THE SECRETS OF HUMAN CONSCIOUSNESS Hemant Bhoir (Incorporeal Supreme Father ShivBaba's knowledge) Magic Diamond of Group (Founder ShivBaba), 2024-10-22 We are on the edge of an impending Spiritual - Scientific revolution. This is unlike any other revolution, scientific discovery or an invention in the past. Every revolution, discovery or invention has brought about a shift in the consciousness of humanity. Consciousness is the basis of existence and awareness of existence. This book is dedicated to unravelling the mysteries of Human Consciousness on Scientific, Psychological and Spiritual realms. Most of the work has come through insights from transcendental experiences that have been further corroborated by research and practice. This book is an attempt to recollect, reconnect and re-establish the scientific theories, philosophical postulations in all eras and the ancient wisdom of different scriptures spread across the world, and converge them to unravel the mysteries of consciousness. Much of the mystifying insights with divine wisdom have come from different etheric mediums and divine channels, which has been further substantiated with ancient esoteric knowledge from different origins. The present book is a concise effort to study and establish the knowledge of Consciousness, one of the most sought after mystery. The objective is to make this knowledge as a new gateway for Science to accept and discover hitherto undiscovered metaphysical realms - Spiritual awakening in a scientific way and find solutions to holistic well-being for people from all walks of life.

Pynchon's California Scott McClintock, John Miller, 2014-11-01 Pynchon's California is the first book to examine Thomas Pynchon's use of California as a setting in his novels. Throughout his 50-year career, Pynchon has regularly returned to the Golden State in his fiction. With the publication in 2009 of his third novel set there, the significance of California in Pynchon's evolving fictional project becomes increasingly worthy of study. Scott McClintock and John Miller have gathered essays from leading and up-and-coming Pynchon scholars who explore this topic from a variety of critical perspectives, reflecting the diversity and eclecticism of Pynchon's fiction and of the state that has served as his recurring muse from *The Crying of Lot 49* (1965) through *Inherent Vice* (2009). Contributors explore such topics as the relationship of the "California novels" to Pynchon's more historical and encyclopedic works; the significance of California's beaches, deserts, forests, freeways, and "hieroglyphic" suburban sprawl; the California-inspired noir tradition; and the surprising connections to be uncovered between drug use and realism, melodrama and real estate, private detection and the sacred. The authors bring

insights to bear from an array of critical, social, and historical discourses, offering new ways of looking not only at Pynchon's California novels, but at his entire oeuvre. They explore both how the history, geography, and culture of California have informed Pynchon's work and how Pynchon's ever-skeptical critical eye has been turned on the state that has been, in many ways, the flagship for postmodern American culture. Tenebrae: Elements Unknown (Book 1) R.J. Rogers, 2024-12-19 Love. So strange. I never thought I'd find love let alone fall in love. And then my sister disappears and an insanely hot guy by the name of Storm Caelus shows up on my front door and kidnaps me! And no! I'm not going to fall in love with him. I'm not! But then Lucas Nodin enters my life and I'm so confused... Maybe I have fallen in love with Storm or maybe its Lucas... Definitely not both of them! My feelings for the two of them though will have to be placed on the back burner as I'm brought to Tenebrosity, the world of the supernatural. So in between understanding what I am, learning how to harness the power I have within me and trying to stay away from two seemingly assholes, I learn that the Apocalypse is coming! Apparently, me and four other teens (two of which happen to be the two I need to stay far away from) are the ones who can stop it. Thing is, when we come to understand what's happening, we may not want to stop it!

The Metaphysics of Light in Hexaemeral Literature Isidoros C. Katsos, 2023 This volume critically re-evaluates the received interpretation of the nature of light in the ancient sources. The view that vision had priority over light is rejected in favour of a luminocentric reading of philosophical and theological cosmology in late antiquity.

The Language of Natural Description in Eighteenth-Century Poetry John Arthos,2020-01-08 Originally published in 1949, this title was written in order to help establish a better understanding of the 'stock diction' of eighteenth-century English poetry, and, in particular, of the diction commonly used in the description of nature. The language characteristic of so much of the poetry of this period had been severely criticized for a long time. But in the twenty or thirty years prior to publication some effort had been made to review the subject and the problem. However, several questions still remained unanswered, and more exhaustive analysis needed to be undertaken. This volume was an effort to provide answers for some of these questions and to begin the analysis that was required.
