The Pillars of the Earth Ken Follett,

Why Am I a Jew? Michael Baum,2022-01-06 The book starts by considering mankind's role in the complex ecological system of our planet and then considers the place of mankind in the cosmos while also looking inward at our own microcosm. It then explains how these scientific insights lead to the ontological search for God. The good, the bad, and the ugly sides of religious beliefs are considered and it is suggested that we are looking for God in the wrong place. The book then explains a justification for the author's apparent cognitive dissonance of retaining a Jewish identity whilst denying the existence of a God with the attributes of man. The author then argues that we should look for God in the infinitely small spaces within ourselves instead of the infinitely large spaces of the universe. His God would not mind whether individuals believed in him or not, so long as they practiced their life as the author practices his medicine: in a never-ending quest to improve the length and quality of the lives of his patients. This book should improve the reader's knowledge of the philosophers who wrote on the ontology of God. It also rediscovers that Baruch Spinoza had already reached the conclusions of modern-day thinkers more than 350 years ago.

Growing a Soul on the Planet Earth Ron Levitan,Claire Levitan,2018-05-25 Most of us think there are only two possible answers to the question: Do you have a soul? Either we have a soul, which will live beyond death, or there is no such thing as a soul, and when we die, nothing of us remains. But what if neither of those answers is correct? What if, instead, we are not born with a soul, but we have the possibility of growing one? Our potential for growing a soul was recognized by early gnostic Christians who practiced esoteric Christianity, which dates back to and originated in ancient pre-sand Egypt. It is a sacred science of being, a long hidden, esoteric teaching that G. I. Gurdjieff brought to the West early in the last century and is called the Fourth Way.How do we grow a soul? Gurdjieff tells us, The whole secret is that one cannot work for a future life without working for this one. We must learn how to be present to ourselves in each moment, to integrate body, senses, mind.

The techniques and practices Gurdjieff brought in the Fourth Way can show us how. Is there life after death? That's the primordial human question. Yes, you have a soul. How do you know? Isn't it just societal belief? If you have no soul okay, here's how to live after dying. (William Patrick Patterson, author of Georgi Ivanovitch Gurdjieff: The Man, The Teaching, His Mission) For those who have felt the wish or recognized the need to grow in themselves something higher, the Levitans introduce Gurdjieff's authentic way of self-transformation to do so. They also explore other ways stemming from the same source, throughout centuries and millennia up to the present time, showing how Gurdjieff presented methods that completed what had been mostly lost, forgotten, or left out. (Mary Ellen Korman, author of A Woman's Work with Gurdjieff, Ramana Maharshi, Krishnamurti, Anandamayi Ma & Pak Subuh) Essential reading conveying with unique clarity and directness a distillation of the deep spiritual ideas contained in Gurdjieff's Fourth Way teaching. Faced with the question of soul, Ron and Claire Levitan lead us to the deep esoteric meaning of that word and the responsibility it carries in giving significance to our lives, the Earth and beyond. Gurdjieff's language of neologisms, often inaccessible, is presented in a straightforward manner, explaining the direct path to higher consciousness and conscience. If you've ever wondered what soul is or what is meant by growing a soul this is the book you've been waiting for. (Teresa Adams, instructor, Haida yoga, the Online Fourth Way School)
