Handbook of Research on Digital Innovation and Networking in Post-COVID-19 Organizations Pego, Ana, 2022-06-24
Businesses have had to face many challenges due to the COVID-19 pandemic; to survive in the changing landscape, they had to adapt quickly and implement new tactics and best practices to stay competitive. Networking is one of the many areas that looks vastly different in a post-pandemic world and companies must understand this change or risk falling behind. Further study is required to uncover the various difficulties and potential future directions of networking and innovation within the business landscape. The Handbook of Research on Digital Innovation and Networking in Post-COVID-19 Organizations provides a thorough overview of the ways in which organizations have had to change and adapt to the new business environments and considers how networking looks different in a post-COVID-19 world. Covering key topics such as organizational structures, consumer behavior, teleworking, and collaborations, this major reference work is ideal for managers, business owners, industry professionals, policymakers, researchers, scholars, academicians, practitioners, instructors, and students.

Refugees, Refuge, and Human Displacement Ignacio López-Calvo, Marjorie Agosin, 2022-11-01 Every American is a descendant of either a Native American, and enslaved person, an immigrant, or a refugee. This book is devoted to the fourth category. The essays in this volume will study the concept of refuge as well as historical forced displacement and statelessness, trying to provide potential lasting solutions to the many problems associated with this situation. This volume is not only timely but expansive, as it moves from the pressing crisis of refugees to the crisis of humanity that seeks to find refuge. From refugees to asylum seekers, from climate change to war, from historical uprootedness and displacement to today's crisis of refugeeism, these topics are mobilizing humanities scholars to think about refugees with a new sense of urgency. This book demonstrates how interdisciplinary cultural approaches grounded in the humanities can transform refugee conversations so often dominated by political science, economics, and other disciplines. In doing so, the collection sets up far more inclusive refugee discussions and urges humanities thinkers to respond by taking the lead in the face of environmental and sociopolitical uncertainties.
