B Lingard

Ghost Towns of Texas T. Lindsay Baker, 1991-02-01 The indefatigable T. Lindsay Baker has now turned his enormous mental and physical energies to the subject and has brought to view - if not to life - eighty-six Texas ghost towns for the reader's pleasure. Baker lists three criteria for inclusion: tangible remains, public access, and statewide coverage. In each case Baker comments about the town's founding, its former significance, and the reasons for its decline. There are maps and instructions for reaching each site and numerous photographs showing the past and present status of each. The contemporary photos were taken, in most instances, by Baker himself, who proves as adept a photographer as he is researcher and writer....Baker has done his work thoroughly and well, within limits imposed by necessity. He obviously had fun in the process and it shows in his prose.---New Mexico Historical Review

Black Diamonds! Black Gold! Don Woodard,1998 The portrayal of the events, people, and company that created a boomtown and a rare glimpse into the wheelings and dealings of cattle barons, oil tycoons, and politicians on a truly Texas scale.

New Mexico Magazine ,2006-07

Black and White Music Casian Anton,2021-08-21 In Black & White Music report I investigated a very small part of the music industry from the USA (0.09% musicians); more precisely, I investigated the contribution and the artistic merit (greater or lesser) of black artists (0.03%) and white artists (0.05%) in the production and writing of their albums. The artists investigated in this report are Taylor Swift, Kanye West, Beyoncé, Kendrick Lamar, Macklemore & Ryan, Adele and Beck. I selected these artists because the music produced and released by them was used by various artists and journalists as examples of allegations of discrimination and racism which takes place in the music industry in the USA. The aim of the research is split into 2 levels: in the first level: I explored, analysed and created a comparative study about the contribution and the artistic merit of black and white artists in the production and writing of their albums; to achieve this aim, I added contribution and artistic merit into one bubble of research and treated the two concepts with the same meaning, then I divided the bubble into 8 points of research. the second level: is about using the findings from the eight points of research to offer a response to three conventional wisdom advanced by black artists and their supporters against the rules and awards offered by The Recording Academy. Black & White Music report it is unique and original which investigates the artistic merit of six of the best artists in the music industry of the USA; in these pages, there is an advanced comparative analysis of the music released by famous artists that was never done before. Black & White Music report was born out of the urgent need to confront and challenge the three conventional wisdom advanced by black artists and their supporters who feel and promote the idea of injustice regarding the music released. Black & White Music report can be used to calm the realities of discrimination and racism and provides a point of reference of the quality, originality and novelty of the music investigated in these pages; also, it is for future artists waiting to be discovered, and what they need to expect once they are part of the music industry.
