Patterns of Secularization Daphne Halikiopoulou, 2017-05-15 The politicization of religion is a central feature of the modern world, pointing to the continued relevance of the secularization debate: does modernization result in the decline of the social and political significance of religion or rather in a reaffirmation of religious values? This book examines the emergence of different patterns of secularization. It identifies the circumstances under which religion may remain or cease to be politically active and legitimate in societies where secularization has been initially inhibited given a strong identification with the nation. Arguing that in such societies the Church draws its power not only from its relationship with the state but also its relationship with the nation, this book identifies two patterns of secularization: (a) co-optation, and (b) confrontation. The redefinition of the Church, state and nation nexus is likely to result in secularization if (a) the church obstructs the modernisation process (church and state), and (b) if external threat perceptions decline (church and nation). The simultaneous presence of these constraints serves to redefine the role of religion in the formation of national identity. Comparing Greece and the Republic of Ireland as two cultural defence cases with a strong variation in the political and social salience of religion, this book explains Ireland's current secularization drive in terms of the fluidity of Irish national identity and the rigidity of the Irish Catholic Church (confrontation). It contrasts this with the Greek case where the Church's resilience is linked to institutional flexibility on the one hand and a reliance on an ethnic/religious national identity on the other (co-optation). In conceptualizing the contemporary role of religion in the Republic of Ireland and Greece, this book draws a number of generalizable conclusions about the political role of religion in cultural defence cases.

The Rule of Law's Anatomy in the EU Allan Rosas, Juha Raitio, Pekka Pohjankoski, 2023-06-15 This study, with its approach rooted in EU law and its clear focus on conceptual underpinnings, grapples with one of the most challenging questions facing constitutional lawyers today; namely the rule of law. Drawing on the expertise of leading scholars and judges at the forefront of the question, it takes a dual approach. It opens by setting out the foundations of the rule of law, including legal certainty, democratic principles and judicial independence. It goes on to explore the protections that can be relied upon, from policy developments, to human rights sanctions, and infringement actions. This is a rapidly developing question in EU constitutional law, so this masterful collection will be welcomed by both scholars and policy-makers in the

field.

The European Union as Protector and Promoter of Equality Thomas Giegerich, 2020-07-06 This book considers the European Union as a project with a major antidiscrimination goal, which is important to remember at a time of increasing resentment against particularly exposed groups, especially migrants, refugees, members of ethnic or religious minorities and LGBTI persons. While equality and non-discrimination have long been core principles of the international community as a whole, as is made obvious by the UN Charter and the Universal Declaration of Human Rights, they have shaped European integration in a particular way. The concepts of diversity, pluralism and equality have always been inherent in that process, the EU being virtually founded on the values of equality and non-discrimination. The Charter of Fundamental Rights of the EU contains the most modern and extensive catalogue of prohibited grounds of discrimination, supplementing the catalogue enshrined in the European Convention on Human Rights. EU law has given new impulses to antidiscrimination law both within Europe and beyond. The contributions to this book focus on how effective and credible the EU has been in combatting discrimination inside and outside Europe. The authors present different (mostly legal) aspects of that topic and examine them from various intra- and extra-European angles.

The Legacies of Caribbean Radical Politics Shalini Puri, 2013-09-13 The year 2009 marked the 50th anniversary of the Cuban Revolution and the thirtieth anniversary of the Grenadian and Nicaraguan Revolutions, and as such offered an occasion to assess the complex legacies of revolutionary politics in the Caribbean. This volume considers what we might learn from such revolutionary projects and their afterlives, from their successes and their errors. It explores what struggles, currently underway in the Caribbean, share with these earlier and longer revolutionary traditions, and how they depart from them. It analyzes radical movements in Jamaica, Grenada, Cuba, Venezuela, Guadeloupe, Suriname, and Guyana, not only in their national dimensions, but in terms of their regional linkages and mutual influences. The chapters are drawn from various disciplines and a range of democratic leftist projects. They consider not only state and party politics, but also civil society, cultural politics and artistic production, strikes, and grassroots activism. This book was published as a special issue of *Interventions: International Journal of Postcolonial Studies*.

CARICOM Kenneth O. Hall,Myrtle Chuck-A-Sang,2010 In CARICOM: Policy Options for International Engagement, the contributors bring a wealth of experience and knowledge in putting forward the critical questions policymakers must consider and answer, in charting the course and laying the framework for this coordinated structure and foreign policy plan. Divided into four sections, the volume firstly presents the perspectives that corroborate the need for collective action. The second section focuses on the emerging powers and the need for South to South Cooperation while the third section discusses the external trade negotiations and the impact of the loss of EU preferences and subsidies; the EPA and trade negotiations in the WTO; and the new CARICOM-US trade relations. In the fourth and final section, the volume is rounded out by an examination of the kind of cooperation that is needed first at the regional level to sustain economic development.

The need for harmonisation of fisheries policies and the prevention of maritime degradation; the preservation of the environment and the need to reverse the effects of climate change; the need for a cohesive regional security policy and a viable air transportation industry as well as the legal framework to implement multilateral treaties are all examined as imperative to CARICOM's development of a coordinated regional foreign policy plan.
