Foundations of Blank Chart Saket Shah, 2025-09-11 When I began writing on blank chart astrology, I realized something profound: the horoscope without planets is not empty—it is alive with silent instruction. The blank chart became for me what an architect's sketch is to a building: understated, but containing the essence of everything to come. The Twelve Ascendant Blueprints, I turn to the most personal and powerful part of astrology—the ascendant. Each rising sign is a blueprint, a karmic signature that shapes the way life unfolds. It is the doorway through which the soul enters the world, carrying the residues of past lives and the hopes of this one. These pages are not just technical analysis. They are meditations on destiny. Every ascendant tells a story—of courage, of balance, of discipline, of faith. To study them is to study the twelve archetypal paths of human experience. Some are filled with ease, some with struggle, but each carries its own unique beauty and purpose. My intention is simple: that you, the reader, see yourself more clearly through your ascendant blueprint. That you realize your life is not random, but etched with meaning even before planets take their places. And that you carry this understanding as both knowledge and comfort—the awareness that your path is divinely woven. This book is written not only for students of astrology but for seekers of truth. If the first book was about seeing the canvas, this book is about seeing the design sketched upon it. May these twelve blueprints guide you to recognize your own story within the greater cosmic plan.
