Prison Recipes and Prison Cookbooks A.E. Stearns, 2024-04-24 Prison Recipes and Prison Cookbooks provides an innovative exploration of U.S.-based prison cookbooks using a narrative criminological approach. The book relies on the voices of prison cookbook authors to argue that cookbook narratives are a form of communication with the free world. Further, the book undertakes thematic analyses of prison cookery and narratives to illuminate the intersections of incarceration with abolition, gender, literacy, and dehumanization. The reader is introduced to the power and symbolism of cell made food, as well as the agency and resourcefulness of those who cook, bake, and write about food behind bars. Prison Recipes and Prison Cookbooks is of interest to instructors of courses covering the sociology of food, criminology, human geography, and anthropology. The book is also appropriate for prison and probation services, health organizations, and anyone engaged in the criminal-legal system, abolition movements, or social reform.

Resilience Rhonda Turpin, 2005 At Alderson West Virginia Prison Camp, Ms. Turpin riveted daily with éclat Martha Stewart, forming a unique comity during Martha Stewart's five-month stay. Ms. Turpin began with an intimate depiction of

day-to-day life with Martha Stewart, expanding her experience into a macro-sociological view of penology. Martha Stewart is Queen of the corporate business world; Ms. Turpin is a non-profit Director and Community Activist. Coming from two different echelons of life, yet uniting in thought, the two women came together for the same cause, creating the pilot program, Women Empowering Women, taking internal activism to a new level.

Planet of the Hairless Beach Apes Jim Toomey, 2006-08 In an imaginary lagoon near the island of Kapupu in the South Pacific lives a group of nutty but sophisticated underwater creatures—complete with neuroses that rival those of humans (also known as hairless beach apes). Somehow their wet world is oddly yet hilariously similar to our own. Sherman, a great white shark, is a typical guy (well, except for that pesky dorsal fin), and Megan is his ruthless but nurturing wife. Rounding out the aquatic crew are Fillmore the turtle, geeky fish Ernest, and macho hermit crab Hawthorne. Salty old Captain Quigley, who lost his leg to Sherman years ago, is determined to exact his revenge. Sherman and friends effectively reflect human behavior and occasionally must confront humans' encroachment on their unspoiled habitat. Environmental groups have applauded this comic strip with a social conscience for promoting marine conservation. Sherman's Lagoon has been syndicated since 1991, currently by King Features, and has a circulation of more than 200 daily newspapers on five continents.

Consumption and the Literary Cookbook Roxanne Harde, Janet Wesselius, 2020-11-18 Consumption and the Literary Cookbook offers readers the first book-length study of literary cookbooks. Imagining the genre more broadly to include narratives laden with recipes, cookbooks based on cultural productions including films, plays, and television series, and cookbooks that reflected and/or shaped cultural and historical narratives, the contributors draw on the tools of literary and cultural studies to closely read a diverse corpus of cookbooks. By focusing on themes of consumption—gastronomical and rhetorical—the sixteen chapters utilize the recipes and the narratives surrounding them as lenses to study identity, society, history, and culture. The chapters in this book reflect the current popularity of foodie culture as they offer entertaining analyses of cookbooks, the stories they tell, and the stories told about them.

Food and Drink in American History Andrew F. Smith, 2013-10-28 This three-volume encyclopedia on the history of American food and beverages serves as an ideal companion resource for social studies and American history courses, covering topics ranging from early American Indian foods to mandatory nutrition information at fast food restaurants. The expression you are what you eat certainly applies to Americans, not just in terms of our physical health, but also in the myriad ways that our taste preferences, eating habits, and food culture are intrinsically tied to our society and history. This standout reference work comprises two volumes containing more than 600 alphabetically arranged historical entries on American foods and beverages, as well as dozens of historical recipes for traditional American foods; and a third volume of more than 120 primary source documents. Never before has there been a reference work that coalesces this diverse range of information into a single set. The entries in this set provide information that will transform any American history research project into an engaging learning experience. Examples include explanations of how tuna fish became a staple food product for Americans, how the canning industry emerged from the Civil War, the difference between Americans and people of other countries in terms of what percentage of their income is spent on food and beverages, and how taxation on beverages like tea, rum, and whisky set off important political rebellions in U.S. history.
