Lying Sam Harris, 2013-10-23 As it was in Anna Karenina, Madame Bovary, and Othello, so it is in life. Most forms of private vice and public evil are kindled and sustained by lies. Acts of adultery and other personal betrayals, financial fraud, government corruption—even murder and genocide—generally require an additional moral defect: a willingness to lie. In *Lying*, best-selling author and neuroscientist Sam Harris argues that we can radically simplify our lives and improve society by merely telling the truth in situations where others often lie. He focuses on white lies—those lies we tell for the purpose of sparing people discomfort—for these are the lies that most often tempt us. And they tend to be the only lies that good people tell while imagining that they are being good in the process.

Summary of Lying by Sam Harris QuickRead, Alyssa Burnette, Learn why lying is so pervasive in our society and what we can do to stop it. People lie all the time. We lie to each other. We lie to ourselves. We tell white lies, fibs, and whoppers. And sometimes, we lie so much that we completely lose sight of the truth. *Lying* (2011) is a critical analysis of humanity's deceptions. Examining lies on both the macro and microscopic levels, Sam Harris' investigation considers the prevalence of untruths in our society and why they have to stop. Guardrails Urs Gasser, Viktor Mayer-Schönberger, 2025-08-19 How society can shape individual actions in times of uncertainty When we make decisions, our thinking is informed by societal norms, "guardrails" that guide our decisions, like the laws and rules that govern us. But what are good guardrails in today's world of overwhelming information flows and increasingly powerful technologies, such as artificial intelligence? Based on the latest insights from the cognitive sciences, economics, and public policy, *Guardrails* offers a novel approach to shaping decisions by embracing human agency in its social context. In this visionary book, Urs Gasser and Viktor Mayer-Schönberger show how the quick embrace of technological solutions can lead to results we don't always want, and they explain how society itself can provide guardrails more suited to the digital age, ones that empower individual choice while accounting for the social good, encourage flexibility

in the face of changing circumstances, and ultimately help us to make better decisions as we tackle the most daunting problems of our times, such as global injustice and climate change. Whether we change jobs, buy a house, or quit smoking, thousands of decisions large and small shape our daily lives. Decisions drive our economies, seal the fate of democracies, create war or peace, and affect the well-being of our planet. Guardrails challenges the notion that technology should step in where our own decision making fails, laying out a surprisingly human-centered set of principles that can create new spaces for better decisions and a more innovative and prosperous society.

The Rage Julia Ebner, 2017-09-30 The early twenty-first century has been defined by a rise in Islamist radicalisation and a concurrent rise in far right extremism. This book explores the interaction between the 'new' far right and Islamist extremists and considers the consequences for the global terror threat. Julia Ebner argues that far right and Islamist extremist narratives - 'The West is at war with Islam' and 'Muslims are at war with the West' - complement each other perfectly, making the two extremes rhetorical allies and building a spiralling torrent of hatred - 'The Rage'. By looking at extremist movements both online and offline, she shows how far right and Islamist extremists have succeeded in penetrating each other's echo chambers as a result of their mutually useful messages. Based on first-hand interviews, this book introduces readers to the world of reciprocal radicalisation and the hotbeds of extremism that have developed - with potentially disastrous consequences - in the UK, Europe and the US.

Choctaw Crime and Punishment, 1884-1907 Devon Abbott Mihesuah, 2012-11-13 During the decades between the Civil War and the establishment of Oklahoma statehood, Choctaws suffered almost daily from murders, thefts, and assaults—usually at the hands of white intruders, but increasingly by Choctaws themselves. This book focuses on two previously unexplored murder cases to illustrate the intense factionalism that emerged among tribal members during those lawless years as conservative Nationalists and pro-assimilation Progressives fought for control of the Choctaw Nation. Devon Abbott Mihesuah describes the brutal murder in 1884 of her own great-great-grandfather, Nationalist Charles Wilson, who was a Choctaw lighthorseman and U.S. deputy marshal. She then relates the killing spree of Progressives by Nationalist Silan Lewis ten years later. Mihesuah draws on a wide array of sources—even in the face of missing court records—to weave a spellbinding account of homicide and political intrigue. She painstakingly delineates a transformative period in Choctaw history to explore emerging gulfs between Choctaw citizens and address growing Indian resistance to white intrusions, federal policies, and the taking of tribal resources. The first book to fully describe this Choctaw factionalism, *Choctaw Crime and Punishment* is both a riveting narrative and an important analysis of tribal politics.

The Inclusive Museum Leader Cinnamon Catlin-Legutko, Chris Taylor, 2021-07-05 The museum field is experiencing a critical gaze that is both “of the moment” and long overdue. Museums were built as colonial enterprises and are slow to awaken to the harm caused by their actions which are not limited to the capturing and keeping of Indigenous ancestors, the exclusion and erasure of Black voices, bodies, and creativity, and the positioning of white power in the C-suite and board rooms. For decades, the conversation about equity and inclusion in the museum field has become louder. It is no longer possible to ignore the systemic racism embedded in our society and our profession. *The Inclusive Museum Leader* offers insights and perspectives from two recognized museums leaders who have joined together to offer practical solutions and opportunities for today’s museum leaders. Authors share their journeys to becoming inclusive leaders, as well as decisions they have made and actions they have taken to build equitable practices within their organizations. Throughout the book are personal exercises and provocations the reader is invited to respond to, making the book a valuable tool for any museum leader looking to enhance their style and re-frame their decision-making process.
