The Philosopher Li Zehou Jana S. Rošker,Roger T. Ames,2025-05-01 Deepens our understanding of this contemporary Chinese thinker's philosophy and its significance. Li Zehou (1930–2021) was one of China's most prominent contemporary philosophers, transforming Confucian philosophy into a resource for positive change. From a critical rereading of the Analects to a formulation of his own aesthetic theory, Li reinterpreted the tradition from earliest times down to the present day. In this effort, he was inspired by Marx and Kant but was neither a Marxist nor a Kantian. Nor was he a Confucian. He was, and remains, an original: the philosopher Li Zehou. In this volume, Chinese, European, and US scholars explore Li's contributions to Chinese philosophy and culture, deepening our understanding of his philosophy and its significance while also celebrating the intellectual diversity and richness of Chinese philosophical thought. In a passionate and dedicated endeavor to ensure that Li's philosophy endures and continues to inspire scholars, particularly the younger generation of academics, both in China and around the world, the volume aims to serve as a catalyst for ongoing scholarship and discourse on the work of the philosopher Li Zehou.

Negotiating Change Mike Lotzof, 2018-09-06 Behaviour change programs fail more often than they succeed. Failure is avoidable, but not if we keep attempting change the same way. Negotiating Change is the culmination of decades of work with global corporations in ethics, communications, behaviour change and regulatory and social compliance. The book provides a text for corporate leaders, their advisors and academics and students from several disciplines to explain why the current approach to behaviour change and compliance fails, and documents why the author's approach has been successful in more than 60 countries. The book synthesises research insights from evolutionary psychology, behavioural sciences, neuroscience and neurochemistry into a practical guide. It explains why systems for behavioural guidance and control based on beliefs, religions, ethics, cultures and the law are ineffective in our globalised, hyper-connected, multi-cultural world. The author proposes that harm, first introduced by Hippocrates to guide the practice of medicine, provides a more useful linguistic model to engage. Harm and the Harm Principles provide an objective, independent and universal measure for assessing behaviour, applying equally regardless of race, religion, gender, age or status. Harm is culturally neutral and operates independently of laws, philosophies or codes of conduct. Harm transcends geography and time. Corporations are particularly vulnerable as they operate not just across jurisdictions and cultures, but their behaviour is influenced by the very nature of incorporation, corporate structure and stock-market pressure. Negotiating Change contains tools for boards and senior executives who want to build a more trustworthy organisation. It will not stop bad people doing bad things, but at least the self-righteous mask of legality will be removed.

New Perspectives on Moral Change Cecilie Eriksen, Nora Hämäläinen, 2022-08-12 The world we live in is constantly changing. Climate change, transforming gender conceptions, emerging issues of food consumption, novel forms of family life and technological developments are altering central areas of our forms of life. This raises questions of how to cope with and understand the moral changes implicit in such alterations. This volume is the first to address moral change as such. It brings together anthropologists and philosophers to discuss how to study and theorize the change of norms, concepts, emotions, moral frameworks and forms of personhood.
