. In the context of work, consider two headlines that we

face on a regular basis. Firstly, that the financial reality is few of us can afford to retire and, secondly, that robots and AI are destroying the very jobs we need to make a living. How are these two realities compatible? At the same time, the business landscape is full of hazards, with globalization, technology, talent shortages, changing consumer choices and politics all making it harder to create and maintain success. Competitors seemingly arrive from nowhere overnight, challenging and upending our markets. It is all up in the air, it is all happening at once and it is happening to all of us. From any perspective – personal or corporate – shouldn't we seek to understand what is happening and prepare ourselves for what is coming next? The World of Work to 2030 is a practical book that addresses these challenges. With a timeline to enable immediate action to be taken, and backed by extensive research, it is aimed at anyone who wants to know how to navigate the commercial and personal uncertainty of the future. The book considers the megatrends playing out in the world today and then through a series of lenses it explains how businesses and individuals can future-proof themselves. Illustrated through a broad range of case studies applied to markets around the world, this is a smart examination of the future of work and how to overcome its challenges.

Project Management for Book Publishers John Rodzvilla, 2024-07-18 Project Management for Book Publishers provides readers with a solid understanding of efficient processes and workflows for content creation, product development, and the marketing and distribution of both physical and digital products. Digital has brought more data, more training, and more accountability to the publishing process. But it has also shone light on how systems designed initially around print-first

publications are ill-equipped to support an industry of now would-be digital media companies. This book addresses some of the major challenges for publishing houses facing this reality, including how to create a digital-aware workflow, implementing quality assurance procedures, and using different management systems to develop an efficient workflow. Beginning by explaining project and product management practices used throughout technology and media companies, it then delves into when and how these principles can be applied to the publishing workflow. Topics covered include Waterfall and Agile Project Management, Scrum methodology, Kanban framework, ebook and audio formats, metadata, quality assurance, crowdfunding, in-app monetization, ONIX, and accessibility. Readers will consider not just how to contend with online platforms that allow authors to publish with the click of a button, and audiences accustomed to accessing content across multiple platforms and formats, but also challenges arising from factors such as the data-driven acquisitions model in libraries, the downward spiral of sales in college bookstores, the call for accessibility, and the need for fluid content systems that can work with different publishing databases and software. Written for publishing professionals at all levels, this book will also help advanced students of Publishing and Book Studies navigate best practices for project management in the modern publishing landscape.

Eritrea's Gold Rush Charlotte Touati, 2025-10-02 Leading Horn of Africa expert Charlotte Touati exposes the role played by Canadian gold mining company Nevsun and other global actors in propping up the regime of Isayas Aferwerki, one of Africa's most dangerous dictators.? In so doing, Touati shows how global capital networkshelp perpetuate economic and political instability in the Horn of Africa, which in turn is fostering violence and volatility throughout other parts of the world. Using a narrative framework and a core cast of characters to help guide non-specialist readers through her findings, Touati explains the enormous significance of how Nevsun partnered with Aferwerki to open the Bisha gold mine and save his regime from bankruptcy. As Touati relates, when Eritrean refugees later claimed they were “conscripted” to work in the mines without pay and abused as part of their National Service, Nevsun hired lobbyists to defend Eritrea's actions and cast the very notion of human rights as a Western “Trojan horse.” Australian, Chinese, and Russian actors gradually became involved, and philological analysis shows that the propaganda and disinformation campaigns of the infamous Russian Wagner Group ultimately stem from the rhetoric of Aferwerki and his lobbyists. Ultimately, this violently anti-Western rhetoric was injected into a pan-Africanist discourse to become an ideological and rhetorical toolbox. It was used to prevent any intervention on behalf of Eritreans trapped in their own country or Tigrayans genocided in neighboring Ethiopia in the name of sovereignty, and also to legitimize new conflicts throughout the Sahel and the rest of Africa's notorious “Coups Belt.” It takes on even wider global dimensions when we consider the ongoing crisis around the Red Sea ports, which Eritrea controls, and the question of the influence of the Gulf States in the Horn of Africa.

Finding God in All the Black Places Beretta E. Smith-Shomade, 2024-10-11 This book is also freely available online as an

open-access digital edition: <https://manifold.ecds.emory.edu/projects/finding-god-in-all-the-black-places> (<https://dhjhkxawhe8q4.cloudfront.net/rup-wp-v2/wp-content/uploads/2025/01/28132142/9781978839809.pdf>) In *Finding God in All the Black Places*, Beretta E. Smith-Shomade contends that Black spirituality and Black church religiosity are the critical crux of Black popular culture. She argues that cultural, community, and social support live within the Black church and that spirit, art, and progress are deeply entwined and seal this connection. Including the work of artists such as Mary J. Blige, D'Angelo, Erykah Badu, Prince, Spike Lee, and Oprah Winfrey, the book examines contemporary Black television, film, music and digital culture to demonstrate the role, impact, and dominance of spirituality and religion in Black popular culture. Smith-Shomade believes that acknowledging and comprehending the foundations of Black spirituality and Black church religiosity within Black popular culture provide a way for viewers, listeners, and users not only to endure but also to revitalize.
