  Digital Government Bernd W. Wirtz,2022-10-07 Digitization, the global networking of individuals and organizations, and the transition from an industrial to an information society are key reasons for the importance of digital government. In particular, the enormous influence of the Internet as a global networking and communication system affects the performance of public services. This textbook introduces the concept of digital government as well as digital management and provides helpful insights and strategic advice for the successful implementation and maintenance of digital government systems.

  International Perspectives on Artificial Intelligence J. Mark Munoz,Alka Maurya,2022-01-11 Artificial Intelligence, or AI, is set to redefine our day-to-day activities. Many companies across the globe are engaged in doing research on the application of AI in almost each and every aspect of our life. Many companies have already integrated AI in their manufacturing, supply chain, marketing and after sales operations, but there is a lot that needs to be done to capitalize the full potential of this technology. International Perspectives on Artificial Intelligence is an attempt to put together the work done across various countries on adapting and integrating Ai not only in organizations but also at individual and social levels.

  ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING AND MARKETING MANAGEMENT James Seligman,2018-09-20 OBJECTIVES The book objectives provide a full delivery of information on the fields of artificial intelligence (AI) and machine learning (ML) to educators, students and practitioners of marketing. By explaining AI and ML terminology and its applications including marketing, the book is designed to inform and educate. Marketing use of AI and ML has exploded in recent decades as marketers have seen the considerable benefits of these two technologies. It is understood and explained that AI deals with 'Intelligent behaviour' by machines rather than natural intelligence found in humans and animals, it is the machine mimicking ' cognitive functions' that humans associate with the mind in learning, expression and problem solving and much more.

  Artificial Neural Network And Power System Harmonics Detection DR. DHARMENDRA KUMAR SINGH, Preface The objective of this book is to introduce an artificial neural network based solution for the problem of measuring the actual amount of harmonics injected into a power network by an individual nonlinear load. In this modern era, the demand for electrical and electronics system has increased so much that it has become very hard to do without it. Now a day, a smooth life cannot be expected without electrical energy. Today, electrical and electronic devices are used in every area may it be

homes, offices, markets, traffic, education, health, service, defence, communication, sports, industries etc. In recent years, neural network has got special attention by the researchers because of its simplicity, learning and generalization ability and it has been applied in the field of engineering. The theory of neural network is becoming more and more mature and is also making certain breakthrough progress in various fields. It has the advantages of parallel information processing, learning, distribution patterns and memory which can be used in the measurement of the harmonic to construct an appropriate network. The book is intended to provide a compressive knowledge in the field of power system harmonics, source of harmonics, power quality and artificial neural network. The students of both undergraduates and postgraduates' college will find the book quite simple and informatics. A number of colleagues and friends of author have contributed significantly through their constructive critism in the evolution and preparation of the book manuscript. The authors are thankful to them for their continued support without which this book would not been possible. The author would like to thank Mr. Akash Deep Jain for showing interest in this book. I grateful to Standard Book House U/o Rajsons Publications Pvt Ltd, Delhi and his entire production team for their spontaneous help and assistance in developing and publishing the book in its present form. I am indebted to many individuals for their support and guidance. I would like to express my sincere gratitude to my advisor Professor A.S.Zadgaonkar. His mentoring, guidance, constant encouragement and the countless enlightening conversations have not only helped me achieve this goal, but will also help me as an engineer in the years to come. It was an honor for me to work under his exemplary supervision. I wish to thank Mrs. A.S.Zadgaonkar for her love and blessing, when we discussed the topic at her home. She lovingly ensured a continuous supply of tea, snacks and sweets for refreshment. Nothing in life is possible without the love and support from one's family. I would like to thank my whole family for their sacrifices, patience, support and unconditional love. I would also like to thank my Baua and Kanha for their constant support and love. Last but not the least; I would like to express my undying love and gratitude to my mother and father for a lifetime of support, encouragement and education. Their love and blessings made everything I have accomplished possible. I also thanks Mr. Akhilesh Singh, Avinash Singh, Birendra Kumar Singh, Sunil Singh, Amrendra Kumar, Santosh Kumar, Naveen, Govind, Golu, Annu, Kanahiya, Chanda, Tara, Nanhi, Lakho, Sitara, Akah, Mukhiya, Last but not least Author thanks the Almighty for giving him enough momentum and enthusiasm in creating a proper paradigm and platform for successful completion of this book. Dr. DHARMENDRA KUAR SINGH

The Organization of Information Arlene G. Taylor,2004 The extensively revised and completely updated second edition of this popular textbook provides LIS practitioners and students with a vital guide to the organization of information. After a broad overview of the concept and its role in human endeavors, Taylor proceeds to a detailed and insightful discussion of such basic retrieval tools as bibliographies, catalogs, indexes, finding aids, registers, databases, major bibliographic utilities, and other organizing entities. After tracing the development of the organization of recorded information in Western

civilization from 2000 B.C.E. to the present, the author addresses topics that include encoding standards (MARC, SGML, and various DTDs), metadata (description, access, and access control), verbal subject analysis including controlled vocabularies and ontologies, classification theory and methodology, arrangement and display, and system design.
