

Time Is Out Of Joint

John Miller Dow Meiklejohn

Of Joints and Other Articulations Michael Marder, 2026-01-15 Articulates a philosophical mode of thinking modeled after our bodily construction points What if we were to reimagine bodies of all kinds—biological and ecosystemic, political and textual, cosmic and artistic—from the perspective of their joints? This is the wager of Michael Marder’s philosophical treatise, which skirts the extremes of totalization and fragmentation by following the model of the joints, the structures that both articulate and disarticulate complex living unities. *Of Joints and Other Articulations: The Futures of Arthrosophy* proposes that, as embodied figures of relations, joints shed new light on the question of time and the meaning of art, the activity of language and the fluctuations of good and ill health, political violence and humility, conversions and perversions. Arthrosophy, the wisdom of joints, supplements and substantiates philosophy itself, teaching us how to think through and with our knees and elbows, hips and shoulders, sutures and pivot joints.

Specters of Marx Jacques Derrida, 1994 Questions the spectropoetics that Marx allowed to invade his discourse.

Performance and Temporalisation Jodie McNeilly, Maeva Veerapen, 2015-02-22 *Performance and Temporalisation* features a collection of scholars and artists writing about the coming forth of time as human experience. Whether drawing, designing, watching performance, being baptised, playing cricket, dancing, eating, walking or looking at caves, each explores the making of time through their art, scholarship and everyday lives.

Gilles Deleuze's Philosophy of Time James Williams, 2011-02-23 Throughout his career, Deleuze developed a series of original philosophies of time and applied them successfully to many different fields. Now James Williams presents Deleuze's philosophy of time as the central concept that connects his philosophy as a whole. Through this conceptual approach, the book covers all the main periods of Deleuze's philosophy: the early studies of Hume, Nietzsche, Kant, Bergson and Spinoza, the two great philosophical works, *Difference and Repetition* and *Logic of Sense*, the *Capitalism and Schizophrenia* works with Guattari, and the late influential studies of literature, film and painting. The result is an important reading of Deleuze and the first full interpretation of his philosophy of time.

Rhythmicity and Deleuze Steve Tromans, 2023-04-24 In this detailed and comprehensive study of concepts from Gilles Deleuze’s philosophy of time, Tromans undertakes a series of practice as research projects that reformulate Deleuze’s work via what Tromans calls a “musical-philosophical” practice. Tromans interweaves his own solo-piano improvisation and

composition with analyses of his and others' works in improvisation and experimental musics, leading to the creation of new, interdisciplinary concept or conceptual practice that he calls Rhythmicity: a way to rethink the temporal in respect of how we model its movements and relationships. Through the models of temporal interaction devised via each project, Deleuze's concepts are transformed via their incorporation into the musical-philosophical mix. In addition, music improvisation and composition are shown to be utilisable for more than the making of music alone, with the thesis providing fresh insight for the fields of practice as research in music, Deleuze studies, experimental music, and Performance Philosophy in respect of its uniqueness of process and output.

Teaching Through the Ill Body Marla Morris, 2008-01-01 This book raises questions around pedagogy and illness. Morris explores two large issues that run through the text. What does the ill body teach? What does the teacher do through the ill body? The body has something to teach while teaching through the ill body. This book is theoretically framed by connections between spirituality and aesthetics. As the great spiritual traditions teach, our responsibility as teachers is to help others, especially those who are marginalized. What is lacking in our educational discourse is a discussion of the responsibility we all have to help those who get sick and not marginalize them. More specifically, pedagogical and curricular questions are fleshed out through working in the area of curriculum studies, depth psychology and the medical humanities. These three disciplines have something in common: autobiography. But in the field of curriculum studies autobiographies/ pathographies of sickness are few and far between. This book is meant to fill that gap in the educational literature. This pathography is a study that explores the mysteries of suffering, storytelling, memory, and poesis. Compassion, woundedness, vulnerability, testimony and authenticity are all issues Morris raises here. Teachers, scholars, depth psychologists and medical educators might be particularly interested in this intensely felt narrative about what it is like for teachers to teach while suffering from chronic illness.

Dysphoria Mundi Paul B. Preciado, 2025-04-15 A revolutionary book tracing the collapse of the paradigms that have organized the world for centuries In *Dysphoria Mundi*, Paul B. Preciado, best known for his 2013 cult classic *Testo Junkie*, has written a mutant text assembled from essays, philosophy, poetry, and autofiction that captures a moment of profound change and possibility. Rooted in the isolation of the COVID-19 pandemic, and taking account of the societal convulsions that have ensued, Preciado tries to make sense of our times from within the swirl of a revolutionary present moment. The central thesis of this monumental work is that dysphoria, to be understood properly, should not be seen as a mental illness but rather as the condition that defines our times. Dysphoria is an abyss that separates a patriarchal, colonial, and capitalist order hurtling toward its end from a new way of being that, until now, has been seen as unproductive and abnormal but is in fact the way out of our current predicament. With echoes of visionaries such as William S. Burroughs and Kathy Acker, Preciado's theoretical writing is propelled by lyric power while providing us with a critical toolbox full of new concepts that can guide

our thinking and our actions: transition, cognitive emancipation, denormalization, disidentification, “electronic heroin,” digital coups, necro-kitsch. *Dysphoria Mundi* is Preciado’s most accessible and significant work to date, in which he makes sense of a world in ruins around us and maps a joyous, radical way forward.

Derrida Reads Shakespeare Alfano Chiara Alfano, 2020-02-14 Explores Jacques Derrida's distinctive approach to Shakespeare Offers the first comprehensive and accessible account and discussion of Derrida's engagement with Shakespeare Challenges the way we have traditionally come to think about the interdisciplinary relationship between literature and philosophy, as well as literary genius Contextualises Derrida's readings of Shakespeare within his wider philosophical project and discusses in how far they relate to - or are distinct from - his engagement with other dramatic or literary works This book brings to light Derrida's rich and thought-provoking discussions of Shakespearean drama. Contextualising Derrida's readings of Shakespeare's *Romeo and Juliet*, *Hamlet*, *The Merchant of Venice* and *King Lear* within his wider philosophical project, Alfano explores what draws Derrida to Shakespeare and what makes him particularly suitable for philosophical thought. The author also makes the case for Derrida's singular understanding of the relationship between philosophy and Shakespeare and his radical idea of what literary genius is.
