Research and Practical Issues of Enterprise Information Systems II Volume 1 Li D. Xu,A. Min Tjoa,Sohail S. Chaudhry,2007-10-09 This volume presents work from the IFIP TC 8 WG 8.9 International Conference on the Research and Practical Issues of Enterprise Information Systems (CONFENIS 2007). Business With Purpose: Advancing Social Enterprise Melodena Stephens Balakrishnan,2020-02-26 A Social Enterprise Venture (SEV) is defined as an organization, initiative or startup that has a strong social innovation characteristic focusing on a scalable and sustainable social wealth creation or sustainable living at the individual or community level. Most books that deal with SEVs, unfortunately still focus on non-profits. Current market trends indicate non-profits need more

sustainable funding mechanisms for survival. This book focuses on the growing need to build a business with purpose.With the growing role of the private sector in the development arena, as highlighted by the UN Sustainable Development Goals, all firms need to relook entrepreneurship from a 'business-with-purpose' lens. The fact that venture capitalists/private equity firms are acquiring social ventures (like Bain Capital and TOMS), or that SEVs are being divested (L'Oreal and Body Shop), reinforces the need to understand which business models work. One of the biggest barriers for growth of SEVs is scalability and internationalization. This book fills the present gap between research and practice; and the non-profits and for-profit worlds.

The studies included here are diverse in their outlook, analytical procedures, and objects of enquiry, spanning across various areas of corporate communication, both external and internal, such as corporate image and reputation management, various forms of corporate behaviour, branding at different levels including employer branding, recruiting, and consumer reviews. Similarly diversified are the settings, genres and media analysed, from face-to-face interaction to communication through the press, from traditional websites to social networking sites. All the studies presented in this volume are set in a discourse-analytical framework and share the ultimate purpose of providing new insights into the evolution of communication and discourse practices in the corporate environment, taking account of the most important issues that have attracted researchers' interest and are still open to debate.

The Nonprofit Sector Walter W Powell,Patricia Bromley,2023-05-25 Timely, unique, and definitive . . . not only chronicles the history of the nonprofit sector but also provides a broad but critical analysis of its current state. —Vartan Gregorian, President, Carnegie Corporation of New York The nonprofit sector has changed in fundamental ways in recent decades. As the sector has grown in scope and size, both domestically and internationally, the boundaries between for-profit, governmental, and charitable organizations have become intertwined. Nonprofits are increasingly challenged on their roles

in mitigating or exacerbating inequality. And debates flare over the role of voluntary organizations in democratic and autocratic societies alike. The Nonprofit Sector takes up these concerns and offers a cutting-edge empirical and theoretical assessment of the state of the field. This book, now in its third edition, brings together leading researchers—economists, historians, philosophers, political scientists, and sociologists along with scholars from communication, education, law, management, and policy schools—to investigate the impact of associational life. Chapters consider the history of the nonprofit sector and of philanthropy; the politics of the public sphere; governance, mission, and engagement; access and inclusion; and global perspectives on nonprofit organizations. Across this comprehensive range of topics, The Nonprofit Sector makes an essential contribution to the study of civil society. Praise for previous editions Takes a decidedly multidisciplinary approach . . . .invaluable. — Journal of Policy Analysis and Management A major contribution to the field. — Social Forces
