The Rhetorical Functions of Scriptural Quotations in Romans Katja Kujanpää, 2018-10-02 Quotations from Jewish scriptures play a crucial role in the Letter to the Romans. The Rhetorical Functions of Scriptural Quotations in Romans explores their rhetorical functions in Paul's argumentation. It offers a careful text-critical analysis of the 51 quotations in Romans, and asks questions such as: does Paul quote accurately according to a wording known to him or does he adapt it himself? Moreover, to what extent does Paul strive to preserve the sense that the quoted words have in their original context? Katja Kujanpää's approach of combining rhetorical matters with close textual study results in a more comprehensive picture of quotations in Romans than has been previously seen. Thus, the book opens new perspectives on Paul's argumentation, rhetoric and theological agenda.

Key Quotations in Sociology Kenneth Thompson, Ken Thompson, 2002-09-11 Jean Baudrillard on consumption: 'It is not defined by the food we eat, the clothes we wear, the car we drive ... but in the organization of all this as signifying substance ... Consumption, in so far as it is meaningful, is a systematic act of the manipulation of signs.' Auguste Comte on science and sociology: 'From science comes prevision; from prevision comes action (Savoir pour prévoir et prévoir pour pouvoir).' Emile Durkheim on suicide: 'If religion protects a man from the desire to kill himself, it is not because it preaches respect for his person based on arguments sui generis, but because it is a society ...' Do you have any difficulty in finding a relevant quotation for an essay or exam paper in sociology? If so this useful little book, which contains a core of essential quotations for anyone interested in sociology, will provide you with all you need. Quotations are taken from the classic texts of the so-called Founding Fathers, the writings of more recent influential figures, and the most authoritative experts in special fields. The book is divided into two fully cross-referenced parts: Key Concepts and Topics and Key Sociologists.

The Heart of the Wild Joel Berger, Susan Clayton, 2024-08-13 How do we keep a love of nature and the wild alive in our increasingly human-dominated world? According to the scientists and writers in this book, doing so is of paramount significance; however, the answer is not necessarily blanket preservation of wild places, which is increasingly unrealistic. Rather, the answer to how to care for nature is more nuanced and often entails acceptance of a broader definition of wild as

well and what it means to experience nature. This book will be divided into two parts. In the first part, authors will explore and complicate what wildness means. For example, science writer Emma Marris argues that spontaneous vegetation and free-roaming animals in cities actually possess more autonomy than the wolves or pines of Yellowstone; biologist Jonathan Losos asks whether invasive species are necessarily detrimental and may even play a role in restoring ecosystems; and psychologist Susan Clayton discusses new ways of experiencing nature, particularly via technology, and what the benefits and limitations may be. In the second half of the book, essays will reflect on the roles of naturalism, natural history, and nature education & communication in helping us connect with wild species and landscapes at a time when many of those connections have frayed or even lost altogether-- Provided by publisher.
