Raptors in Captivity Lori R. Arent,2007 A first-of-its-kind resource, Raptors in Captivity is designed as a reader-friendly reference tool covering a wide range of topics from choosing a suitable species, to housing and transportation, diet, medical care, equipment, training. Raptors in Captivity is the recommended US Fish & Wildlife Service 'bible' for the care and keeping of raptors in captivity -- an incredible endorsement! If you're a zoo, rehab center or a falconer, here are the guidelines for safely caring for raptors -- and complying with permits. Covers a range of topics from making the decision to keep raptors and choosing suitable species, to housing and transportation, diet, medical care, equipment, training, and recovering a lost bird.

Birds of Prey John E. Cooper,2008-04-15 Raptor biology has evolved enormously since the publication of the original edition of this book under the title Veterinary Aspects of Captive Birds of Prey. With the help of leading international experts, John E. Cooper has updated and expanded this classic reference to include all the latest data on the health and diseases of raptors. While still serving the needs of veterinary surgeons who treat birds of prey, Birds of Prey: Health & Disease also appeals to a wide readership of falconers, avian researchers, breeders, rehabilitators and zoo staff. Important changes to this new edition are the inclusion of data on free-living birds, additional material on fractures, pathology, legislation and poisons, and new sections on neonatology, health monitoring, captive-breeding and host-parasite relations. This book reviews all aspects of birds of prey, giving invaluable up-to-date information on diseases and pathology, but also looking at the history of the subject, the origins of terms, the evolution of current thinking and ending with a reliable list of primary references for further reading.

Raptor Research and Management Techniques Keith L. Bildstein,David Michael Bird,2007 « Think about how we know about past events in human history (e.g., the expansion of the Roman Empire, or the American Revolution). What types of

records document those events? Now think about Earth's history, specifically the past environmental or climatic conditions at times before recorded human history. What records might there be of such conditions? Make a list of your ideas. n
assemblage of five major types of natural archives of Earth's environmental and climatic history. What common feature(s) do each of these paleoclimate archives share? an assemblage of 5 major types of natural records, or archives, of Earth's environmental and climatic history. Just like a diary or other historical document, the layers in these natural archives contain indirect evidence (i.e., proxies) about past conditions and events, recorded in a sequential order. The evidence is specific to a certain time period and may be general or very detailed, depending on the rate that information was recorded. The faster the rate at which the recorder grew (trees and corals), accumulated (snow and ice), or was deposited (sedimentary sequences), the more detailed the record is, and the higher its resolution. For example, a record in which an annual signal can observed has a very high resolution. In contrast, if the finest observable details are on the order of a million years, then that record would have a low resolution. »--
