The mexican enigma Sergio Aguayo Quezada,2015-05-27 The country's future depends on what a conscious and organized society does, or fail to do. The mexican enigma is an informative analysis of the situation of political, social and economic crisis that Mexico is going through from the review of three key areas: the political elites —mainly figures like Enrique Peña Nieto, whom the author studies in a bibliographical manner as well as reviews his actions since he was governor of Estado de Mexico—; the de facto powers that have been developed in the country and its implications in Mexican political and social credibility; the last axis is organized society, which, from the perception of Aguayo, has always been excluded from Mexican politics. The author also discusses the state of political culture within society and the level of disapproval of this before the present form of the government of Mexico. The author makes a strong documentary research that reaches to an almost didactic text, bringing the reader to a real and well informed approach of what is happening in Mexico. The book, in digital format, allows interaction with documents, videos and photographs that complement the reading, while encouraging political reflection from its readers.

Remolino Sergio Aguayo Quezada ,2014-02-25 Incluye audio del autor. Remolino: el futuro depende de lo que hagan o dejen de hacer las minorías conscientes. ¿A dónde va México? Carecemos de respuestas definitivas, pero existe suficiente información para hacer un bosquejo bastante preciso de las fuerzas que, desde la sociedad, los poderes fácticos y las élites, están cincelandando el futuro para conformar el gran Remolino de nuestra historia. Aunque nadie puede anticipar los desenlaces, sí es posible asegurar que la sociedad organizada tiene la capacidad de influir en la agenda nacional. Nada está escrito. Remolino es mi primer libro digital, y está repleto de información manejada desde ángulos poco frecuentados. Es también una obra comprometida por el futuro de nuestro país, y guiada por el convencimiento de que sí es posible transformar a México en beneficio de las mayorías, para lo cual, primero hay que entenderlo.

Destilando la Cultura Política Bonifacio Vuelvas Salazar,2021-12-01 La obra que el lector tiene en sus manos plantea una cuestión clave, los estudiantes como un sector de la juventud mexicana configuran una categoría social, por derecho propio, lleno de aporías y desafíos para la inclusión, la organización y la participación en el espacio público, como lo es la institución educativa, espacio único para aprender a vivir con los otros, con la intención de colaborar y convivir con otras personas diferentes, pero iguales a nosotros. En esta circunstancia en la que una pandemia nos ha confinado al aislamiento,

queremos ser ciudadanos libres, críticos y responsables para pensar y actuar sobre la llamada “nueva realidad”. Una forma de comprender lo que piensan los jóvenes de la cultura civil, la cultura política y la ciudadanía es por medio del conocimiento de lo que ellos interpretan de su inserción como ciudadanos que han cumplido la mayoría de edad, mediante su participación en las elecciones presidenciales del 6 de julio de 2018, y específicamente, en las relaciones que establecen en su vida diaria con las diferentes figuras de poder en las instituciones públicas y privadas en las que participan. Las representaciones sociales constituyen una forma de conocimiento informado, que auxilian para comprender de una manera racional, lógica y coherente las construcciones sociales de los estudiantes de bachillerato de diversas instituciones educativas de la región oriente de la Ciudad de México, que se caracterizan por ser personas informadas, a través de diferentes medios electrónicos y redes sociales, como en las sociedades modernas. La presente obra plantea la posibilidad de un aporte que contribuya al debate sobre el sentido de la participación política de los jóvenes, convencidos de que esta categoría no agota la complejidad de garantías y necesidades que demandan los jóvenes, con proyección en un horizonte cercano.

Das politische System Mexikos Barbara Schröter, 2014-11-12 Dieses Buch bietet eine Einführung in die Politik, die Ökonomie und die Gesellschaft Mexikos, wobei die zentralen politischen Institutionen, Akteure und Politikfelder vorgestellt werden. Die politische Entwicklung des Landes ist besonders interessant vor dem Hintergrund des Endes des autokratischen Herrschaftssystems der Partei der Institutionalisierten Revolution (PRI) und der Transition zur Demokratie ab dem Jahr 2000.

Las condiciones de vida en la región de Kara (Togo), 2012-03 Los estudios al uso sobre desarrollo en regiones desfavorecidas, suelen centrarse en algún tema específico, siendo en general bastante especializados. El presente trabajo rompe con esta dinámica a través de un estudio multidisciplinar que analiza factores de desarrollo de una misma región desde varias disciplinas complementarias: Derechos humanos, Agricultura y ganadería, salud y nutrición, aguas, economía, comunicación y educación. La complementariedad de todas estas perspectivas nos permite obtener una idea clara del Estado de desarrollo de la región de Kara, situada en Togo, lo que es de gran utilidad a la hora de plantear programas de desarrollo que vayan más allá de un único sector económico o de una única rama de trabajo. Este libro puede ser de interés, tanto para aquellos que quieran conocer de una manera rigurosa las características de una región africana en un país pobre, como para aquellos que estén interesados en conocer una metodología interdisciplinar que resulta de utilidad para obtener datos que sirvan como base para plantear programas de acción a medio y largo plazo. El equipo investigador que lo ha llevado adelante ha sido dirigido desde la Universidad CEU Cardenal Herrera, pero ha contado con profesores de otras cuatro Universidades españolas. Además, el trabajo se ha realizado en colaboración con la Universidad de Kara y con dos ONG, una española (Jóvenes y Desarrollo) y la otra Togolesa (Association Don Bosco). Es, por tanto, un programa ambicioso en el que se han involucrado más de 25 investigadores y en el que han colaborado más de 60 personas en los distintos momentos de la

investigación.

Handbook of Research on Comparative Approaches to the Digital Age Revolution in Europe and the Americas

Passarelli, Brasilina, 2015-09-21 The way we talk, work, learn, and think has been greatly shaped by modern technology. These lifestyle changes have made digital literacy the new written literacy, where those who are not able to use computers are unable to function and perform everyday tasks. The Handbook of Research on Comparative Approaches to the Digital Age Revolution in Europe and the Americas explores the new ways that technology is shaping our society and the advances it is bringing, along with potential drawbacks, such as human jobs being replaced by computers. This expansive handbook is an essential reference source for students, academics, and professionals in the fields of communication, information technology, sociology, social policy, and education; it will also prove of interest to policymakers, funding-agencies, and digital inclusion program developers. This handbook features a broad scope of research-based articles on topics including, but not limited to, computational thinking, e-portfolios, e-citizenship, digital inclusion policies, and information literacy as a form of community empowerment.
