Positive Education and Work Sanna Hyvärinen, Tanja Äärelä, Satu Uusiautti, 2021-11-01 What is the meaning of positive education and work? What are the pedagogical premises of well-being? What about the foundations of flourishing at work? Is this knowledge enough for a holistic picture, or is there still a need for some special perspectives of well-being? This volume is based on the positive psychological research approaches implemented in various research settings that cover the whole lifespan. It critically discusses the idea of positive education and work and their connection to life-long positive development and flourishing from multiple perspectives. Transforming Teacher Preparation Through Identity, Development, and Effective Technologies Sargent, Denise LaVoie, Murphy, Kristin M., 2024-08-09 In the landscape of global education, there is a dire shortage of teachers, exacerbated by declining enrollment rates and a mass exodus of educators, particularly in urban settings. UNESCO's revelation that millions of teachers are needed by 2030 underscores the critical gaps in our ability to provide quality education. As the education sector grapples with these challenges, Transforming Teacher Preparation Through Identity, Development, and Effective Technologies, offers valuable solutions. This compilation responds to the pressing need for a paradigm shift in teacher preparation, offering insights, recommendations, and diverse perspectives from experts worldwide to address the current crisis and shape the future of education. Teacher shortages and diminishing enrollment rates, coupled with the departure of educators, pose a significant threat to the quality of education globally. Urban areas, in particular, witness a disproportionate exodus of educators, creating disparities that impact the most vulnerable students. The COVID-19 pandemic has further emphasized the need for innovative, technology-driven solutions in teacher preparation. As schools deal with these issues, the imperative is to not only reflect on the current state of teacher preparation but also to set forth recommendations that will transform the field, ensuring a robust and resilient education system for the years to come.
