

Liber Null Psychonaut

Angel Millar

Liber Null & Psychonaut Peter J. Carroll, 1987-01-15 Two complete volumes in one. Liber Null contains a selection of extremely powerful rituals and exercises for committed occultists. Psychonaut is a manual comprising the theory and practice of magic aimed at those seeking to perform group magic, or who work as shamanic priests to the community.

Liber Kaos Peter J. Carroll, 1992-01-15 A complete, advanced magical training course for the individual or for groups, with details of the author's magical order, an outline for setting up a temple, and instructions for carrying out the essential rituals of Chaos Magic. Includes a fresh look at aeonics, cosmogenesis, auric magic, and shadow time, as well as discloses the technical aspects of spells and equations. Illustrated. Appendices. References.

Speculation, Heresy, and Gnosis in Contemporary Philosophy of Religion Joshua Ramey, Matthew S. Haar Farris, 2016-10-12 Many in continental philosophy of religion aver that we are in a new moment, one where the intellectually marginalized and religiously bastardized traditions of mystical, intuitive, and esoteric apprehensions must be re-articulated and appreciated anew. In an era marked by catastrophic events and atrophied cultural institutions, what seems to be needed is an affirmation of the human potential to truck with non-human or even inhuman forces and intentions, at scales of speed, slowness, or intensity that break with consensual conceptions of human limitations. The essays in this volume outline patterns of mind and mortality, existence and ecstasy, creativity and expression, political possibility and religious matrix from a position that takes quite seriously possible relations with the absolute, however enigmatic, that modernity has denied and postmodernity has obscured in the name of academic skepticism and humanist reservations. Beyond post-modernist pastiche and post-secular nostalgia, these essays explore the potencies of archaic spiritual disciplines as well as the passions driving the mystical, heretical, and Gnostic intimations riddling contemporary relations with the absolute.

The Occult Sciences Peter Carroll, 2016-11-23 The magic of the IOT is an intensely practical, personal, experimental art. Two major themes run through this book: that altered states of consciousness are the key to unlocking one's magical abilities; and that these abilities can be developed without any symbolic system except reality itself. The magical style of thinking is explored with chapters on alternative belief and the alphabet of desire. A natural inclination toward the darker side of magic is as good a point as any from which to begin the ultimate quest, and half this book is devoted to the black arts. Independently of ancient dusty books and mystification the vital elements of many traditions conspire here to create a living

art. The Illuminates of Thanateros are the magical heirs to the Zos Kia Cultus and the A.'.A.'. This book, written originally as a sourcebook for the IOT, is now being released for those who wish to work alone and for those seeking admission to the Order. Although the initiate is referred to as he throughout, the reader should understand that this is merely in keeping with the traditional style of magical texts of this type, and that this course of study by no means excludes women.

Baphomet Michael Osiris Snuffin, 2025-04-08 Explore the History and Mysteries of Baphomet Discover the identity of Baphomet, how They have evolved through history, and how to work with Them in your occult practice. Michael Osiris Snuffin traces the evolution of Baphomet through the works of Éliphas Lévi, Aleister Crowley, and other diverse practitioners to document how a mysterious name associated with the trial of the Templars became a modern Pagan deity in the late twentieth century. Snuffin introduces you to the three symbolic faces of Baphomet: the Spirit of the Earth, the Outsider, and the Transmuter. He also shows you how to build a relationship with Baphomet through meditation, ritual, and invocation. Most importantly, Snuffin reveals the true purpose of this enigmatic deity: to influence us to change our ways and heal the planet instead of harming it.

The Three Stages of Initiatic Spirituality Angel Millar, 2020-02-11 A detailed guide to the three successive initiatic archetypes: Craftsman, Warrior, and Magician • Investigates the symbolism, rituals, and metaphysical aspects of each initiatic archetype, from the alchemy and shamanism of the craftsman, to the subtle energy work of the warrior, to the sex magic practices and Higher Self work of the magician • Shares meditations, practices, and transformational techniques for each archetype • Investigates the similarities between contemporary Western occultism, from Crowley to Chaos Magic, and the “positive thinking” mind metaphysics movement Exploring the craftsman, warrior, and magician archetypes--three vocations that echo the traditional tripartite division of society--Angel Millar reveals how these archetypes represent the three successive stages of spiritual growth in an individual's life. He shows how they provide structure for the initiatory process to develop one's mental, physical, and spiritual potential. As craftsman, the individual experiences “mnemonic” initiation: the cultivation of memory as well as language. As warrior, “somatic” initiation: development of the physical body and cultivation of the spirit body. And as magician, “gnostic” initiation: cultivation of the self and manifestation of the Higher Self. Investigating the metaphysical aspects of each archetype, the author explores their symbolism, spiritual practices, and rituals. Examining the craftsman archetype, he looks at metallurgy, alchemy, and the “Craft” of Freemasonry, as well as the ancient role of blacksmith as shaman. He explores the idea of God as a “Creator” or “Craftsman,” especially in relation to ancient Greek philosophy, Islamic neoplatonism, and the Kabbalah. Examining the warrior archetype, he reveals how the way of the warrior was affected by religion and mysticism, such as how the Persian martial art of Zoorkhaneh was profoundly shaped by Sufism and why the Buddhist Shaolin temple became synonymous with Kung Fu. The author places special emphasis on the cultivation of subtle energy as practiced in martial arts, especially in relation to Taoist inner alchemy.

Examining the magician archetype, he reveals how each individual has two “selves”--a lower self and a Higher Self--and explores the union of opposites studied by the magician, such as in the tantric arts and sacred sex magic. Sharing meditations, practices, and processes associated with each archetype, as well as techniques for transforming one’s consciousness, he also investigates similarities between contemporary Western occultism, from Crowley to Chaos Magic, and the “positive thinking” mind metaphysics movement. Structured to parallel the three archetypal stages of the initiatic process, this comprehensive guide offers a literary initiation through three degrees of esoteric knowledge.

This Is Chaos: Embracing the Future of Magic Peter J. Carroll, 2025 Chaos magic emerged only a few decades back, but it has already grown into a magical tradition embraced by many. This is the first collection of its kind showcasing where chaos magic has come from, where it is now, and most importantly where it is going. Chaos magic has always been about pushing new boundaries, and this book features essays by some of the most respected chaos magic workers who are redefining magic for the modern practitioner--

Contemporary Esotericism Egil Asprem, Kennet Granholm, 2014-09-11 The study of contemporary esoteric discourse has hitherto been a largely neglected part of the new academic field of Western esotericism. Contemporary Esotericism provides a broad overview and assessment of the complex world of Western esoteric thought today. Combining historiographical analysis with theories and methodologies from the social sciences, the volume explores new problems and offers new possibilities for the study of esoterica. Contemporary Esotericism studies the period since the 1950s but focuses on the last two decades. The wide range of essays are divided into four thematic sections: the intricacies of esoteric appeals to tradition; the role of popular culture, modern communication technologies, and new media in contemporary esotericism; the impact and influence of esotericism on both religious and secular arenas; and the recent 'de-marginalization' of the esoteric in both scholarship and society.

Modern Sex Magick Donald Michael Kraig, 2003 This is one of the first books to clearly reveal the secrets of Western sex magick without relying on Tantric theory. It explores the latest scientific discoveries in the field of human sexuality. 55 line illustrations.

Shamanism and the Esoteric Tradition Angelique S. Cook, George A. Hawk, 1992 Recharge and enhance your magical practice by returning to the source of the entire esoteric tradition -- the shamanism of the ancient hunters and gatherers. This book introduces you to the fundamental neo-shamanic techniques that produce immediate results. Shamanic practice is a tremendous aid in self-healing and personal growth. It also produces euphoria by releasing beta-endorphins, an effective antidote against depression.

Liber Null Peter James Carroll, 2007

CATALOG 1998 SAMUEL WEISER,

Introduction to New and Alternative Religions in America William M. Ashcraft, Eugene V. Gallagher, 2006-10-30 Most new or alternative religions are gravely misunderstood by members of the religious mainstream. Labeled cults or sects, groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large. Despite their efforts at educating the general public, the various anti- and counter-cult activists have in fact promoted much more mis-understanding than accurate understanding of the religious lives of some of their fellow citizens. Consequently, they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so-called mainstream. This set rectifies the situation by presenting accurate, comprehensive, authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society, and it addresses ways of understanding new and alternative religions within a broader context. Determining what actually constitutes a new or alternative religion is a subject of constant debate. Questions arise as to a new faith's legitimacy, beliefs, methods of conversion, and other facets of a religious movement's viability and place in a given culture. How a religion gains recognition by the mainstream, which often labels such new movements as cults, is fraught with difficulty, tension, and fear. Here, experts delineate the boundaries and examine the various groups, beliefs, movements, and other issues related to new faiths and alternative beliefs. Readers will come away with a fuller understanding of the religious landscape in America today. Volume 1: History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them. This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved. Volume 2: Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths. Groups such as the Shakers, the People's Temple, the Branch Davidians, Jehovah's Witnesses and others are examined. Volume 3: Metaphysical, New Age, and Neopagan Movements looks at Shamanism, Spiritualism, Wicca, and Paganism, among other movements, as they have developed and grown in the U.S. These faiths have found new and devoted followers yet are often misunderstood. Volume 4: Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions. From Baha'i to Soka Gakkai, from Adidam to the Vedanta Society, contributors look at a full range of groups practicing and worshipping in the U.S. today. Volume 5: African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora such as Rastafarianism, Santeria, and the Nation of Islam, alongside traditions that are truly American incarnations like Scientology, UFO religions, and Heaven's Gate. Some of the new and alternative religions covered in these pages include: ; Shamanism ; Wicca ; Black Israelites ; Santeria ; Scientology ; Elan Vital ; Hare Krishna ; Soka Gakkai ; and many more

The Encyclopedia Of Magic & Witchcraft Susan Greenwood, 2014-01-07 A detailed historical and anthropological study of the traditions of witchcraft round the world, with an in-depth examination of magic and its relationship with religion,

from prehistory to the post-modern era. ,

Sexuality, Religion, and Magic Michael A. Kőszegi,1994

Pilgrims of the Night Lars B. Lindholm,1993 Here is a fresh, unprejudiced and exceptionally readable examination of the evolution of magical theory and practice in Western culture. In his often humorous style, Lars B. Lindholm traces the history of magic from the earliest times to modern, encountering colorful personalities such as Thomas Aquinas, Henry Cornelius Agrippa, John Dee, and Aleister Crowley along the way.

Postmodern Magic Patrick Dunn,2005 Fresh ideas for the modern mage lie at the heart of this thought-provoking guide to magic theory. Approaching magical practice from an information paradigm, Patrick Dunn provides a unique and contemporary perspective on an ancient practice. Imagination, psychology, and authority-the most basic techniques of magic-are introduced first. From there, Dunn teaches all about symbol systems, magical artifacts, sigils, spirits, elementals, languages, and magical journeys, and explains their significance in magical practice. There are also exercises for developing magic skills, along with techniques for creating talismans, glamours, servitors, divination decks, modern defixios, and your own astral temple. Dunn also offers tips on aura detection, divination, occult networking, and conducting your own magic research.

Traditiones ,2012

Beyond the Self Paul Barrows,1998 Showcases the author's vision of consciousness and human spirituality within the framework of modern science. The text argues that the two fields are not diametrically opposed, but aspects of the same world view.
