Black Legend Paulina L. Alberto,2022-01-06 The gripping story of Afro-Argentine celebrity Raúl Grigera that also tells the untold history of Black Argentina.

The Social Life of the Mall Franziska Reiffen,2024-10-30 Paseo La Estación, a mall in Buenos Aires, is as much a place of transit as a place of encounter, where long-term residents and newcomers, people with and without jobs, homeowners and those without housing meet. In the process, social tensions emerge, especially when classist, migrantizing, and moralizing distinctions become relevant in conflict-laden negotiations of belonging. In an ethnography of the mall, Franziska Reiffen explores how people find opportunities for social, economic, and political participation in precarious conditions, and shows how people create socially meaningful places in a city characterized by diversity, inequality, and mobility.

Translating the Queer Héctor Domínguez Ruvalcaba,2016-11-15 What does it mean to queer a concept? If queerness is a notion that implies a destabilization of the normativity of the body, then all cultural systems contain zones of discomfort relevant to queer studies. What then might we make of such zones when the use of the term queer itself has transcended the fields of sex and gender, becoming a metaphor for addressing such cultural phenomena as hybridization, resignification, and subversion? Further still, what should we make of it when so many people are reluctant to use the term queer, because they view it as theoretical colonialism, or a concept that loses its specificity when applied to a culture that signifies and uses the body differently? *Translating the Queer* focuses on the dissemination of queer knowledge, concepts, and representations throughout Latin America, a migration that has been accompanied by concomitant processes of translation, adaptation, and epistemological resistance.

Estado, sociedad y políticas públicas María Paula A. Cicogna,2020-05-01 El objetivo principal de esta obra apunta a la formación ciudadana de quienes transitan sus primeros cursos en la Universidad. Tal propósito descansa en la convicción de que, independientemente de la orientación profesional que se siga en la Universidad, es fundamental el aprendizaje de conceptos básicos que contribuyan a la solidez y responsabilidad cívica de los hombres y mujeres que egresen de sus aulas. Por eso, tras proporcionar herramientas y nociones teóricas sobre la sociedad, el Estado y el papel ciudadano en la interacción de ambos, los distintos capítulos recorren las diferentes etapas históricas de la vida cívica en nuestro país a lo

largo de los aproximadamente 150 años que van desde la formación del Estado nacional hasta el presente.

Marriage and the Culture of Peace Cecilia Sarahi de la Rosa Vazquez, Paris A. Cabello-Tijerina, 2023-03-14 This book provides skills for therapists and families to help improve interpersonal communication, promoting a new system of family coexistence and a refreshed concept of the modern marriage in society. Written from a constructivist peace perspective, the book's aim is to reduce the high statistics of intimate partner violence that occurs in Mexico, arguing that the culture of peace and how it is born in the family in turn affects society for better or for worse. Based upon interviews from 150 long-term married couples, the chapters address the components that promote peaceful dialogue in marriages, such as assertive language, active listening, tolerance to frustration, and gender perspectives. Including accessible language and several models of peace, the book uniquely examines same-sex marriages, the role of children in marriage conflicts, and prescribed gender assumptions and roles in relationships. It aims to empower family members to move away from old habits and seek a more equitable existence in marriages and society at large. This interdisciplinary text will be of great interest to family therapists and clinical social workers, as well as to students and researchers in communication and peace studies.

Handbook of Research on Promoting Peace Through Practice, Academia, and the Arts Lutfy, Mohamed Walid, Toffolo, Cris, 2018-09-07 Academic disciplines perceive tranquility and a sense of contentment differently among themselves and therefore contribute to peace-building initiatives differently. Peace is not merely a function of education or a tool that produces amicable systems, but rather a concept that educational contributions can help societies progress to a more peaceful existence. The Handbook of Research on Promoting Peace Through Practice, Academia, and the Arts aims to provide readers with a concise overview of proactive positive peace models and practices to counter the overemphasis on merely ending wars as a solution. While approaching peace-building through multiple vantage points and academic fields such as the humanities, arts, social sciences, and theology, this valuable resource promotes peace-building as a cooperative effort. This publication is a vital reference work for humanitarian workers, leaders, educators, policymakers, academicians, undergraduate and graduate-level students, and researchers.

Research Anthology on Modern Violence and Its Impact on Society Management Association, Information Resources, 2022-08-12 Violence on both large and small scales has a tremendous impact on society. The causes and impacts of violence have been under study for decades; however, in the modern era, it is important to remain knowledgeable of the current research on violence. As tragic events flood news headlines around the world, it is essential to evaluate violence, its causes, and its impact on society in order to mitigate and prevent violence globally. The Research Anthology on Modern Violence and Its Impact on Society discusses the causes, ideologies, and perceptions of modern violence and examines its impact on society. It presents emerging research on modern violence in multiple dimensions from interpersonal to mass violence. Covering topics such as gun violence, radicalization, and victim-offender overlap, this major reference work is an

essential resource for sociologists, politicians, government officials, law enforcement, community leaders, educators and administrators of both K-12 and higher education, students of higher education, psychologists, criminologists, victimologists, researchers, and academicians.

Latinx Queer Psychology Reynel Alexander Chaparro, Marco Aurélio Máximo Prado, 2021-12-13 This book brings together studies that contribute to the emergence of a latinx queer psychology. LGBTQ+ studies have gradually included the perspective of sexual and gender diversity, but they have been predominantly elaborated from North American and European perspectives. This book focuses on different understandings and practices developed by Latin American researchers that contribute to a broader application of psychological knowledge in LGBTQ+ studies, as well as sexual and gender diversity issues, but goes beyond the region by also incorporating chapters written by European and North American authors influenced by latinx perspectives. Latin American psychology has developed original approaches to LGBTQ+ studies based on a new theoretical critique to the mainstream psychological theories that has given rise to a new queer psychology. The chapters in this book showcase both theoretical contributions and empirical researches in this emerging field from six Latin American countries - Argentina, Brazil, Chile, Colombia, Costa Rica and Uruguay - as well as from Spain, the United States and Puerto Rico. *Latinx Queer Psychology: Contributions to the Study of LGBTQ+, Sexual and Gender Diversity Issues* aims to contribute to the decolonization of psychological knowledge and practices addressing sexual and gender diversity issues, and to serve as a useful resource for social, community, clinical and educational psychologists working with research and practice involving LGBTQ+ populations, as well as to social scientists in general interested in queer and gender studies.
