How to Change Your Life Stuart Young, 2012-03-23 We all want to change our lives for the better in some way shape or form, me included. If however you're prone to saying things like: My life would be better if my boss this or that or My life would be better if my mother this or that or My life would be better if my friends this or that or My life would be better if the government this or that - then let me tell you something - nothing is going to change in your life for the better whilst you continue to blame others for your circumstances. I'm not saying that they didn't have a hand in your circumstances, I'm saying only YOU can decide to change your circumstances for the better. STOP complaining and start being different so you can do things differently.

Advanced Quantum Jumping Independently Published,2019-12 In a more straightforward sense think of Quantum Jumping as re-tuning the radio or the frequency to impact your reality. There are many channels broadcasted at various frequencies. At your current frequency you are emotionally or financially unstable, over-weight, and unhappy. Then all you have to do is tune into a new frequency where you are happy, emotionally and financially stable, and at a healthy state. You

must know that there are these alternate versions of you in the universe where these things are present. You are in perfect health and happy in another dimension, and by shifting your consciousness using water (the secret of life on earth), you can achieve that. That is what Quantum Jumping is. In Quantum Jumping, Dr. Quantum draws on years of advanced research into manifesting through the Quantum world of healing to offer a novel new approach to the law of vibration where there are external sources that can team up to help you achieve the unthinkable. Over time you will see your health getting better; losing weight, emotionally stable, money is directed towards you in mysterious ways, that is when you would have completely transitioned into this new dimension. People around you won't understand what do you do differently from them. Quantum jumping is a scientific technique yet it would take years to be proved scientifically. It is an experience and not a concept. Science today has not yet scratched the surface of the quantum world, although there are others who have understood it. Quantum world is best understood and experienced rather than being proved. At the last chapter, the author demonstrates how to perform the secret two-cup method for a true Quantum jumping. And advised to use it wisely. In this advanced manifestation guide, you will learn: How to perform the two-cup method to shift your reality Water and its importance in changing your reality What exactly happened in Masaru Emoto's water experiment Drinking water with an intention How to manifest health, love, happiness through the Quantum world using water Page Up and Order Now. Chapter-1 Masaru Emoto's water experiment What exactly happened in this experiment? Emoto's work on the miraculous Zam Zam water What is Zam Zam water?
