**Orthodoxy and Catholicism: A Comparison** Dave Armstrong, 2007-08-24 It has been my strong desire for some time now to revise my book in order to emphasize ecumenism and unity proportionately a lot more than in the first (2004) edition. I'm much more interested in finding common ground. I've also learned a thing or two about Orthodoxy over the past decade. I wanted this volume to be able to read by Orthodox and also Eastern Catholics, without having seizures or going into apoplectic fits (caused by my ignorance or overly polemical or biased writing). I exaggerate, of course, but perhaps not by much! Toward that end I have enlisted a very qualified Eastern Catholic friend to contribute significant portions to the revised edition: Fr. Deacon Daniel G. Dozier. The revision remains an apologetic for Catholicism and respectful critique of Orthodoxy, but now it also includes friendly ecumenical discussion and dialogue: feedback and input from the Eastern theological perspective. The overall tone, tenor, and goal is considerably different. Unity is stressed as much as apologetics.

**How Psychotherapists Live** David E. Orlinsky, 2022-05-10 *How Psychotherapists Live* is a landmark study of thousands of mental health practitioners worldwide. It significantly advances our understanding of psychotherapists and counselors by focusing on their individual qualities and lives, revealing the many ways they differ as persons and how those differences shape their experiences of therapeutic work. Topics include the therapist's personal self, private life, individual beliefs, quality of life, childhood family experiences, and personal psychotherapy. Based on thirty years of research, the book is

written to interest clinical practitioners while also providing researchers with a rich array of data. Clinical psychologists, psychiatrists, clinical social workers, and counselors can easily compare their own experiences with the thousands of therapists in the study by reflecting on typologies constructed from research findings. The book will also be a valuable resource for researchers studying the sources of variation in therapists' effectiveness.

*Collectivistic Religions* Slavica Jakelic, 2016-05-23 *Collectivistic Religions* draws upon empirical studies of Christianity in Europe to address questions of religion and collective identity, religion and nationalism, religion and public life, and religion and conflict. It moves beyond the attempts to tackle such questions in terms of 'choice' and 'religious nationalism' by introducing the notion of 'collectivistic religions' to contemporary debates surrounding public religions. Using a comparison of several case studies, this book challenges the modernist bias in understanding of collectivistic religions as reducible to national identities. A significant contribution to both the study of religious change in contemporary Europe and the theoretical debates that surround religion and secularization, it will be of key interest to scholars across a range of disciplines, including sociology, political science, religious studies, and geography.

**Eastern Christianity and Politics in the Twenty-First Century** Lucian N. Leustean, 2014-05-30 This book provides an up-to-date, comprehensive overview of Eastern Christian churches in Europe, the Middle East, America, Africa, Asia and Australia. Written by leading international scholars in the field, it examines both Orthodox and Oriental churches from the end of the Cold War up to the present day. The book offers a unique insight into the myriad church-state relations in Eastern Christianity and tackles contemporary concerns, opportunities and challenges, such as religious revival after the fall of communism; churches and democracy; relations between Orthodox, Catholic and Greek Catholic churches; religious education and monastic life; the size and structure of congregations; and the impact of migration, secularisation and globalisation on Eastern Christianity in the twenty-first century.
