Focus On: 100 Most Popular American Romantic Drama Films Wikipedia contributors,

American Independent Cinema Geoff King, Claire Molloy, Yannis Tzioumakis, 2013 The American independent sector has attracted much attention in recent years, an upsurge of academic work on the subject being accompanied by wider public debate. But many questions remain about how exactly independence should be defined and how its relationship might be understood with other parts of the cinematic landscape, most notably the Hollywood studios. Edited and written by leading authors in the field, *American Independent Cinema: indie, indiewood and beyond* offers an examination of the field through four sections that range in focus from broad definitions to close focus on particular manifestations of independence. A wide variety of examples are included but within a framework that offers insights into how these are related to one another. More specifically this collection offers: an account of recent developments as well as reviewing, reassessing and revising a number of central positions, approaches and arguments relating to various parts of the independent and/or indie sector. Individual case studies that range from the distinctive qualities of the work of established 'quality' filmmakers such as Wes Anderson, Steven Soderbergh and Rebecca Miller to studies of horror genre production at the more 'disreputable' end of the independent spectrum. Examples of the limits of independence available in some cases within Hollywood, including studies of the work of Stanley Kubrick and Hal Ashby. Case studies of under-researched areas in the margins of American independent cinema, including the Disney nature films and Christian evangelical filmmaking. A number of wider overview chapters that examine contemporary American independent cinema from a number of perspectives. Together, the chapters in the collection offer a unique contribution to the study of independent film in the United States. Contributors: Warren Buckland, Philip Drake, Mark Gallagher, Geoff King, Peter Krämer, Novotny Lawrence, James MacDowell, Claire Molloy, Michael Z. Newman, Alisa Perren, James Russell, Thomas Schatz, Michele Schreiber, Janet Staiger, Yannis Tzioumakis, Sarah Wharton

Hollywood and the Law Paul McDonald, Emily Carman, Eric Hoyt, Philip Drake, 2017-10-07 Since the earliest days of cinema the law has influenced the conditions in which Hollywood films are made, sold, circulated or presented - from the talent contracts that enable a film to go into production, to the copyright laws that govern its distribution and the censorship laws that may block exhibition. Equally, Hollywood has left its own impression on the American legal system by lobbying to expand the duration of copyright, providing a highly visible stage for contract disputes and representing the legal system on

screen. In this comprehensive collection, international experts offer chapters on key topics, including copyright, trademark, piracy, antitrust, censorship, international exhibition, contracts, labour and tax. Drawing on historical and contemporary case studies, *Hollywood and the Law* provides readers with a wide range of perspectives on how legal frameworks shape the culture and commerce of popular film.

Genre, Gender and the Effects of Neoliberalism Betty Kaklamanidou, 2013 The romantic comedy has long been regarded as an inferior film genre by critics and scholars alike, accused of maintaining a strict narrative formula which is considered superficial and highly predictable. However, the genre has resisted the negative scholarly and critical comments and for the last three decades the steady increase in the numbers of romantic comedies position the genre among the most popular ones in the globally dominant Hollywood film industry. The enduring power of the new millennium romantic comedy, proves that therein lies something deeper and worth investigating. This new work draws together a discussion of the full range of romantic comedies in the new millennium, exploring the cycles of films that tackle areas including teen romance, the new career woman, women as action heroes, motherhood and pregnancy and the mature millennium woman. The work evaluates the structure of these different types of films and examines in detail the ways in which they choose to frame key contemporary issues which influence how we analyse global politics, including gender, class, race and society. Providing a rich understanding of the complexities and potential of the genre for understanding contemporary society, this work will be of interest to students and scholars of cultural & film studies, gender & politics and world politics in general.

The Encyclopedia of Sexism in American Films Salvador Jiménez Murguía, Erica Joan Dymond, Kristina Fennelly, 2019-11-29 The treatment—and mistreatment—of women throughout history continues to be a necessary topic of discussion, in order for progress to be made and equality to be achieved. While current articles and books expose troubling truths of the gender divide, modern cinema continues to provide problematic depictions of such behavior—with a few heartening exceptions. *The Encyclopedia of Sexism in American Films* closely examines the many, pervasive forms of sexism in contemporary productions—from clueless comedies to superhero blockbusters. In more than 130 entries, this volume explores a number of cinematic grievances including: the objectification of women's bodies the limited character types available for female performersthe lack of sexual diversity on the screen the limited range of desirable traits for female performers the use of gratuitous sexthe narrow focus on heteronormative depictions of courtship and romance The films discussed here include *As Good as It Gets* (1999), *Beauty and The Beast* (2017), *The Devil Wears Prada* (2006), *Do the Right Thing* (1989), *Easy A* (2010), *The Forty-Year-Old Virgin* (2005), *Hidden Figures* (2016), *Lost in Translation* (2003), *Mulholland Drive* (2001), *Showgirls* (1995), *The Silence of the Lambs* (1991), *Star Wars* (1977), *Thelma & Louise* (1991), *Tootsie* (1982), *The Witches of Eastwick* (1987), and *9 to 5* (1980). By digging deeply into more insidious forms of sexual/gender discrimination, this book illuminates one more aspect of women's lives that deserves to be understood. Offering insights and

analysis from more than fifty contributors, *The Encyclopedia of Sexism in American Films* will appeal to scholars of cinema, gender studies, women's studies, and cultural history.

Screen Comedy and Online Audiences Inger-Lise Kalviknes Bore, 2017-06-14 The question of why we laugh (or don't laugh) has intrigued scholars since antiquity. This book contributes to that debate by exploring how we evaluate screen comedy. What kinds of criteria do we use to judge films and TV shows that are meant to be funny? And what might that have to do with our social and cultural backgrounds, or with wider cultural ideas about film, TV, comedy, quality and entertainment? The book examines these questions through a study of audience responses posted to online facilities such as Twitter, Facebook, review sites, blogs and message boards. Bore's analysis of these responses considers a broad range of issues, including how audiences perceive the idea of national comedy; what they think of female comedians; how they evaluate romcoms, sitcoms and web comedy; what they think is acceptable to joke about; what comedy fans get excited about; how fans interact with star comedians; and what comedy viewers really despise. The book demonstrates some of the ways in which we can adapt theories of humour and comedy to examine the practices of contemporary screen audiences, while offering new insights into how they negotiate the opportunities and constrictions of different online facilities to share their views and experiences.
