Manufacturing Consent Edward S. Herman, Noam Chomsky, 2002-01-15 A compelling indictment of the news media's role in covering up errors and deceptions (The New York Times Book Review) due to the underlying economics of publishing—from famed scholars Edward S. Herman and Noam Chomsky. With a new introduction. In this pathbreaking work, Edward S. Herman and Noam Chomsky show that, contrary to the usual image of the news media as cantankerous, obstinate, and ubiquitous in their search for truth and defense of justice, in their actual practice they defend the economic, social, and political agendas of the privileged groups that dominate domestic society, the state, and the global order. Based on a series of case studies—including the media's dichotomous treatment of "worthy" versus "unworthy" victims, "legitimizing" and "meaningless" Third World elections, and devastating critiques of media coverage of the U.S. wars against Indochina—Herman and Chomsky draw on decades of criticism and research to propose a Propaganda Model to explain the media's behavior and performance. Their new introduction updates the Propaganda Model and the earlier case studies, and it discusses several other applications. These include the manner in which the media covered the passage of the North American Free Trade Agreement and subsequent Mexican financial meltdown of 1994-1995, the media's handling of the protests against the World Trade Organization, World Bank, and International Monetary Fund in 1999 and 2000, and the media's treatment of the chemical industry and its regulation. What emerges from this work is a powerful assessment of how propagandistic the U.S. mass media are, how they systematically fail to live up to their self-image as providers of the kind of information that people need to make sense of the world, and how we can understand their function in a radically new way.

[A History of Italian Fascist Culture, 1922-1943](#) Alessandra Tarquini, 2022-04-12 Alessandra Tarquini's *A History of Italian Fascist Culture, 1922-1943* is widely recognized as an authoritative synthesis of the field. The book was published to much critical acclaim in 2011 and revised and expanded five years later. This long-awaited translation presents Tarquini's compact, clear prose to readers previously unable to read it in the original Italian. Tarquini sketches the universe of Italian fascism in three broad directions: the regime's cultural policies, the condition of various art forms and scholarly disciplines, and the ideology underpinning the totalitarian state. She details the choices the ruling class made between 1922 and 1943, revealing how cultural policies shaped the country and how intellectuals and artists contributed to those decisions. The result is a view of fascist ideology as a system of visions, ideals, and, above all, myths capable of orienting political action and promoting a

precise worldview. Building on George L. Mosse's foundational research, Tarquini provides the best single-volume work available to fully understand a complex and challenging subject. It reveals how the fascists used culture—art, cinema, music, theater, and literature—to build a conservative revolution that purported to protect the traditional social fabric while presenting itself as maximally oriented toward the future.

Censorship in Fascist Italy, 1922-43 G. Talbot, 2007-06-28 This is the first comprehensive account of the diversity and complexity of censorship practices in Italy under the Fascist dictatorship. Through archival material it shows how practices of censorship were used to effect regime change, to measure and to shape public opinion, behaviour and attitudes in the twenty years of Mussolini's dictatorship.

London calling Italy Ester Lo Biundo, 2022-08-02 'London Calling Italy offers an expertly researched, thought-provoking analysis of BBC propaganda for Italy during the Second World War, exploring how programmes were put together and what listeners made of them. It will surely become the key work on this topic.' Simon Potter, Professor of Modern History at the University of Bristol London calling Italy is a book about Radio Londra, as the BBC Italian Service was known in Italy, and the company's development as a global leader in the broadcasting industry, starting from the Second World War. Drawing on unexplored archive material collected in Italy and the United Kingdom, it aims to understand how the BBC programmes engaged with ordinary Italians, while concurrently conducting political warfare against fascist Italy. The book also focuses on the relationship between the BBC Italian anti-fascist broadcasters, the British Foreign Office, and Labour Party. Key sources analysed in the book are, among others, the Foreign Office's records, the programmes broadcast by the BBC Italian Service during the Allied campaign, the memoirs of Italian anti-fascist broadcasters, the BBC surveys on the audience and the letters sent by listeners of the Italian Service.

Filippo Tommaso Marinetti Ernest Ialongo, 2015-03-06 Filippo Tommaso Marinetti: The Artist and His Politics explores the politics of the leader of the Futurist art movement. Emerging in Italy in 1909, Futurism sought to propel Italy into the modern world, and is famously known for outlandish claims to want to destroy museums and libraries in order to speed this transition. Futurism, however, also had a much darker political side. It glorified war as the solution to many of Italy's ills, and was closely tied to the Fascist Regime. In this book, Ialongo focuses on Marinetti as the chief determinant of Futurist politics and explores how a seemingly revolutionary art movement, at one point having some support among revolutionary left-wing movements in Italy, could eventually become so intimately tied to the repressive Fascist regime. Ialongo traces Marinetti's politics from before the foundation of Futurism, through the Great War, and then throughout the twenty-year Fascist dictatorship, using a wide range of published and unpublished sources. Futurist politics are presented within the wider context of developments in Italy and Europe, and Ialongo further highlights how Marinetti's political choices influenced the art of his movement.

Studies in Italian American Folklore Luisa Del Giudice, 1993 The interplay of these variables, in tension with American and Canadian society, contextualizes New World traditions - from the archvillas of Toronto, Canada, to the festival foods of Italians in Indiana, the sung villanella of Calabrians in New York, cultural stereotypes of Italians in Northern California, the invention of Italy by 1920s Philadelphians, and the multiple meanings of a grotto shrine on Staten Island. These essays will set a new standard for Italian American folklore scholarship.

Translation and Censorship Eiléan Ní Chuilleanáin, 2009 Who are the censors of foreign literature? What motives influence them as they patrol the boundaries between cultures? Can cuts and changes sometimes save a book? What difference does it make when the text is for children, or designed for schools? These and other questions are explored in this wide-ranging international collection, with copious examples: from Catullus to Quixote, Petrarch to Shakespeare,

Wollstonecraft to Waugh, Apuleius to Mansfield, how have migrating writers fared? We see many genres, from Celtic hero-tales to histories, autobiographies, polemics and even popular songs, transformed on their travels by the censor's hand.--
