Most Profitable Horse Racing System M C Horrocks, This UK and Irish Handicap horse racing betting system contains 4 simple steps to identify potential winning horses in a horse race. I wrote this system so that busy punters using the excellent racing post on the internet for free can find profitable horses quickly in handicap horse races. I like this book because I have added some optional extra filters to the horse racing system to improve the quality of selections and to achieve a better strike rate. I have written numerous books on horse racing but this is my favourite and most profitable UK and Irish horse racing system.

UK Horse Racing Betting Systems M C Horrocks, This book contains 12 proven UK horse racing systems mainly around UK handicap horse races. Horse Racing Betting Dutching System M C Horrocks, Introduction I have written many books around UK horse racing systems and this one I really enjoyed due to the simplicity of this horse racing dutching system and how easy it is to apply. The system uses the excellent free racing post website where you can obtain all the form data you need to use this system. Plus you do not have to be a form expert to understand it. You should aim at using Betfair to place your dutch bets due to the better prices and the ability to get even better prices pre-off the race. Understand the system before placing your horse dutching bets, I hope you enjoy it!

UK Longshot Horse Racing System 33/1 125/1 Winners M C Horrocks, 2021-05-06 How to Find Big Priced Winners Many people will look at 20/1, 33/1, 40/1 even 125/1 winners and think they were lucky. Yes that does happen, but not if you are using the 'Longshot System'. 29/03/2021 Wincanton 4.00 Catchin Time Won 125/1 04/03/2021 Mussleburgh 4.46 Perfect

Horse Racing System Seeing The Light , I have written many books about UK horse racing betting systems e.g horse laying in 6f 7f races, horse dutching to 35% book, large betfair place market decimal odds betting systems and many more. I have been able to do this as I have modelled these horse racing betting systems on my own database using my own computer code. I am fortunate I have I.T background and have computer science degree which has helped me a great deal in my quest for the perfect horse racing systems. This book is different as I feel that this horse racing betting system helps punters see the light when selecting horses for a bet. The system is so simple to follow that punters who have busy lives can apply this system very quickly and accurately. The system uses the free racing post on the internet so there are no further costs. The book is priced to refelect 'seeing the light' many punters are in the dark!

Finding NAP Bets Easily Horse Racing Betting System M C Horrocks,2025-09-16 A Quote I Love Horse Racing Betting Systems I repeat this quote in many of my books sorry for being boring! I have to cover this early in the book as I believe this is probably overlooked by most punters who continue to lose every day. Please look at the quote below and ponder on this for 5 minutes and ask yourself a question do you actually do this? "We are looking for a winner in a race not the winner of a race!" Remember the above quote as most punters fail to understand this quote and this is why they lose money! Most punters look at the race cards looking for the winner of the race. They should be looking for the winner in a race. You have to be confident you have spotted a potential winner in a race not of a race! You have to be prepared not to have a bet on days when there are no winners in a race. Remember this chapter it will serve you well! Non Handicap Horse Races Most of my UK horse racing system books have centered around UK handicap horse races this system focuses on non UK handicap races. I will explain why I opted for these types of races. In handicap races horses are allotted weight in relation to their ability. So the best horses are allocated more weight so as to give the inferior horses in the race a chance of winning it is that simple. Weight is a leveller it slows horses down. But it is not that simple as horses can be cleverly placed in races, I won't say much more on this but I think you get the point! In non handicap UK races it is easier to assess horse form as we do not have to worry about the weight allotted to a horse. It's always difficult picking winners for handicap and non handicap races so we must not get complacent. Let us now look at this brilliant UK horse racing system.

Groupform UK Horse Racing System Mark Horrocks, Why throw money away? Imagine you go into your local betting shop or via the internet betting sites etc. and place your bets (Yankee, Lucky 15 etc.) . As you place your bet you can see your winnings, thinking how happy you will be, then at 6pm that evening you say to yourself, 'oh it lost never mind, it was only a bit of fun!' as you try to convince yourself. It's not fun losing, it is miserable you have just thrown away a percentage of your salary. How long did it take you to earn that money, add up all the losing days/weeks and you will be surprised, probably

a week's holiday in Spain etc. Get the picture! The intelligent people do their homework first, understanding horse form is the key, you cannot guess. I will show you how to understand horse form quickly using the Racing post on the internet and following a simple 6 step method. You can practice the method first without putting any money down. Try the method on a couple of races and then check the horse race results later. Practice and temperament is the key.

Horse Racing Betting Secret System M C Horrocks, Introduction I must thank you for buying my book and appreciate any comments on the system. I have inserted my email address at the end of the book. Plus feel free to email me if you have any questions or need any help. This horse racing system took me approximately 12 months to computer model and test primarily around UK handicap horse races. This would have not been possible without my 10 years database of horse form and my I.T. computer skills. Handicap horse racing fascinates me I find it a great puzzle to solve and love form variables like weight, official rating and many more. This horse racing system has four simple steps that find winners daily and I have outlined tips to get more profit. I like using this system for betting singles and doubles which are lethal and produce massive profits! In the book I have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily.

Picking Winners No Problem M C Horrocks, Introduction The title of this book is a bold statement and one cannot really state this unless you put your money where your mouth is! I have written many books around UK horse racing systems and this one I really enjoyed due to the simplicity of this horse racing system and how easy it is to apply. The system uses the excellent free racing post website where you can obtain all the form data you need to use this system. Plus you do not have to be a form expert to understand it. I personally think horse racing pundits make heavy weather of horse racing form, i.e. looking at a horse's breeding and many other factors. I think this information just confuses the average punter. I have added a special bonus horse laying system in this book and I think you will enjoy it! This laying system is so easy to follow you will look back at all the bets you have placed in the past and wonder how did I get it so wrong! Yes it will hurt knowing how much money you lost when you should have not. Moving back onto the horse backing system, picking winners will be very easy for you and even more you will gain confidence and control in your betting. This horse racing system normally picks 2 to 3 horses per day in UK handicap horse racing markets. You should aim at using Betfair to place your bets due to the better prices and in-play tactic I will show you in this book. Understand the system before placing bets, I hope you enjoy it!

Horse Racing Betting Secret System M. C. Horrocks, 2020-12-13 Introduction I must thank you for buying my book and appreciate any comments on the system. I have inserted my email address at the end of the book. Plus feel free to email me if you have any questions or need any help. This horse racing system took me approximately 12 months to computer model and test primarily around UK handicap horse races. This would have not been possible without my 10 years database of horse form and my I.T. computer skills. UK Handicap horse racing fascinates me I find it a great puzzle to solve and love form

variables like weight, official rating and many more. This UK horse racing system has four simple steps that find winners daily and I have outlined tips to get more profit. I like using this system for betting singles and doubles which are lethal and produce massive profits! In the book I have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily. I suggest that you make yourself familiar with each step of the system before you start placing bets. I have included 100's of horse racing result examples that the system produced for the flat and jumps season 2019/2020 so you can back check these results to ensure you understand it. In other words you can apply the system on these past results I have outlined using the racing post on the internet and my system. With this suggested approach you will become more confident when placing bets or trades on your selections. Note: Try to keep away from stupid Lucky15 bets and large ACCAs etc! These are silly bets for recreational punters who bet with bookmakers at cramped odds. I wrote this book to help fellow punters and traders to get an edge I hope you enjoy this one.

How To Implement A UK Horse Racing System M C Horrocks, 2021-07-06 Do you want to implement your own automatic UK horse racing system? This is not as easy as you think and it took me quite some time to implement a UK horse racing handicap system that worked automatically on a daily basis. During my journey there were many times I wish I had never started the project. I had over 25 years of I.T. experience in SQL, Unix and relational database technologies and I thought it would be a stroll in the park! How wrong I was I had underestimated how large and the number of tasks that would be involved in the implementation of this automatic UK horse racing handicap system. This book covers all aspects of this implementation including the algorithm that is used in the horse racing system to pick winning horse selections in UK handicap horse races automatically. When I say automatic what I mean by this is when the horse racing system is run a small selection of horses would be produced that could qualify as potential bets. With this in mind I would say the horse UK racing system was 95% automatic which is pretty good. How long would it take to trawl through horse form for every horse in every race! I wrote this book to help punters create a similar automatic UK horse racing handicap system that works and explain the pitfalls so they can implement it quicker and more smoothly. You will need to be an existing punter who has the basic understanding of UK horse form and an above average understanding of computers. Implementing a decent UK horse racing system cannot be achieved in days it's more like months so be prepared to put some hard work into its implementation. An alternate solution is to outsource the work but this will cost quite a large amount of money. You will learn more implementing it yourself and gain some satisfaction from your labours.

UK Handicap Horse Racing M. C. HORROCKS, 2023-05-24 Horse Betting System Simple Horse Racing System That Works I have written many books around UK handicap horse racing and I have certainly learnt a great deal over the years and I am still learning now. I am fascinated by repeating patterns in UK horse racing form in handicap horse races. I am from

a computing background and studied at university for a computer science degree. This enabled me to build a bespoke horse form database with 10 years plus of data which I keep up to date on a daily basis. I have also been able to data mine this database to identify repeating horse form patterns. In this book I will discuss in detail four patterns that I see all the time which have given me success when betting on horses in UK handicap races. Not all of these horses win as horses are not machines but they are generally placed in the first 3 finishing positions. In this book I will explain the four repeating horse form patterns in some detail and then I will explain how you can use this pattern using the free racing post website to select potential horses to bet on. I will also outline example races and results. I will also outline the magic sauce I use in conjunction with these horse form patterns. Horse racing handicapping is a difficult subject this book will help you to become a more profitable punter.

Harness Horse Racing in the United States and Canada Frank Albert Wrench, 1951

Best Horse Racing System M C Horrocks, Introduction I have written a number of racing systems but this is the best one and I use this for most of my racing bets. The key to this system is quality not quantity and looking for horses that tick all the four form variables LP OR CR WD which I will explain later. The system also only looks for horses that are carrying 8 pounds or more in weight which normally means a class drop or the horse has improved. Understand the system before placing bets, I hope you enjoy it! How The System Works The system works for UK Handicap and Non Handicap races but I tend to favour Handicap races as the prices are larger. I will concentrate only on Handicap races in this book. You will need access to the internet and the Racing Post website this is free. <https://www.racingpost.com>
