**The Last Hours of Ancient Sunlight: Revised and Updated Third Edition** Thom Hartmann, 2007-12-18 While everything appears to be collapsing around us - ecodamage, genetic engineering, virulent diseases, the end of cheap oil, water shortages, global famine, wars - we can still do something about it and create a world that will work for us and for our children's children. The inspiration for Leonardo DiCaprio's feature documentary movie *The Eleventh Hour* and soon to be released HBO special *Ice on Fire*, *Last Hours of Ancient Sunlight* details what is happening to our planet, the reasons for our culture's blind behavior, and how we can fix the problem. Thom Hartmann's comprehensive book is one of the fundamental handbooks of the environmental activist movement. Now with fresh, updated material on our Earth's rapid climate change and a focus on political activism and its effect on corporate behavior, *The Last Hours of Ancient Sunlight* helps us understand - and heal - our relationship to the world, to each other, and to our natural resources.

*The Last Hours of Ancient Sunlight* Thom Hartmann, 2001-12 The world is reaching crisis point, as population growth escalates out of control, and species and cultures are being destroyed. With humans across the globe encroaching further and further upon Earth's resources, the realisation that the supply is finite has dawned and we now face the urgent dilemma of knowing how to create a sustainable future for ourselves. In this important book, award-winning author and international lecturer Thom Hartmann puts forward his lasting solution to our survival. Teaching us a new way of seeing, Hartmann introduces us to the lessons of our ancient ancestors - those which allowed sustainable living for many thousands of years but

which we've forgotten. It is a call for consciousness combining spirituality and ecology that offers real hope for the future.

**Six Stages on the Spiritual Path** Ruth Whitney, 2021-05-21 In *Six Stages on the Spiritual Path*, we learn about spirituality and its stages as well as how spirituality helps to reduce our suffering and create more love. Writings from ancient to contemporary mystics across the world provide us with practical and spiritual wisdom that will make our lives happier and more loving. In the first stage on the mystic way, children experience awe and wonder, but they do not realize that this is a spiritual experience. While all indigenous people recognize awe as a mystical experience, only some adults and most artists do. When parents and religious leaders teach children about God, they cause their spiritual growth to flourish or to become stunted at an elementary school level. Awakening is an experience of the Divine that helps us realize that the Sacred Spirit is within us and loves us. Awakening produces love for our neighbors and ourselves. Then love nurtures more awakenings. Illumination and union are deeper mystical experiences that the Holy One is not only within all of us and all of creation, but also that we are within the ONE. Illumination creates more love for all people and all the universe.

**The Osaro Theory** Efosa Osaro, 2019-07-11 The Osaro Theory suggests that there is a variation between those who evolved in tropical conditions and those who evolved in a colder climate. It is the author's belief that these environmental differences have altered not only the physiology but are also responsible for the biological and the behavioral differences between blacks, whites and Asians. The 'Emotional Reservoir' is a phrase he coined based on the study of the enormous effect of the sun on the earth and how it affects human biology, physiology, and behavior. According to his theory, these environmental differences have numerous effects on human beings; also on how the environment can dictate human intelligence. This theory also suggests that the people who evolved out of sub-Saharan Africa tend to possess more

'Emotional Reservoir' than the Europeans and Asians who evolved in a colder environment and who tend to have a lesser 'Emotional Reservoir'. Furthermore, this higher 'Emotional Reservoir' is also responsible for certain behaviors that are detrimental to the growth and the stability of these groups which, in turn, cause behavioral pathologies and poor decision-making.

Your Journey to Peace Rosemary McCarthy, 2016-10-21 Intertwined with Rosemary McCarthy's personal journey of shifting from an angry, frustrated person blaming others for her unhappiness, to someone who now lives content with herself and in harmony with others, *Your Journey to Peace* brings the esoteric to the practical and maps out how to become your Best Self and feel empowered in all areas of your life. It also explains: Why we are the way we are individually and collectively; and how we got this way. How we find peace within ourselves by making peace in our relationships and all situations. That God does not allow for suffering! We create it by upholding dualistic concepts of me-and-you and us-and-them that we embraced at our beginnings and before form. The precursor to the Big Bang was the need for form to play out those dualistic concepts we chose at our beginnings: all our issues stem from those original concepts based on ideas of separation rather than unity. That understanding time makes the seven-day creation model valid. What are the extraterrestrials' origins? How we can reconcile the growing evidence of our past association with the ETs and our scriptures and beliefs. Our need to embrace the Indigenous peoples' connection to Gaia. That we chose to be here at this time of the Shift to bring about our personal and Gaia's Ascensions.

**Midori Haus** Chie Kawahara, 2017-11-18 Managing a major remodel of your home involves learning various aspects of a construction project: permitting; hiring contractors; clarifying what you really mean and want; managing a budget; overseeing quality, avoiding regrets; doing what's right for yourself and standing up for yourself. It's a big job. The learning curve is high and often we homeowners don't get to apply the skills we learned again. In this book, the stories of a couple going through this learning curve is told through the lens of a novice just like a conversation with a homeowner over a cup of tea. What they thought they wanted (a brand new house in modern minimalist style with solar panels and recycled materials) is very different than what they ended up with (remodel of a 90-year-old house in the classic Arts and Crafts style to meet the stringent international building standard called Passive House). What caused this shift? How did they choose the contractor? How did they navigate out of overwhelm of green building choices? How did they manage the relationships? What would they do differently? Was it worth it? This book chronicles the journey by a couple from choosing the location through living in the house after the renovation completion. It wasn't all about finding smart people and following expert guidance. When expert opinions diverged and they got stuck in analysis paralysis they had to trust their judgment and chose what they felt was right for them. After all, they'll be living in the house for years after the experts are gone. Reviews for MIDORI HAUS: Chie Kawahara is a storyteller. Her book, *Midori Haus*, tells a compelling story in a conversational style about a couple who

wanted to remodel an older home that would use as little energy as possible—and was comfortable and healthy to live in. Anyone who has an interest in green building—doing right for oneself and the planet—will find a friend in this book. -Jim Gunshinan, Editor, Home Energy Magazine “Midori Haus serves as a journey of adapting, learning, greening, nurturing, and caring for an old house by renewing the house to address current and future environmental challenges. The narrative is delightfully educational – the design process of achieving the passive house standard will be better understood through these stories and conversations.” -Alison G. Kwok, Ph.D., AIA, CPHC, University of Oregon The international Passive House standard has gained a deserved reputation as the fastest growing building energy efficiency standard in the world. Unsurprisingly, publications about it have mostly been by and for industry professionals. Midori Haus represents an alternative, introducing readers to Passive House through the eyes of a homeowner undertaking a remodeling project. Chie Kawahara takes readers along on her journey of discovery and remodeling triumph. She makes the process understandable and accessible and readers are given practical tools they can use on their own Passive House projects. There's nothing like a good case study told by the people involved to bring abstract concepts to life. Midori Haus doesn't disappoint. -Elrond Burrell, Architect, CPHD, blogger In this delightful book, Chie Kawahara describes the process she and her husband went through to purchase a 1920s bungalow and turn it into a state-of-the-art, healthy, green, Passive House. This account of their experiences is highly instructional for anyone considering buying and renovating a house, and it's a wonderful read! -Alex Wilson, Founder, BuildingGreen, Inc.

**The Hidden History of Guns and the Second Amendment** Thom Hartmann, 2019-06-04 “In this precise primer on firearms practices and policies, progressive talk-show host Hartmann examines the history of routine gun usage and extreme gun violence and assesses the influence of gun ownership on contemporary political, economic, and social norms...A brief but powerful analysis of a searing national crisis.” —Booklist Taking his typically in-depth, historically informed view, Thom Hartmann examines how guns have played important roles throughout American history, from early European settlement to the Revolutionary War and Manifest Destiny, through the use of Slave Patrols in the Deep South (which became the “well-regulated militias” so debated in 1787), to the assassination of John F. Kennedy and recent school massacres. Looking at the present, Hartmann documents how inequality in America and the number of people killed in mass shootings have grown together over the last fifty years. Finally, he identifies a handful of common-sense and powerful solutions that would address the issue at different levels: from getting money out of politics to get the National Rifle Association out of lobbying, to passing laws that would treat gun ownership like car ownership (title, license, insurance), to addressing the social despair and economic inequality that drive violent crime and mass shootings.

**The Greatest Spiritual Secret of the Century** Thom Hartmann, 2000 When Paul Abler, a young newspaper reporter, risks his own life to save that of a little girl, he begins an adventure unlike any he could imagine. Down in the echoing tunnels underneath Manhattan, where the homeless hide from the police, he meets a strange man who gives him one amazing insight after another. Paul's life undergoes vast changes as he experiences, for himself, the timeless moment of the universe's creation, the joyful surprise of finding true love, and an extraordinary truth that completely alters his life--and could change yours forever . . . The bestselling author of *The Last Hours of Ancient Sunlight* explores the deep mysteries that have stirred the human soul since the beginning of time. In this modern-day parable, spirit guides take Paul Abler on a compelling adventure where he discovers, and experiences, the greatest spiritual secret. Paul's voyage is a journey that all of us would like to take, and provides answers each of us has hoped to find.

Desalination Research Progress Daniel J. Delgado, Pablo Moreno, 2008 As freshwater resources continue to decline as the population grows and development activities continue, desalination has taken on a sense of urgency. Desalination refers to any of several processes that remove excess salt and other minerals from water. Desalination may also refer to the removal of salts and minerals more generally, as in soil desalination. This book includes within its scope distillation, membranes, reverse osmosis, electrodialysis, ion exchange, freezing, water purification, and water reuse and wastewater treatment. This new volume examines new research in this frontier field.

**The Battle in Seattle** Janet Thomas, 2000 November 30, 1999, is seen as a day of infamy-the day the World Trade Organization was battled head-on in Seattle. Media coverage, with its images of gas masks, tear-gas victims, bullying cops, rampaging hoodlums, and ruffled WTO dignitaries, presented a riveting picture of violence in the streets. But there was another battle of far greater consequence. People from around the world converged that day to show solidarity for working people and to voice their concerns about child labor, the environment, and global economic justice.
