

The Path Of Souls

Ameen Fares Rihani

Path of Souls Gregory Little, 2014-06-14 America's ancient Mound Builders left behind thousands of pyramid-shaped and conical burial mounds, complex geometric earthworks, effigy mounds, and incredible artifacts depicting mysterious symbols. When the first European explorers began reporting their discovery of these enigmatic structures (over 400 years ago) no one knew who built them. No one seemed to know the meaning of the symbols, and the ritualistic purposes of the complex geometric earthen shapes were a complete mystery. That forgotten knowledge is explained by the decimation of Native American populations by explorers and gold-seeking Spanish conquistadores. Within a generation after the Spanish entered America, Native American populations decreased by over 90 percent from disease and war. It is now known that many ancient earthworks were used to assist souls of the dead in their journey to the sky world and the mysterious symbols were used in rituals by an elite ruling class of priests and chiefs. Souls journeyed to the west where they made a leap of faith to the sky. The souls then made a journey along the Milky Way until they reached the most important spot on the path. This was at the Great Rift of the Milky Way, where they encountered an enigmatic Adversary located at the Constellation of Cygnus. *Path of Souls* details this amazing death journey and how it was revealed in recent times by archaeologists. It is also thought that the newly revealed Native American death journey explains much about ancient Egyptian ideas of death. Where did these ideas about the death journey come from and when did they arrive in America? Who were the elite rulers of the Mound Builders? Hundreds of newspaper articles from the 1800s and early 1900s reported giant skeletons found in large stone tombs buried deep inside burial mounds. Were these tall leaders the elite? Today the Smithsonian asserts that there were no giants in the ancient world but in their actual published mound excavation reports, they detailed the discovery of many skeletons at least seven feet tall. *Path of Souls* explores all of these issues and is lavishly illustrated with over 150 maps, photos, and illustrations.

The Path of the Soul After Death Peter Selg, 2010-10 We are separated from the spiritual worlds only by states of consciousness, not by spatial circumstances. States of consciousness are what separate us. --Rudolf Steiner Rudolf Steiner saw relationships with the dead as the religious attitude of the future in the highest sense. Becoming comfortable with thinking and speaking of the dead as concretely as we speak of the living will profoundly affect human activity. To Steiner, the enlivening and even the sanctification of earthly existence are not merely connected directly with our relationship to

death and to the deceased; in fact, that relationship deepens these qualities and makes them possible. Steiner spoke frequently about death and the human soul's continued existence, as well as about the importance of establishing a new kind of community that unites spiritually active human souls that endure beyond death. The Path of the Soul after Death shows how Rudolf Steiner commemorated the dead, the words he chose to use, and his descriptions--sometimes in great detail--of the inner processes involved. What becomes clear is the extent to which his connections to the deceased shaped his addresses and related to their new stage of existence. Inasmuch as his words were in harmony with human soul development after death, they not only recapitulated a biography but also assisted the deceased individual along the path after death. We cannot understand the true depth and meaning of Steiner's words about those who have died except against the background of an anthropological study of the period immediately after death. The second part of the book, therefore, is a stunningly clear and detailed account of anthroposophic research into the process of dying and the soul's path after death. He tells us: The phenomenon of death sets in like this: In the moment of death, the connection of the etheric and astral bodies to the physical bodies dissolves--specifically, in the heart. The heart is illuminated, so to speak, and then the ether body, astral body, and 'I' rise above the head. Rudolf Steiner described this moment of having died as the consummate event. During the individual's time away from Earth, this moment is constantly in view. It is filled with beauty, grandeur, and sunny-bright warmth related to Christ. It is essential to developing and dynamically maintain self-awareness adapted specifically to the spiritual world. In this connection, Rudolf Steiner said: Throughout human life between death and a new birth, it is possible to look back on the moment of death, and therefore that moment provides our consciousness after death. We know that we have laid aside our physical body. Knowing this and having it constantly before us gives us our self-awareness after death, just as we derive self-awareness here in the physical world from actually having a physical body. When we are outside of the physical body with our astral body and I, between falling asleep and waking up again, we have no consciousness of the physical world. When awakening, we must re-occupy these bodies so that 'I'-consciousness can blossom again. After death, whenever we look back on the moment of dying, whenever that whole event--which is so grand and beautiful from the perspective of the other side--stands before our soul, consciousness is rekindled. Consciousness after death depends entirely on repeated viewing of this moment. (Kassel, February 18, 1916) The Path of the Soul after Death is an important addition to the body of anthroposophic literature on our relationship on Earth to those who have died. Peter Selg does a great service in gathering and amplifying much of what Steiner had to say on the subject. This book is a translation from German of Rudolf Steiners Toten-Gedenken: Die Verstorbenen, der Dornacher Bau und die Anthroposophische Gesellschaft (Verlag Ita Wegman Institut, 2009).
