**Women and Asian Religions** Zayn R. Kassam, 2017-06-22 Covering eclectic topics ranging from South Asian religion to motherhood to world dance to ethnomusicology, this book focuses on contemporary selected experiences of women and how their lives interface with religion. Religion has often been perceived as the source of constriction for women's roles in society. This volume explores how modern women across Asia are mobilizing their faith traditions to address existential issues encountered in both the public and private realms, relating to economics, public participation, politics, and culture. As such, it is revealed that religion can be a powerful force for social change and ameliorating women's lives, despite use of religious doctrine in the past to limit women. Editor Zayn R. Kassam, PhD, and the contributors cover not only the commonly considered Asian traditions of Hinduism, Islam, and Buddhism but also Christianity, Judaism, Bahai, and indigenous traditions. The book reveals that the challenges and opportunities Asian women face arise both from within and outside, whether in terms of developments within their countries or in relation to international political and economic regimes. The chapters explore how the issues Asian women face have as much to do with cultural and religious codes as they do with politics, economics, education, and the law; consider the varying ways in which family and motherhood are affected by the state's construction of the gendered citizen, by social constructs of motherhood, and by policies regarding women and children's access to health care; and identify the roles played by religion and spirituality in these circumstances.

Sex Work, Immigration and Social Difference Julie Ham, 2016-08-25 Public discourses around migrant sex workers are often more confident about what migrant sex workers signify morally but are less clear about who the 'migrant' is. Based on interviews with immigrant, migrant and racialized sex workers in Vancouver, Canada and Melbourne, Australia, Sex Work, Immigration and Social Difference challenges the 'migrant sex worker' category by investigating the experiences of women who are often assumed to be 'migrant sex workers' in Australia and Canada. Many 'migrant sex workers' in Melbourne and Vancouver are in fact, naturalized citizens or permanent residents, whose involvement in the sex industry intersects with diverse ideas and experiences of citizenship in Australia and Canada. This book examines how immigrant, migrant and racialized sex workers in Vancouver and Melbourne wield or negotiate ideas of illegality and legality to obtain desired outcomes in their day-to-day work. Sex work continues to be the subject of fierce debate in the public sphere, at the policy level, and within research discourses. This study interrogates these perceptions of the 'migrant sex worker' by presenting the

lived realities of women who embody or experience dimensions of this category. This book is interdisciplinary and will appeal to those engaged in criminology, sociology, law, and women's studies.

Immovable Object A. B. Abrams, 2020-10-01 North Korea and the United States have been officially at war for over 70 years, one of the longest lasting and most unbalanced conflicts in world history, in which a small East Asian state has held its own against a Western superpower for over three generations. With the Western world increasingly pivoting its attention towards Northeast Asia, and the region likely to play a more central role in the global economy, North Korea's importance as a strategically located country, potential economic powerhouse and major opponent of Western regional hegemony will only grow over the coming decades. This work is the first fully comprehensive study of the ongoing war between the two parties, and covers the history of the conflict from the first American clashes with Korea's nationalist movement in 1945 and imposition of its military rule over southern Korea to North Korea's nuclear deterrence program and ongoing tensions with the U.S. today. The nature of the antagonism between the two states, one profoundly influenced by both decolonisation and wartime memory, and the other uncompromising in its attempts to globally impose its leadership and ideology, is covered in detail. Northern Korea is one of very few inhabited parts of the world never to have been placed under Western rule, and its fiercely nationalist identity as a deeply Confucian civilization state has made it considerably more difficult to tackle than almost any other American adversary. This work elucidates the conflicting ideologies and the discordant designs for the Korean nation which have fueled the war, and explores emerging fields of conflict which have become increasingly central in recent years such as economic and information warfare. Prevailing trends in the conflict and its global implications, including the multiple wars that have been waged by proxy, are also examined in detail. An in-depth assessment of the past provides context key to understanding the future trajectories this relationship could take, and how a continuing shift in global order away from Western unipolarity is likely to influence its future. To understand where the Korean Peninsula might go in the rest of the 21st century, Abrams' telling of the story of how the two countries got to where they are today is essential." - ANKIT PANDA, senior editor, *The Diplomat* ...even those who find his conclusions unpalatable will be forced to weigh them carefully." - JOHN EVERARD, former British Ambassador to North Korea

**The Routledge History of Human Rights** Jean Quataert, Lora Wildenthal, 2019-09-05 The Routledge History of Human Rights is an interdisciplinary collection that provides historical and global perspectives on a range of human rights themes of the past 150 years. The volume is made up of 34 original contributions. It opens with the emergence of a new internationalism in the mid-nineteenth century, examines the interwar, League of Nations, and the United Nations eras of human rights and decolonization, and ends with the serious challenges for rights norms, laws, institutions, and multilateral cooperation in the national security world after 9/11. These essays provide a big picture of the strategic, political, and changing nature of human rights work in the past and into the present day, and reveal the contingent nature of historical

developments. Highlighting local, national, and non-Western voices and struggles, the volume contributes to overcoming Eurocentric biases that burden human rights histories and studies of international law. It analyzes regions and organizations that are often overlooked. The volume thus offers readers a new and broader perspective on the subject. International in coverage and containing cutting-edge interpretations, the volume provides an overview of major themes and suggestions for future research. This is the perfect book for those interested in social justice, grass roots activism, and international politics and society.

Smuggling and Trafficking in Human Beings Sheldon Zhang, 2007-07-30 Publisher's description: Examines human smuggling and trafficking into the U.S. from around the world and the implications it has for national security, criminal activity, and our economy.

Handbook of Neoliberalism Simon Springer, Kean Birch, Julie MacLeavy, 2016-07-07 Neoliberalism is easily one of the most powerful discourses to emerge within the social sciences in the last two decades, and the number of scholars who write about this dynamic and unfolding process of socio-spatial transformation is astonishing. Even more surprising though is that there has, until now, not been an attempt to provide a wide-ranging volume that engages with the multiple registers in which neoliberalism has evolved. The Routledge Handbook of Neoliberalism seeks to offer a comprehensive overview of the phenomenon of neoliberalism by examining the range of ways that it has been theorized, promoted, critiqued, and put into practice in a variety of geographical locations and institutional frameworks. With contributions from over 50 leading authors working at institutions around the world the volume's seven sections will offer a systematic overview of neoliberalism's origins, political implications, social tensions, spaces, natures and environments, and aftermaths in addressing ongoing and emerging debates. The volume aims to provide the first comprehensive overview of the field and to advance the established and emergent debates in a field that has grown exponentially over the past two decades, coinciding with the meteoric rise of neoliberalism as a hegemonic ideology, state form, policy and program, and governmentality. It includes a substantive introductory chapter and will serve as an invaluable resource for undergraduates, graduate students, and professional scholars alike.

Routledge Handbook of Sexuality Studies in East Asia Mark McLelland, Vera Mackie, 2014-09-15 This collection brings together cutting-edge work by established and emerging scholars focusing on key societies in the East Asian region: China, Taiwan, Hong Kong, Japan, North and South Korea, Mongolia and Vietnam. This scope enables the collection to reflect on the nature of the transformations in constructions of sexuality in highly developed, developing and emerging societies and economies. Both Japan and China have established traditions of 'sexuality' studies reflecting longstanding indigenous understandings of sex as well as more recent developments which interface with Euro-American medical and psychological understandings. Authors reflect upon the complex colonial and economic interactions and cultural flows which have affected

the East Asian region over the last two centuries. They trace local flows of ideas instead of defaulting to Euro-American paradigms for sexuality studies. Through looking at regional and global exchanges of ideas about sexuality, this volume adds considerably to our understanding of the East Asian region and contributes to wider discussions of social transformation, modernisation and globalisation. It will be essential reading in undergraduate and graduate programs in sexuality studies, gender studies, women's studies and masculinity studies, as well as in anthropology, sociology, history, cultural studies, area studies and health sciences.

**The Sexual Trafficking in Children** Daniel S. Campagna,Donald Poffenberger,1988 This book provides practical information on offenses and offenders in child sexual trafficking, including child pornography, juvenile prostitution, procuring, pedophilia, sex tourism, indenturing, and sex rings. The information is based on 5 years of field research through interviews with victims, offenders, and agency practitioners; field observations; and case studies from police and social service files. Chapters on offenders and victims define the major terms, describe the various markets, and survey types of child sexual exploiters, with particular attention to pedophilia. Four aspects of child sexual trafficking are then examined in detail : hustling, pimping, child pornography, and the international child sex trade. Chapters on ways to counter child sexual trafficking include a weighing of the prospects for reform through State and Federal statutes and judicial advocacy, alternative sentencing, and improvement in the quality of relevant professional services. An examination of the victimization cycle addresses types of exploitive parents, with attention to the role of dysfunctional families in the sexual victimization of

their children. The discussion of victim advocacy reviews victim treatment, federal child sexual exploitation task forces, police-social worker teams, and case preparation. (NCJRS, modified).
