This powerful book by bestselling author Colin Seale shows how you can overcome barriers and create sustainable pathways to realizing equity for your students. Part I of the book explains why all education stakeholders should not just prioritize equity, but go beyond the buzzwords. Part II looks at why good intentions aren't enough, and provides six ways you can leverage your power to really start doing something about equity. Part III discusses the five classroom-level philosophical shifts needed to make real change, including how to think differently about gifted education and achievement gaps. Finally, Part IV offers a variety of practical strategies for making equity real in your classrooms, no matter what grade level or subject area you teach. Throughout each chapter, you'll find stories, examples, and research to bring the ideas to life. Biting the Hands that Feed Us Baylen Linnekin, 2016-09-15 Today in the United States, laws exist at all levels of government that exacerbate problems such as food waste, hunger, inhumane livestock conditions, and disappearing fish stocks. Baylen Linnekin argues that government rules often handcuff America's most sustainable farmers, producers, sellers,

and consumers, while rewarding those whose practices are anything but sustainable. *Biting the Hands that Feed Us* introduces readers to the perverse consequences of many food rules, from crippling organic farms to subsidizing monocrops. Linnekin also explores what makes for a good law--often, he explains, these emphasize good outcomes over rigid processes. But he urges readers to reconsider efforts to regulate our way to a greener food system, calling instead for empowerment of those working to feed us--and themselves--sustainably.

The U.S. Produce Industry and Labor Linda Calvin, 2010 Fruit and vegetable production is a labor-intensive process, and over half of the hired workers employed by growers are believed to be unauthorized immigrants. Reforms to immigration laws, if they reduce the labor supply, may increase the cost of farm labor. The authors of this report assess how particular fruit and vegetable commodities might adjust if labor rates increased. Analysis of case studies suggests a range of possible adjustment scenarios, including increased mechanization for some crops, reduced U.S. output for a few crops, and increased use of labor aids to improve labor productivity for others. Charts and tables. This is a print on demand edition of an important, hard-to-find report.

Performing Dream Homes Emily Klein, Jennifer-Scott Mobley, Jill Stevenson, 2019-01-22 This anthology explores how theatre and performance use home as the prism through which we reconcile shifts in national, cultural, and personal identity. Whether examining parlor dramas and kitchen sink realism, site-specific theatre, travelling tent shows, domestic labor, border performances, fences, or front yards, these essays demonstrate how dreams of home are enmeshed with notions of neighborhood, community, politics, and memory. Recognizing the family home as a symbolic space that extends far beyond its walls, the nine contributors to this collection study diverse English-language performances from the US, Ireland, and Canada. These scholars of theatre history, dramaturgy, performance, cultural studies, feminist and gender studies, and critical race studies also consider the value of home at a time increasingly defined by crises of homelessness — a moment when major cities face affordable housing shortages, when debates about homeland and citizenship have dominated internationalelections, and when conflicts and natural disasters have displaced millions. Global struggles over immigration, sanctuary, refugee status and migrant labor make the stakes of home and homelessness ever more urgent and visible, as this timely collection reveals.

A Raisin in the Sun Lorraine Hansberry, 2004-11-29 Never before, in the entire history of the American theater, has so much of the truth of Black people's lives been seen on the stage, observed James Baldwin shortly before *A Raisin in the Sun* opened on Broadway in 1959. This edition presents the fully restored, uncut version of Hansberry's landmark work with an introduction by Robert Nemiroff. Lorraine Hansberry's award-winning drama about the hopes and aspirations of a struggling, working-class family living on the South Side of Chicago connected profoundly with the psyche of Black America—and changed American theater forever. The play's title comes from a line in Langston Hughes's poem *Harlem*, which warns that a

dream deferred might dry up/like a raisin in the sun. The events of every passing year add resonance to A Raisin in the Sun, said The New York Times. It is as if history is conspiring to make the play a classic.

The Encyclopedia of Herbs and Spices P N Ravindran,2017-12-28 The Encyclopedia of Herbs and Spices provides comprehensive coverage of the taxonomy, botany, chemistry, functional properties, medicinal uses, culinary uses and safety issues relating to over 250 species of herbs and spices. These herbs and spices constitute an important agricultural commodity; many are traded globally and are indispensable for pharmaceuticals, flavouring foods and beverages, and in the perfumery and cosmetic industries. More recently, they are increasingly being identified as having high nutraceutical potential and important value in human healthcare. This encyclopedia is an excellent resource for researchers, students, growers and manufacturers, in the fields of horticulture, agriculture, botany, crop sciences, food science and pharmacognosy.

The Everyday Writer with Exercises Andrea A. Lunsford,2012-11-19 Andrea Lunsford's research shows that students are writing more than ever — in classrooms, workplaces, and social spaces, in local communities and around the world. The Everyday Writer, Fifth Edition, is the first tabbed handbook to help the participants in this literacy revolution build on the smart decisions they make as social writers — and use their skills in their academic and professional work. With Andrea Lunsford's trademark attention to rhetorical choice and language, and with new chapters on public writing, critical reading, and understanding how and why to use documentation, The Everyday Writer gives today's students the information they need to be effective, ethical writers. New illustrations by graphic artist G.B. Tran make complicated concepts clear and inviting for students. And now LearningCurve, game-like adaptive quizzing, gives students a new way to see what they know.

Beyond Slavery Bernadette J. Brooten,Jacqueline L. Hazelton,2010-10-15 In a United States that continues to be driven by racial and cultural divisions, from the disproportionately high number of incarcerated African Americans to heartfelt disagreements over the true nature of marriage and the proper role of faith in public policy, the Feminist Sexual Ethics Project (from which this book originated) has identified a crucial nexus underlying these fiercest of arguments: The conjunction of religion, slavery, and sexuality.
