

Killing Hope William Blum

Ray Pratt

Killing Hope William Blum, 2003-07-31 Is the United States a force for democracy? From China in the 1940s to Guatemala today, William Blum presents a comprehensive study of American covert and overt interference, by one means or another, in the internal affairs of other countries. Each chapter of the book covers a year in which the author takes one particular country case and tells the story - and each case throws light on particular US tactics of intervention.

Killing Hope William Blum, 1995

America on the Brink David Ray Griffin, 2023-05-01 The American government, through its media, has convinced most Americans to support the Ukrainian government. This book shows why this is a mistake: The United States promised Mikhail Gorbachev that NATO would not expand "one inch eastward"; and there had been ample warnings, by George Kennan and others, that moving NATO eastward, especially moving into Georgia and Ukraine, would cause problems for Russia. In Ukraine prior to 2014, Ukrainian and Russian speakers were coexisting tolerably well. But in 2013 and 2014, neocons in Obama's administration engineered a coup, with help from neo-Nazis, turning Ukraine into a Russia-hating nation. The war in Ukraine began that year (not in 2022, when Russia attacked in order to protect the Russian-speaking regions under attack by the new coup government in Kiev). Although this book is primarily about the war in Ukraine, it also shows how, in one sense, the war in Ukraine is simply one more instance in the trajectory of American imperialism, as illustrated by previous US interventions in Iran, Guatemala, Cuba, Brazil, Greece, Dominican Republic, Panama and Iraq. In another sense, this war reveals just how committed America is to maintaining a unipolar world order: Because this war illustrates that America is willing to threaten nuclear holocaust, it is almost as if people in the U.S. State Department and military believe that life is not worth living unless the US can control the world.

Christianity and Social Systems Rosemary Radford Ruether, 2008-09-26 From the earliest interactions of Christians with the Roman Empire to today's debates about the separation of church and state, the Christian churches have been in complex relationships with various economic and political systems for centuries. Renowned theologian Rosemary Radford Ruether analyzes the ways the Christian church has historically interacted with powerful systems such as patriarchy, racism, slavery, and environmentalism, while looking critically at how the church shapes these systems today. With a focus on the United States, *Christianity and Social Systems* provides an introductory analysis of the interactions between the churches

and major systems that have shaped western Christian and post-Christian society. Ruether discusses ideologies, such as liberalism and socialism, and includes three country case studies-Nicaragua, South Africa, and North and South Korea-to further illustrate the profound influences Christianity and social systems have with each other. This book is neither an attack on the relationship between Christianity and these systems, nor an apology, but rather a nuanced examination of the interactions between them. By understanding how these interactions have shaped history, we can more fully understand how to make ethical decisions about the role of Christianity in some of today's most pressing social issues, from economic and class disparities to the environmental crisis.

Projecting Paranoia Ray Pratt,2001 A wide-ranging and idiosyncratic look at sixty years of politics and film that uncovers how American movies have mirrored and even challenged anxieties and paranoid perceptions embedded in American society since the start of the Cold War. The first book to take a sweeping look at 60 years of film and analyze them thematically.

Black Leather Shoes Berta Alicia Ramirez-Galan,2013-11-18 While living in Canada she goes for an appointment to a hospital. The physiotherapist that interviews her is wearing a pair of shiny and well cared for black leather shoes that transport her in a flashback to her native country El Salvador, torn by war, remembering the times since she was little and the images of her in a pair of black leather shoes and the events of the war she witnessed and survived through. The flashback is ended by the strong odour of formaldehyde as she finds herself lost in the hospital.

Roman Self-Representation and the Lukan Kingdom of God Michael Kochenash,2020-10-23 Framed within a discussion on the use of biblical texts for reasoning about social, cultural, and political realities, Roman Self-Representation and the Lukan Kingdom of God explores the construction of the kingdom of God in Luke and Acts through the lens of Rome's presentation of its own empire. By evoking the audience's lived experience of Roman rule—its stories, works of literature, monuments, and images—the Lukan narratives communicate about God's kingdom in a culturally meaningful way, sometimes mirroring, sometimes diverging from, and sometimes subverting the logic of these expressions of Roman rule. Touching on a wide range of issues—including gender, ethnic representation, status disparities, economic and military imperialism, and violence—this book is suggestive regarding both the Lukan vision of the kingdom of God and Lukan dispositions toward aspects of Roman rule.

Bound by Power Jeffery Klaehn,2006 Examines how power operates within the world and the various costs which can ensue from dissent.

History and Hope Kevin M. Cahill,2013-09-01 History and Hope: The International Humanitarian Reader provides a better understanding—both within and outside academia—of the multifaceted demands posed by humanitarian assistance programs. The Reader is a compilation of the most important chapters in the twelve-volume International Humanitarian Affairs book series published by Fordham University Press. Each selected chapter has been edited and updated. In addition,

the series editor, Kevin M. Cahill, M.D., has written, among other chapters, an introductory essay explaining the academic evolution of the discipline of humanitarian assistance. It focuses on the “Fordham Experience”: its Institute of International Humanitarian Affairs (IIHA) has developed practical programs for training fieldworkers, especially those dealing with complex emergencies following conflicts and man-made or natural disasters.

Oil, Power and Empire Larry Everest, 2004 How the U.S. intervention is reshaping the world.

Endless Holocausts David Michael Smith, 2023-01-01 An argument against the myth of American exceptionalism Endless Holocausts: Mass Death in the History of the United States Empire helps us to come to terms with what we have long suspected: the rise of the U.S. Empire has relied upon an almost unimaginable loss of life, from its inception during the European colonial period, to the present. And yet, in the face of a series of endless holocausts at home and abroad, the doctrine of American exceptionalism has plagued the globe for over a century. However much the ruling class insists on U.S. superiority, we find ourselves in the midst of a sea change. Perpetual wars, deteriorating economic conditions, the resurgence of white supremacy, and the rise of the Far Right have led millions of people to abandon their illusions about this country. Never before have so many people rejected or questioned traditional platitudes about the United States. In Endless Holocausts author David Michael Smith demolishes the myth of exceptionalism by demonstrating that manifold forms of mass death, far from being unfortunate exceptions to an otherwise benign historical record, have been indispensable in the rise of the wealthiest and most powerful imperium in the history of the world. At the same time, Smith points to an extraordinary history of resistance by Indigenous peoples, people of African descent, people in other nations brutalized by U.S. imperialism, workers, and democratic-minded people around the world determined to fight for common dignity and the sake of the greater good.

Rogue State William Blum, 2006-02-13 Rogue State and its author came to sudden international attention when Osama Bin Laden quoted the book publicly in January 2006, propelling the book to the top of the bestseller charts in a matter of hours. This book is a revised and updated version of the edition Bin Laden referred to in his address.

Boomerang! Mark Zepezauer, 2003 Why secretly arming a bunch of bloodthirsty terrorists maybe wasn't such a good idea after all.

America's Deadliest Export William Blum, 2013-01-01 'A fireball of terse information.' Oliver Stone 'A remarkable collection. Blum concentrates on matters of great current significance, and does not pull his punches. They land, backed with evidence and acute analysis.' Noam Chomsky For over sixty-five years, the United States war machine has been on automatic pilot. Since World War II we have been conditioned to believe that America's motives in 'exporting' democracy are honorable, even noble. In this startling and provocative book, William Blum, a leading dissident chronicler of US foreign policy and the author of controversial bestseller Rogue State, argues that nothing could be further from the truth. Moreover, unless this

fallacy is unlearned, and until people understand fully the worldwide suffering American policy has caused, we will never be able to stop the monster.

The Politics of Liberation Nicky González Yuen,2000

The American Empire and the Commonwealth of God David Ray Griffin,2006-05-17 In this book, four distinguished scholars level a powerful critique of the rapid expansion of the emerging American empire and its oppressive and destructive political, military, and economic policies. Arguing that a global Pax Americana is internationally disastrous, the authors demonstrate how America's imperialism inevitably leads to rampant irreversible ecological devastation, expanding military force for imperialistic purposes, and a grossly inequitable distribution of goods--all leading to the diminished well-being of human communities.

Lying for Empire David Model,2005 Portraits of eight presidents illuminate the pursuit of empire.

The CIA's Black Ops John Jacob Nutter,2000 A specialist in covert action argues that the U.S. has become too enamored with the CIA--that black ops have become U.S. foreign policy and that the CIA has developed into a policy maker, dangerous independent of the government that created it.

Plays Four Caryl Churchill,2008 Includes a revival of her best-known play, *Cloud Nine* and a new translation, *Bliss*.

The Catalyst Towards Victory Muhammad Hadi bin Muhammad Melayong,2010 ... illustrates Brunei's major political development from the announcement of the Malaysian proposal in May 1961 by Tunku Abdul Rahman, the Prime Minister of the Federation of Malaya up to the abdication of His Majesty the late, (Al-Marhum) Sultan Haji Omar 'Ali Saifuddien III (SOAS III) the 28th Sultan of Brunei in 1967--Pref.
