Jung's Red Book For Our Time Murray Stein, Thomas Arzt, 2020-03-12 Edited by Murray Stein and Thomas Arzt, the essays in the series Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions are geared to the recognition that the posthumous publication of The Red Book: Liber Novus by C. G. Jung in 2009 was a meaningful gift to our contemporary world. To give birth to the ancient in a new time is creation, Jung inscribed in his Red Book. The essays in this volume continue what was begun in Volume 1 of Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions by further contextualizing The Red Book culturally and interpreting it for our time. It is significant that this long sequestered work was published during a period in human history marked by disruption, cultural disintegration, broken boundaries, and acute anxiety. The Red Book offers an antidote for this collective illness and can be seen as a link in the aurea catena, the golden chain of spiritual wisdom extending down through the ages from biblical times, ancient Greek philosophy, early Christian and Jewish Gnosis, and alchemy. The Red Book is itself a work of creation that gives birth to the old in a new time. This is the second volume of a three-volume series set up on a global and multicultural level and includes essays from the following distinguished Jungian analysts and scholars: - Murray Stein and Thomas Arzt Introduction - John Beebe The Way Cultural Attitudes are Developed in Jung's Red Book - An Interview - Kate Burns Soul's Desire to become New: Jung's Journey, Our Initiation - QiRe Ching Aging with The Red Book - Al Collins Dreaming The Red Book Onward: What Do the Dead Seek Today? - Lionel Corbett The Red Book as a Religious d104 - John Dourley Jung, the Nothing and the All - Randy Fertel Trickster, His Apocalyptic Brother, and a World's Unmaking: An Archetypal Reading of Donald Trump - Noa Schwartz Feuerstein India in The Red Book Overtones and Undertones - Grazina Gudaite Integrating Horizontal and Vertical Dimensions of Experience under Postmodern Conditions - Lev Khegai The Red Book of C.G. Reading the Red Book Sanford L. Drob, 2023-03-28 The long-awaited publication of C. G. Jung's Red Book in October 2009 was a signal event in the history of analytical psychology. Hailed as the most important work in Jung's entire corpus, it is as enigmatic as it is profound. Reading The Red Book by Sanford L. Drob provides a clear and comprehensive guide to The Red Book's narrative and thematic content, and details The Red Book's significance, not only for psychology but for the history of ideas.

Lament of the Dead James Hillman, Sonu Shamdasani, 2013-08-19 With Jung's Red Book as their point of departure, two leading scholars explore issues relevant to our thinking today. In this book of dialogues, James Hillman and Sonu Shamdasani reassess psychology, history, and creativity through the lens of Carl Jung's Red Book. Hillman, the founder of Archetypal Psychology, was one of the most prominent psychologists in America and is widely acknowledged as the most original figure to emerge from Jung's school. Shamdasani, editor and cotranslator of Jung's Red Book, is regarded as the leading Jung historian. Hillman and Shamdasani explore a number of the issues in the Red Book—such as our relation with the dead, the figures of our dreams and fantasies, the nature of creative expression, the relation of psychology to art, narrative and storytelling, the significance of depth psychology as a cultural form, the legacy of Christianity, and our relation to the past—and examine the implications these have for our thinking today.

The Red Book: Reflections on C.G. Jung's Liber Novus Thomas Kirsch, George Hogenson, 2017-09-19 In 2009, WW Norton published 'The Red Book', a book written by Jung in 1913-1914 but not previously published. Snippets of information about the likely contents of the Red Book had been in circulation for years, and there was much debate and eager anticipation of its publication within the Jungian field and the larger reading public. In 2010, a conference was held at the San Francisco Jungian Institute which brought together an international group of distinguished scholars in analytical psychology to explore and address critical contextual aspects of 'The Red Book' and to debate its importance for current and future Jungian theory and practice. The Red Book: Reflections on C.G. Jung's Liber Novus is based on that conference, the individual papers have been thoroughly revised and updated for this book and address some of the important questions and issues that were raised at that conference in response to the presentation of these papers. As yet there has been very little published about 'The Red Book'. The Red Book: Reflections on C.G. Jung's Liber Novus will contribute to setting the agenda for further research, both scholarly and clinical, in response to Jung's account of his experiences between 1913-1914, when arguably, the future course of his entire project was set in motion. This book will be essential reading for any Jungian interested in the importance of The Red Book, analytical psychologists, trainee analysts, those with an interest in the history of ideas and historians.

Answer to Jung Lynn Brunet, 2018-11-08 The Red Book is C.G. Jung's record of a period of deep penetration into his

unconscious mind in a process that he called 'active imagination', undertaken during his mid-life period. Answer to Jung: Making Sense of 'The Red Book' provides a close reading of this magnificent yet perplexing text and its fascinating images, and demonstrates that the fantasies in The Red Book are not entirely original, but that their plots, characters and symbolism are remarkably similar to some of the higher degree rituals of Continental Freemasonry. It argues that the fantasies may be memories of a series of terrifying initiatory ordeals, possibly undergone in childhood, using altered or spurious versions of these Masonic rites. It then compares these initiatory scenarios with accounts of ritual trauma that have been reported since the 1980s. This is the first full-length study of The Red Book to focus on the fantasies themselves and provide such an external explanation for them. Sonu Shamdasani describes The Red Book as an incomplete task that Jung left to posterity as a 'message in a bottle' that would someday come ashore. Answer to Jung brings its message to shore, providing a coherent, but disturbing, interpretation of each of the fantasies and their accompanying images. The Red Book Carl Gustav Jung, Ulrich Hoerni, 2009 When Carl Jung embarked on an extended self-exploration, the result was The Red Book, a large, illuminated volume he created between 1914 and 1930. However, only a handful of people had ever seen it. It has since been translated from the original German and is now it is available to scholars and the general public in both a large format version (40 cm. height) which includes facsimile reproduction of the handwritten German text and color illustrations, or the smaller Reader's edition (23 cm. height) which consists of the English translation and translator's notes.

Journey Into Jung's Red Book: Liber Primus J. C. Andrijeski, 2010-07-17 A personal and theoretical look at SLiber Primus, the first of the collection of books written by psychologist Carl Jung that were collectively entitled SThe Red Book. Unpublished until October of 2009, SThe Red Book is considered by many, including Jung himself, to be the foundation of all of Jung's groundbreaking theories and writings to follow.

It sheds light on the great mysteries of human nature and the new dimension uncovered by Jung and Freud: the universe of the unconscious and the possible ways to approach it.

Jung's Red Book For Our Time Murray Stein, Thomas Arzt, 2021-09-25 Edited by Murray Stein and Thomas Arzt, the essays in the series Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions are geared to the recognition that the posthumous publication of The Red Book: Liber Novus by C.G. The Red Book can be considered as a contribution to the Golden Chain (aurea catena) of the world's imaginative literature reaching back to the ancient Sumerian Epic of Gilgamesh. As Jung describes this tradition in a letter to

Max Rychner, Faust is the most recent pillar in that bridge of the spirit which spans the morass of world history, beginning with the Gilgamesh epic, the I Ching, the Upanishads, the Tao-te-Ching, the fragments of Heraclitus, and continuing in the Gospel of St. John, the letters of St. Paul, in Meister Eckhart and in Dante. The Red Book extends the Golden Chain into our era. Each of the 18 essays in this third volume of the series, Jung's Red Book for Our Time, is unique, and all of them converge on the central theme of the relevance of The Red Book for people today in search of soul under postmodern conditions. The Black Books C. G. Jung, 2020-10-13 Until now, the single most important unpublished work by C.G. Jung—The Black Books. In 1913, C.G. Jung started a unique self-experiment that he called his “confrontation with the unconscious”: an engagement with his fantasies in a waking state, which he charted in a series of notebooks referred to as The Black Books. These intimate writings shed light on the further elaboration of Jung’s personal cosmology and his attempts to embody insights from his self-investigation into his life and personal relationships. The Red Book drew on material recorded from 1913 to 1916, but Jung actively kept the notebooks for many more decades. Presented in a magnificent, seven-volume boxed collection featuring a revelatory essay by noted Jung scholar Sonu Shamdasani—illuminated by a selection of Jung’s vibrant visual works—and both translated and facsimile versions of each notebook, The Black Books offer a unique portal into Jung’s mind and the origins of analytical psychology.

Jung's Red Book for Our Time Murray Stein ,Thomas Arzt,2021-09-25 The spiritual malaise regnant in today's disenchanted world presents a picture of "a polar night of icy darkness," as Max Weber wrote already a century ago. This collective dark night of the soul is driven by climate change-related disasters, rapid technological innovations, and opaque geostrategic realignments. In the wake of what policy analysts refer to as "Westlessness," the postmodern age is characterized by incessant distractions, urgent calls to responsibility, and in-humanly short deadlines, which result in a general state of exhaustion and burnout. The hovering sense of living in a time frame that is post-histoire induces states of confusion on a personal level as well as in the realm of politics. Totally missing is a grand narrative to guide humanity's vision in the midst of a world crisis. Thinkers, scholars, and Jungian analysts are increasingly looking to C.G. Jung's monumental oeuvre, The Red Book, as a source for guidance to re-enchant the world and to find a new and deeper understanding of the homo religiosus. The essays in this series on Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions circle around this objective and offer countless points of entry into this inspiring work.

The Red Book C. G. Jung,2013-10-21 A portable edition of the famous Red Book text and essay. The Red Book, published to wide acclaim in 2009, contains the nucleus of C. G. Jung's later works. It was here that he developed his principal theories of the archetypes, the collective unconscious, and the process of individuation that would transform psychotherapy from treatment of the sick into a means for the higher development of the personality. As Sara Corbett wrote in the New York Times, "The creation of one of modern history's true visionaries, The Red Book is a singular work, outside of categorization. As an inquiry into what it means to be human, it transcends the history of psychoanalysis and underscores Jung's place among revolutionary thinkers like Marx, Orwell and, of course, Freud." The Red Book: A Reader's Edition features Sonu Shamdasani's introductory essay and the full translation of Jung's vital work in one volume.

Jung's Red Book for Our Time: Searching for Soul In the 21st Century Murray Stein,2022-12-10 Do we, like Jung,

need to leave the spirit of the time and follow the spirit of the depths, to call out my soul, where are you? through the windows of our now post-modern homes? We live in a digital world of incredible virtual inter-connectedness but at the same time fragmented and divided on many levels, including the psychological. The pace of life is rapid and ever accelerating. The spirit of the time is flux: It twitters. There is no sense of coherence in the whole. The guidance of a transcendent North Star is invisible to the naked eye of consciousness. Our existential crisis is not about the individual alone. It infects the entire human world, like the Covid-19 pandemic. Wars between cultural brothers and sisters, increasingly dire effects of climate change, economic disruptions, hunger, migration-these conditions affect everyone on the planet. Is there a spirit of the depths that can take us through this Inferno, perhaps toward the emergence of a meaningful narrative that can stabilize the global community and provide a collective sense of supreme meaning? This is the search for soul in the 21st Century.

Bert on Carl G. Jung's Red Book Bert L. Long, Carl Gustav Jung, C.G. Jung Educational Center of Houston, Texas, 2010

Jung's Nietzsche Gaia Domenici, 2019-07-29 This book explores C.G. Jung's complex relationship with Friedrich Nietzsche through the lens of the so-called 'visionary' literary tradition. The book connects Jung's experience of the posthumously published *Liber Novus* (The Red Book) with his own (mis)understanding of Nietzsche's Zarathustra, and formulates the hypothesis of Jung considering Zarathustra as Nietzsche's *Liber Novus* -- both works being regarded by Jung as 'visionary' experiences. After exploring some 'visionary' authors often compared by Jung to Nietzsche (Goethe, Hölderlin, Spitteler, F. T. Vischer), the book focuses upon Nietzsche and Jung exclusively. It analyses stylistic similarities, as well as explicit references to Nietzsche and Zarathustra in *Liber Novus*, drawing on Jung's annotations in his own copy of Zarathustra. The book then uses *Liber Novus* as a prism to contextualize and understand Jung's five-year seminar on Zarathustra: all the nuances of Jung's interpretation of Zarathustra can be fully explained, only when compared with *Liber Novus* and its symbology. One of the main topics of the book concerns the figure of 'Christ' and Nietzsche's and Jung's understandings of the 'death of God.'

The Red Book Hours Jill Mellick, 2018 In 1913, psychiatrist and psychoanalyst Carl Gustav Jung (1875-1961) experienced an episode of psychosis, seeing visions and hearing voices in what he called a horrible 'confrontation with the unconscious.' But, instead of seeking to minimize the hallucinations after this initial episode, Jung believed there was tremendous value in this unconscious content and developed methods to encourage hallucinations. Over some sixteen years, he recorded his experiences in a series of small journals, which he later transcribed in a large, red, leather-bound volume, commonly known as 'The Red Book'. Jung never published the *Liber Novus*, as he called this pivotal part of his oeuvre, and left no instructions for its final disposition, and it therefore remained unpublished until recently. 'The Red Book Hours' complements the facsimile edition and English-language translation of 'The Red Book', published in 2009, and draws out the insights into Jung's affinity with art as a means of personal insight.
