The Life Of Louis Claude De Saint-Martin Arthur Edward Waite, 1901 Louis Claude de Saint-Martin was a French philosopher, also known as "le philosophe inconnu". Under the influence of Martinez de Pasquales, who taught him a species of mysticism drawn from cabalistic sources, he founded a cult of secret, magical and theurgical rites. He went on to become one of the major preachers of mysticism. Arthur Edward Waite's biography of his life is one of the most detailed works about this man, who was influential on the formation of the Hermetic Order of the Golden Dawn.

The Unknown Philosopher Arthur Edward Waite, 1987-01-15 This book, the substance of the doctrine of the most enlightened, most liberal, most truly catholic of the later Christian transcendentalists of the last decades of the 18th century, provides a clear introduction to the theosophical system of Louis Claude de Saint-Martin. He was popularly known as the Unknown Philosopher because none of his writings were published under his name during his lifetime. His fame is based on being a true mystic, on his literary abilities to express this true mysticism, and on his passionate search for higher wisdom. Saint-Martin's belief that the most important problem of all human thinking is to understand man as a free personality, whose very foundation is himself, has an important and significant place in the history of modern man's struggle toward freedom.

Doctrine Arthur Edward Waite,2015-06-11 Excerpt from The Life of Louis Claude De Saint-Martin the Unknown Philosopher, and the Substance of His Transcendental Doctrine Amidst the fever of the French Revolution we find certain men, whether actively or not participating in the turmoil of the time, whose intellectual eyes were fixed far off amidst the luminous peace of another and truer order. Here it is the Marquis de Condorcet, while the chaotic forces of the Reign of Terror are surging madly round his quiet study. Again, it is the author of Obermann, forlorn philosophic exile amidst the scented pines of Switzerland. And, once more, it is Louis Claude de Saint-Martin, as isolated amongst the peaks of his spiritual aspirations as ever was Etienne Pivert de S  nancour amidst the Alpine snows. Of these three, all after their manner illustrious, Saint-Martin only had a message of permanent importance to the human race. Condorcet was a materialist, and, in the restricted sense, an infidel, who looked to the State for salvation; his considerable gifts were useful perhaps in their day, and he has passed with it, not untenderly remembered, but still to be classed among those whose prophecies have been made void and those whose tongues have failed. The ice of intellectual despair had enervated the soul of Senancour before he went to dwell under the shadow of Jaman, and he, who rightly called himself un solitaire inconnu, had no anodyne for himself or his age. Red Book Louis-claude De Saint-martin,2017-11-03 'The Red Book' is a primary text in Martinism, a philosophical movement started in 18th century France by Louis-Claude de Saint-Martin and based on Mystic Christian illuminist philosophy with theurgical integration added for good measure. The core belief of this religion is that mankind should return to its original and divine state. This was to be accomplished both by metaphysical knowledge and by Theurgical abilities, that is to say magical abilities which would put the user in touch with benevolent and divine powers.
