(Re)Visualizing National History Robin Ostow, 2008-03-29 Ideas regarding the role of the museum have become increasingly contentious. In the last fifteen years, scholars have pointed to ways in which states (especially imperialist states) use museums to showcase looted artefacts, to document their geographic expansion, to present themselves as the guardians of national treasure, and to educate citizens and subjects. At the same time, a great deal of attention has been paid to reshaping national histories and values in the wake of the collapse of the Communist bloc and the emergence of the European Union. (Re)Visualizing National History considers the wave of monument and museum building in Europe as part of an attempt to forge consensus in politically unified but deeply divided nations. This collection explores ways in which museums exhibit emerging national values and how the establishment of these new museums (and new exhibits in older museums) reflects the search for a consensus among different generational groups in Europe and North America. The contributors come from a variety of countries and academic backgrounds, and speak from such varied perspectives as cultural studies, history, anthropology, sociology, and museum studies. (Re)Visualizing National History is a unique and interdisciplinary volume that offers insights on the dilemmas of present-day European culture, manifestations of nationalism in Europe, and the debates surrounding museums as sites for the representation of politics and history.

Photography Performing Humor Liesbeth Decan, Mieke Bleyen, 2019-03-11 New perspectives on humor within photography Despite the ubiquitous presence of photographic humor in art and popular media, the phenomenon has as yet received very little scholarly attention. Focusing on staged humor rather than on comic effects of snapshot photography, this volume brings together leading scholars in the field addressing humor performed in front of the camera, often specifically created for the camera, and the performative joke-work done by the medium itself. A first section explores how photography, due to its “shattering” qualities, turns into a privileged medium for eliciting humorous effects and how humor can be discerned within the photographic event. A second section discusses the toolbox of photographic trickery (photomontage, double exposure and cinematic movement) that allows photography to mock itself. The book closes with a section on photographic wit in conceptual art, both in canonized and more locally distinct practices. With artists’ pages from Paulien Oltheten, Lieven Segers and David Helbich

Conflicting Images Stuart Allan, Tom Allbeson, 2024-05-31 In contrast with historical examinations centring the evolving

role of the war correspondent, *Conflicting Images* focuses on the contribution of photographers and photojournalists, providing an evaluative appraisal of war photography in the news and its development from the nineteenth century to the twenty-first century. Stuart Allan and Tom Allbeson critically explore diverse genres of war photography across a broad historical sweep, encompassing events from the Crimean War (1853–56) and the Civil War in the United States (1861–65) up to and including conflicts unfolding in Syria and Ukraine. This book reflects on the relevance of different types of warfare to visual reporting, from colonial conquest via trench warfare and aerial bombardment, to the ideological dimensions of the Cold War, and ‘embedding’ and ‘winning hearts and minds’ during the ‘War on Terror’ and its aftermath. In pinpointing illustrative examples, the authors examine changing dynamics of production, dissemination, and public engagement. Readers will come to understand how current efforts to rethink the future of war photography in a digital age can benefit from a close and careful consideration of war photography’s origins, early development, and gradual, uneven transformation over the years. *Conflicting Images* aims to invigorate ongoing enquires and inspire new, alternative trajectories for future research and practice. This book is recommended reading for researchers and advanced students of visual journalism and conflict reporting.

Robert Capa Richard Whelan, 1994-01-01 The legendary war photographer Robert Capa carried into his personal life the same remarkable vitality that characterizes his pictures. Driven from his native Hungary by political oppression, he was first recognized for photographing the Spanish Civil War. In 1938 he was in China recording the Japanese invasion. During World War II he was in London, North Africa, and Italy, and then in France covering D-Day on Omaha Beach, the liberation of Paris, and the Battle of the Bulge. When the new nation of Israel was founded in 1948 he was there. In 1954 he was in Vietnam, taking photographs until the moment he was killed. Away from battle, Capa gathered about him such famous people as Ernest Hemingway and his wife (the war correspondent Martha Gellhorn), Gary Cooper, Irwin Shaw, and Gene Kelly. Whelan shows Capa photographing the street life of Paris, crisscrossing America on assignment from *Life*, in Russia with John Steinbeck, in Italy with John Huston, on the Riviera with Picasso, and with Ingrid Bergman.

Last Second in Dallas Josiah Thompson, 2021-02-15 In this long-awaited follow-up to his critically acclaimed 1967 classic, *Six Seconds in Dallas*, Josiah Thompson reveals major new forensic discoveries since the year 2000 that overturn previously accepted “facts” about the Kennedy assassination. Together they provide what no previous book on the assassination has done—incontrovertible proof that JFK was killed in a crossfire. *Last Second in Dallas* is not a conspiracy book. No theory of who did it is offered or discussed. Among the discoveries: The test showing that all recovered bullet fragments came from Oswald’s rifle was mistaken. Several fragments could have come from bullets of any manufacturer and any caliber. The sudden two-inch forward movement of the president’s head in the Zapruder film just before his head explodes is revealed to be an optical illusion caused by the movement of Zapruder’s camera. This leaves without further challenge clear evidence

that this shot came from a specific location to the right front of the limousine. Detailed analysis of film frames matched by the newly validated acoustic evidence show a second shot struck the president's head from behind less than a second later. Result: two killing shots to the head from opposite directions in the final second of the shooting—hence the book's title. At once a historical detective story and a deeply personal narrative by a major figure in the field, *Last Second in Dallas* captures the drama and sweep of events, detailing government missteps and political bias as well as the junk science, hubris, and controversy that have dogged the investigation from the beginning. Into this account Thompson weaves his own eventful journey, that of a Yale-educated scholar who in 1976 resigned his tenured professorship in philosophy to become a private investigator in San Francisco, developing a national reputation. Profusely illustrated, *Last Second in Dallas* features dozens of archive photographs, including Zapruder film frames reproduced at the highest clarity ever published.

Back into Focus Charles R. Herrick, 2024-12-05 This new account carefully details the events surrounding Robert Capa's D-Day adventures, using official SHAEF files and a variety of accounts of witnesses. Although Capa's Falling Soldier image from the Spanish Civil War has been definitively proven to be a staged propaganda fake, no one has applied a similarly critical eye to his later work. This book is the first effort to establish the facts behind the fables surrounding his D-Day adventures and the images he produced during that period. This book examines the fictionalized account Robert Capa penned in his pseudo biography *Slightly Out of Focus*. Written in the hopes of it becoming a movie, Capa included many elements which were exaggerated or simply not true, while omitting many relevant events. As he himself said in the dust jacket for that book: "Writing the truth being obviously so difficult, I have in the interests of it allowed myself to go sometimes slightly beyond and slightly this side of it. All events and persons in the book are accidental and have something to do with the truth." This new account carefully details the actual events surrounding Capa's D-Day adventures, using official SHAEF files, still and motion picture images taken by other cameramen who were near or with Capa, and a variety of accounts of witnesses. It examines several aspects of Capa's narrative and reveals the truth behind the fiction: he claimed that he landed in the First Wave with Company E, in reality he landed almost two hours later in Wave 13 with the regimental commander. Analysis reveals how many of his images were presented in a false context and as a result have been

misinterpreted for decades. Building on Allan Coleman and his team's proof that the bulk of Capa D-Day photos could not possibly have been ruined in a darkroom accident, this gripping expose details the effects the FORTITUDE deception plans had on censorship, and how the censorship system would have retained the images popularly thought to have been lost.

British News Media and the Spanish Civil War David Deacon,2008 The most extensive and detailed analysis of the reporting of the Spanish Civil War ever undertaken.

Teaching Representations of the Spanish Civil War Noël Valis,2007-01-20 It was the stuff of Capa, Hemingway, Orwell, Picasso, Rodoreda, Sender, and a host of others working in Catalan, German, Irish and Spanish from both sides of the Atlantic. It is also very difficult to teach, not only because the Spanish Civil War is perceived as the precursor to World War II but also because it has been heavily romanticized. This collection of articles and resources cuts to the events and their real impact on history, literature and the arts and includes commentary on contexts, rhetoric, ideology, writing, film, music, iconography and the visual, memory and displacement. This stands alone as a series of accounts of the ways the war was and is represented, giving narratives of such elements as the memories of the Abraham Lincoln Brigade and the uses of allegory, but it is also particularly valuable through its lists of resources and course syllabi.

Framing Russian Art Oleg I[r]evich Tarasov,2011-03-15 In Framing Russian Art, Oleg Tarasov investigates the role of the frame both literally and conceptually, both in the organization of the artistic space of a work of art and in the very perception of a visual image - an icon, a building, a painting, an etching or photograph. Part One is dedicated to exploring the frame of the Russian icon and related arts, folding images and prints, from the Middle Ages to the late nineteenth century, including analyses of Grigoriy Shumayev's vast and extraordinary Baroque masterpiece, which he called 'the iconostasis of the life-giving Cross', and the sumptuous blending of medievalism and the late Romanticism in the Church Not Made by

Hands at Savva Momontov's estate of Abramtsevo outside Moscow. Part Two examines the successive roles of the frame in Baroque imperial portraiture, the dynastic grandiloquence of the nineteenth century, the impact of Western ideas and new technology (photography in particular) on the celebrated battle painter Vasiliy Vereshchagin, and finally the impact of the vanishing frame in abstract art and Modernism. --Book Jacket.
