Cambridge Edition of the Collected Letters of Joseph Conrad (S/O BIB). Joseph Conrad,

Chance. Is a Novel by Joseph Conrad, 2016-07-23 Chance is a novel by Joseph Conrad, published in 1913 following serial publication the previous year. Although the novel was not one upon which Conrad's later critical reputation was to depend, it was his greatest commercial success upon initial publication. Chance is narrated by Conrad's regular narrator, Charles Marlow, but is characterised by a complex, nested narrative in which different narrators take up the story at different points. The novel is also unusual among its author's works for its focus on a female character: the heroine, Flora de Barral. The narrators describe and attempt to interpret various episodes in the life of Miss de Barral, the daughter of a convicted swindler named Smith de Barral (though this character is famous in the world of the novel as a criminal, he may, at least at first, have been merely an incompetent banker). Miss de Barral leads a sheltered life while her father is prosperous, then must rely on the generosity of others, who resent her or have agendas for her, before she escapes by marrying one Captain Anthony. Much of the book involves the musing of the various narrators over what she and the Captain expected from this union, and what they actually got from it. When her father is released from prison, he joins them on ship, and the book heads towards its denouement. Chance opened a path to commercial success for Conrad after years of slow progress and obscurity. This success could be measured by the record sale of the book in 1914, which outsold all his previous publications and shot him to fame. Breaking away from the tradition, Chance dealt with social issues surrounding feminism

and financial speculation enacted by Mrs. Fyne and Flora de Barral, as presented by the narrators. The storyline of the novel oscillates between human-will and activity juxtaposed with an apathetic force that can nullify the importance of human action. The complex style of Conrad's narrative in this novel invited widespread criticisms from peers and readers alike

A Smile of Fortune Joseph Conrad, 2021-06-07 A Smile of Fortune features a young sea captain who is confronted by a puzzling ethical dilemma. The first person narrator is a confirmed bachelor given to a philosophic approach to life. Arriving at an island in the Indian Ocean, he is given an invitation by his ship's owners to do trade with a local merchant. The merchant turns out to have a brother, and the two of them have diametrically opposed characters: one is socially well respected, but is a brute; the other is a social outcast who wishes to ingratiate himself with the unnamed narrator. For reasons he himself cannot fully understand, the captain opts for the outcast and allows himself to be drawn into his domestic life whilst waiting for his ship to be made ready.

Joseph Conrad - The End of the Tether Joseph Conrad, 2015-09-03 Born in 1857 in Poland, Joseph Conrad became a British citizen just before he turned 30. In the intervening years he lost both parents, becoming an orphan at 11, being thereafter raised by an uncle, who let the boy go to Marseille at age 16, where he began to work on merchant ships - which at times included stints of gun running and the intrigue of political conspiracy. At age 36 his life turned from one of ships to one of literary pursuit. Conrad brought to English literature both a fresh layer of style and a deeper examination of the human psyche in a wealth of works. He wrote many novels, which are correctly regarded today as some of the finest in English literature. Among their canon are Lord Jim, Nostromo, The Shadow Line, and of course Heart Of Darkness.

A Set of Six by Joseph Conrad Joseph Conrad, Judy Boss, 2018-02-23 The six stories in this volume are the result of some three or four years of occasional work. The dates of their writing are far apart, their origins are various. None of them are connected directly with personal experiences. In all of them the facts are inherently true, by which I mean that they are not only possible but that they have actually happened. For instance, the last story in the volume, the one I call Pathetic, whose first title is Il Conde (misspelt by-the-by) is an almost verbatim transcript of the tale told me by a very charming old gentleman whom I met in Italy. I don't mean to say it is only that. Anybody can see that it is something more than a verbatim report, but where he left off and where I began must be left to the acute discrimination of the reader who may be interested in the problem. I don't mean to say that the problem is worth the trouble. What I am certain of, however, is that it is not to be solved, for I am not at all clear about it myself by this time. All I can say is that the personality of the narrator was extremely suggestive quite apart from the story he was telling me. I heard a few years ago that he had died far away from his beloved Naples where that abominable adventure did really happen to him. Thus the genealogy of Il Conde is simple. It is not the case with the other stories. Various strains contributed to their composition, and the nature of many of those I have forgotten, not having the habit of making notes either before or after the fact. I mean the fact of writing a story. What I remember best

about Gaspar Ruiz is that it was written, or at any rate begun, within a month of finishing *Nostromo*; but apart from the locality, and that a pretty wide one (all the South American Continent), the novel and the story have nothing in common, neither mood, nor intention and, certainly, not the style. The manner for the most part is that of General Santierra, and that old warrior, I note with satisfaction, is very true to himself all through. Looking now dispassionately at the various ways in which this story could have been presented I can't honestly think the General superfluous. It is he, an old man talking of the days of his youth, who characterizes the whole narrative and gives it an air of actuality which I doubt whether I could have achieved without his help. In the mere writing his existence of course was of no help at all, because the whole thing had to be carefully kept within the frame of his simple mind. But all this is but a laborious searching of memories. My present feeling is that the story could not have been told otherwise. The hint for Gaspar Ruiz the man I found in a book by Captain Basil Hall, R.N., who was for some time, between the years 1824 and 1828, senior officer of a small British Squadron on the West Coast of South America. His book published in the thirties obtained a certain celebrity and I suppose is to be found still in some libraries. The curious who may be mistrusting my imagination are referred to that printed document, Vol. II, I forget the page, but it is somewhere not far from the end. Another document connected with this story is a letter of a biting and ironic kind from a friend then in Burma, passing certain strictures upon the gentleman with the gun on his back which I do not intend to make accessible to the public. Yet the gun episode did really happen, or at least I am bound to believe it because I remember it, described in an extremely matter-of-fact tone, in some book I read in my boyhood; and I am not going to discard the beliefs of my boyhood for anybody on earth.

Heart Of Darkness Joseph Conrad, 2019-07-13 *Heart of Darkness* is a novella written by Polish-born writer Joseph Conrad (born Józef Teodor Konrad Korzeniowski). Before its 1902 publication, it appeared as a three-part series (1899) in *Blackwood's Magazine*. It is widely regarded as a significant work of English literature and part of the Western canon. This highly symbolic story is actually a story within a story, or frame narrative. It follows Marlow as he recounts, from dusk through to late night, his adventure into the Congo to a group of men aboard a ship anchored in the Thames Estuary. The story details an incident when Marlow, an Englishman, took a foreign assignment as a ferry-boat captain, employed by a Belgian trading company. Although the river is never specifically named, readers may assume it is the Congo River, in the Congo Free State, a private colony of King Leopold II. Marlow is employed to transport ivory downriver; however, his more pressing assignment is to return Kurtz, another ivory trader, to civilization in a cover up. Kurtz has a reputation throughout the region.

Heart of Darkness by Joseph Conrad-New Annotated & Illustrated Edition Joseph Conrad, 2020-07-09 A novella, *Heart of Darkness* is Joseph Conrad's most famous work and a foundational text on the subject of colonialism. *Heart of Darkness* is based in part on a trip that Conrad took through modern-day Congo during his years as a sailor. He captained a ship that

sailed down the Congo River. Conrad gave up this mission because an illness forced him to return to England, where he worked on his novella almost a decade later. The presence of ill characters in the novella illustrates the fact that *Heart of Darkness* is, at least in part, autobiographical. Many speculations have been made about the identity of various characters, such as the Manager, or Kurtz, most recently and perhaps most accurately in Adam Hochschild's *King Leopold's Ghost*. But the geographical, as well as biographical, vagueness of the novel--which is one of its most artistic, haunting characteristics--make it almost impossible to pin down these details for sure.

Joseph Conrad Allan H. Simmons, 2006-09-22 Joseph Conrad is one of the great figures in the tradition of the novel. This clear and well-written study provides a critically-informed introduction to Conrad and his work, placing him in his political, social and literary context, and examining his relationship to Modernism, England and Empire. Organised thematically - broaching the leading themes of race, the sea and nationalism - Allan H. Simmons covers the range of Conrad's fiction, from the early Malay novels, through such key works as *Heart of Darkness*, *Lord Jim*, *Nostromo*, *The Secret Agent* and *Under Western Eyes*, to his later novels. First-time readers of Conrad are provided with in-depth contexts for appreciating a writer whose work is often challenging, while readers already familiar with Conrad's fiction will find new perspectives with which to view it. Approachable and authoritative, this introductory guide is essential for anyone with an interest in a master of twentieth-century fiction whose work variously altered the English and European literary landscape.

The Secret Sharer Joseph Conrad, 2017-11-17 *The Secret Sharer* takes place on a sailing ship in the Gulf of Siam (now the Gulf of Thailand), at the start of a voyage with cargo for Britain. The date is probably in the 1880s, when Conrad was at sea himself. In common with many of Conrad's stories, it is narrated in the first person. The narrator is the ship's young captain, whose name is never given. He is unfamiliar with both his ship and his crew, having joined the ship only a fortnight earlier, and unsure of his ability to exert his authority over the officers and crew who have been together for some time. He makes the point several times that he is the stranger on board.

Heart of Darkness: Is a Short Novel by Polish Novelist Joseph Conrad (Illustration) Joseph Conrad, 2018-09-02 Heart of Darkness (1899) is a short novel by Polish novelist Joseph Conrad, written as a frame narrative, about Charles Marlow's experience as an ivory transporter down the Congo River in Central Africa. The river is a mighty big river, that you could see on the map, resembling an immense snake uncoiled, with its head in the sea, its body at rest curving afar over a vast country, and its tail lost in the depths of the land. In the course of his travel in central Africa, Marlow becomes obsessed with Mr. Kurtz. The story is a complex exploration of the attitudes people hold on what constitutes a barbarian versus a civilized society and the attitudes on colonialism and racism that were part and parcel of European imperialism. Originally published as a three-part serial story, in Blackwood's Magazine, the novella Heart of Darkness has been variously published and translated into many languages. In 1998, the Modern Library ranked Heart of Darkness as the sixty-seventh of the hundred best novels in English of the twentieth century.

Heart of Darkness Joseph Conrad, 2019-12-22 Heart of Darkness by Joseph Conrad is a real classic. You should grab it and read it to experience it yourself. Here's a simple plot to Heart of Darkness by Joseph Conrad As a child, Marlow had been fascinated by the blank spaces on maps, particularly by the biggest, which by the time he had grown up was no longer blank but turned into a place of darkness. Yet there remained a big river, resembling an immense snake uncoiled, with its head in the sea, its body at rest curving afar over a vast country and its tail lost in the depths of the land. The image of this river on the map fascinated Marlow as a snake would a bird. Feeling as though instead of going to the centre of a continent I were about to set off for the centre of the earth, Marlow takes passage on a French steamer bound for the African coast and then into the interior. After more than thirty days the ship anchors off the seat of government near the mouth of the big river. Marlow, with still some two hundred miles to go, takes passage on a little sea-going steamer captained by a Swede. He departs some thirty miles up the river where his company's station is. Work on the railway is going on, involving removal of rocks with explosives. Marlow enters a narrow ravine to stroll in the shade under the trees, and finds himself in the gloomy circle of some Inferno: the place is full of diseased Africans who worked on the railroad and now await their deaths, their sickened bodies already as thin as air. Marlow witnesses the scene horror-struck. Marlow has to wait for ten days in the company's Outer Station, where he sleeps in a hut. At this station, which strikes Marlow as a scene of devastation, he meets the company's impeccably dressed chief accountant who tells him of a Mr. Kurtz, who is in charge of a very important trading-post, and a widely respected, first-class agent, a 'very remarkable person' who 'Sends in as much ivory as all the others put together'. The agent predicts that Kurtz will go very far: 'He will be a somebody in the Administration before long. They, above all the Council in Europe, you know, mean him to be'. Marlow departs with a caravan of sixty men to travel on foot about 200 miles (320 km) into the wilderness to the Central Station, where the steamboat that he is to captain is based. On the fifteenth day of his march, he arrives at the station, which has some twenty employees and is shocked to learn from a fellow European that his steamboat had been wrecked in a mysterious accident two days earlier. He meets the general manager, who informs him that he could wait no longer for Marlow to arrive, because the up-river stations had to be relieved

and tells a rumour that one important station is in jeopardy because its chief, the exceptional Mr. Kurtz, is ill. Hang Kurtz, Marlow thinks, irritated. He fishes his boat out of the river and is occupied with its repair for some months, during which a sudden fire destroys a grass shed full of materials used to trade with the natives. While one of the natives is tortured for allegedly causing the fire, Marlow is invited in the room of the station's brick-maker, a man who spent a year waiting for material to make bricks. Marlow gets the impression the man wants to pump him and is curious to know what kind of information he is after. Hanging on the wall is a small sketch in oils, on a panel, representing a woman draped and blindfolded carrying a lighted torch. Nostromo Joseph Conrad, 2024 Nostromo unfolds in the fictional Latin American republic of Costaguana, where the English Gould family has controlled the country's sole natural resource, a silver mine, for three generations. They are allowed to manage the mine as long as they pay the current government sufficient bribes. As the country teeters on the brink of yet another revolution, the English family no longer trusts that they can retain control of the mine. Instead, they entrust their servant, Nostromo, with the task of safely transporting the silver treasure beyond the country's borders on a large barge. Nostromo is Joseph Conrad's [1857-1924] most political novel, written in 1904, containing prophetic insights into our era of global capitalism. This breathtaking maritime adventure is grounded in a true story Conrad encountered during his time as a sailor in the British Empire. JOSEPH CONRAD [1857-1924] was born in Ukraine to Polish parents, went to sea at the age of seventeen, and ended his career as a captain in the English merchant navy. His most famous work is the novella Heart of Darkness [1899], adapted to film by Francis Ford Coppola in 1979 as Apocalypse Now.

Nostromo a Tale of the Seaboard by Joseph Conrad Joseph Conrad, 2017-06-25 Nostromo (full title Nostromo: A Tale of the Seaboard) is a 1904 novel by Joseph Conrad, set in the fictitious South American republic of Costaguana. It was originally published serially in two volumes of T.P.'s Weekly. Conrad set his novel in the mining town of Sulaco, an imaginary port in the western region of the imaginary country of Costaguana. The book has more fully developed characters than any other of his novels, but two characters dominate the narrative: Señor Gould and the eponymous anti-hero, the incorruptible Nostromo.
