Re-Reading Economics in Literature Matt Spivey,2020-09-30 In Austrian economic thought, “human action” guides all social and cultural experience. For both the real world and for fictional texts, this starting point can illuminate literature in new ways and offer valuable insight for literary critics who have previously been beholden to Marxism and other anti-capitalist perspectives. In *Re-Reading Economics in Literature: A Capitalist Critical Perspective*, Matt Spivey posits that in its relationship to literature, Austrian economic criticism entails a methodology that embraces the following: 1) an analytical reading that promotes both the individual artist as the creator of literature and the individual reader as the consumer of literature; 2) an understanding of the entrepreneurial quality of literature, that capitalism is a system that embraces creativity and evolution in the marketplace; and 3) a recognition of subjective value as fundamental to human choice and action, both in art and in the real world. In addition to the study of the individual, Spivey also incorporates the concepts of business cycles, government intervention, social dynamics, and technological evolution in his analysis. Scholars of literary studies and economics will find this book particularly useful.

Crowd Violence in American Modernist Fiction Benjamin S. West,2013-03-21 This study explores numerous depictions of crowd violence, literal and figurative, found in American Modernist fiction, and shows the ways crowd violence is used as a literary trope to examine issues of racial, gender, national, and class identity during this period. Modernist writers consistently employ scenes and images of crowd violence to show the ways such violence is used to define and enforce individual identity in American culture. James Weldon Johnson, William Faulkner, Richard Wright, Ernest Hemingway, F. Scott Fitzgerald, and John Steinbeck, for example, depict numerous individuals as victims of crowd violence and other crowd pressures, typically because they have transgressed against normative social standards. Especially important is the way that racially motivated lynching, and the representation of such lynchings in African American literature and culture, becomes a noteworthy focus of canonical Modernist fiction composed by white authors.

American Writers Leonard Unger,A. Walton Litz,Molly Weigel,Lea Bechler,Jay Parini,1998 The four volume set consists of ninety-seven of the pamphlets originally published as the University of Minnesota pamphlets on American writers. Some have been revised and updated.

Approaches to Teaching Fitzgerald's The Great Gatsby Jackson R. Bryer, Nancy P. Vanarsdale, 2009 Who is this Gatsby anyhow? Answering that question, voiced by one of the book's characters, is fundamental to teaching F. Scott Fitzgerald's The Great Gatsby. Although there is no simple answer, classroom analysis of this classic American novel can lead to a rich exploration of the colorful yet contradictory period Fitzgerald dubbed the Jazz Age. The novel also prompts considerations of novelistic technique, specifically point of view, characterization, and narrative structure. This volume aims to give instructors of The Great Gatsby multiple tools and strategies for teaching the novel and for introducing students to the culture of the 1920s. Part 1, Materials, reviews the novel's composition history and the scholarly resources related to the novel. In part 2, Approaches, contributors demonstrate a range of frameworks that usefully inform teaching, from the new historicism to feminist and gender studies to narrative theory. They also examine the novel's complex artistry, variety of motifs and symbol patterns, and cultural and social influences, such as the era's changing racial attitudes, the rise of a new suburban culture, and the dichotomy of East versus West in America.
