Hanuman's Tale Philip Lutgendorf,2007-01-11 Hanuman, the devoted monkey helper of Rama and Sita, has long been recognized as a popular character in India's ancient Ramayana epic. But more recently he has also become one of the most beloved and worshiped gods in the Hindu pantheon - enshrined in majestic new temples, but equally present in poster art, advertising, and mass media. Drawing on Sanskrit and vernacular texts, classical iconography and modern TV serials, and extensive fieldwork and interviews, Philip Lutgendorf challenges the academic cliché of Hanuman as a minor or folk deity by exploring his complex and growing role in South Asian religion and culture. This wide-ranging study examines the historical evolution of Hanuman's worship, his close association with Shiva and goddesses, his invocation in tantric ritual, his physical immortality and enduring presence in sacred sites, and his appeal to devotees who include scholars, wrestlers, healers, politicians, and middle-class urbanites. Lutgendorf also offers a rich array of entertaining stories not previously available in English: an expanding epic cycle that he christens the Hanumayana. Arguing that Hanuman's role as cosmic middle man is intimately linked to his embodiment in a charming and provocative simian form, Lutgendorf moves beyond the Indian subcontinent to interrogate the wider human fascination with anthropoid primates as boundary beings and as potent signifiers of both Self and Other.

Culture and Power in Banaras Sandria B. Freitag,2023-11-10 This collection of ten essays on Banaras, one of the largest urban centers in India's eastern Gangetic plain, is united by a common interest in examining everyday activities in

order to learn about shared values and motivations, processes of identity formation, and self-conscious constructions of community. Part One examines the performance genres that have drawn audiences from throughout the city. Part Two focuses on the areas of neighborhood, leisure, and work, examining the processes by which urban residents use a sense of identity to organize their activities and bring meaning to their lives. Part Three links these experiences within Banaras to a series of larger worlds, ranging from language movements and political protests to disease ecology and regional environmental impact. Banaras is a complex world, with differences in religion, caste, class, language, and popular culture; the diversity of these essays embraces those differences. It is a collection that will interest scholars and students of South Asia as well as anyone interested in comparative discussions of popular culture. Religion and the City in India Supriya Chaudhuri,2021-08-19 This book offers fresh theoretical, methodological and empirical analyses of the relation between religion and the city in the South Asian context. Uniting the historical with the contemporary by looking at the medieval and early modern links between religious faith and urban settlement, the book brings together a series of focused studies of the mixed and multiple practices and spatial negotiations of religion in the South Asian city. It looks at the various ways in which contemporary religious practice affects urban everyday life, commerce, craft, infrastructure, cultural forms, art, music and architecture. Chapters draw upon original empirical study and research to analyze the foundational, structural, material and cultural connections between religious practice and urban formations or flows. The book argues that Indian cities are not 'postsecular' in the sense that the term is currently used in the modern West, but that there has been, rather, a deep, even foundational link between religion and urbanism, producing different versions of urban modernity. Questions of caste, gender, community, intersectional entanglements, physical proximity, private or public ritual, processions and prayer, economic and political factors, material objects, and changes in the built environment, are all taken into consideration, and the book offers an interdisciplinary analysis of different historical periods, different cities, and different types of religious practice. Filling a gap in the literature by discussing a diversity of settings and faiths, the book will be of interest to scholars to South Asian history, sociology, literary analysis, urban studies and cultural studies.

Words. Sounds. Images Amit Khanna,2019-12-31 Ambitious and encyclopaedic in scope, this is a first-of-its-kind book that presents the history of media and entertainment in India -- from the times of the Indus Valley Civilization right up to the twenty-first century. The book starts with an examination of the origins, looking at a wide array of aspects such as: the state of entertainment during Harappan and Vedic times, including details from the *Natyashastra*; the early drama, music and dance of Kalidasa; the development of ragas; musical instruments and early folk traditions; the genesis of classical dance forms; developments through the ages, including in the Mughal period, in the southern kingdoms, in the north-east, and under the Marathas and the British. Independence onwards, the book takes a decade-wise look at the evolution of newspapers, cinema, music, television, dance, theatre and radio. The author, himself a film producer, director and lyricist who has worked in the entertainment industry all his life, brings his unique perspective to bear on the subject. This pioneering work is a must-read not just for the students and practitioners of the arts and media but also for their lay consumers.
