A First Fleet Family Louis Becke, Walter Jeffery, 1896

The First Fleet Piano: Volume One Geoffrey Lancaster, 2015-11-03 During the late eighteenth century, a musical-cultural phenomenon swept the globe. The English square piano—invented in the early 1760s by an entrepreneurial German guitar maker in London—not only became an indispensable part of social life, but also inspired the creation of an expressive and scintillating repertoire. Square pianos reinforced music as life's counterpoint, and were played by royalty, by musicians of the highest calibre and by aspiring amateurs alike. On Sunday, 13 May 1787, a square piano departed from Portsmouth on board the *Sirius*, the flagship of the First Fleet, bound for Botany Bay. Who made the First Fleet piano, and when was it made? Who owned it? Who played it, and who listened? What music did the instrument sound out, and within what contexts was its voice heard? What became of the First Fleet piano after its arrival on antipodean soil, and who played a part in the instrument's subsequent history? Two extant instruments contend for the title 'First Fleet piano'; which of these made the epic journey to Botany Bay in 1787-88? *The First Fleet Piano: A Musician's View* answers these questions, and provides tantalising glimpses of social and cultural life both in Georgian England and in the early colony at Sydney Cove. The First Fleet piano is placed within the musical and social contexts for which it was created, and narratives of the individuals whose lives have been touched by the instrument are woven together into an account of the First Fleet piano's conjunction with the forces of history. View 'The First Fleet Piano: Volume Two Appendices'. Note: Volume 1 and 2 are sold as a set (\$180 for both) and cannot be purchased separately.

Memorandums by James Martin Tim Causer, 2017-06-07 Among the vast body of manuscripts composed and collected by the philosopher and reformer Jeremy Bentham (1748-1832), held by UCL Library's Special Collections, is the earliest Australian convict narrative, *Memorandums by James Martin*. This document also happens to be the only extant first-hand account of the most well-known, and most mythologized, escape from Australia by transported convicts. On the night of 28 March 1791, James Martin, William and Mary Bryant and their two infant children, and six other male convicts, stole the colony's fishing boat and sailed out of Sydney Harbour. Within ten weeks they had reached Kupang in West Timor, having, in an amazing feat of endurance, travelled over 3,000 miles (c. 5,000) kilometres) in an open boat. There they passed

themselves off as the survivors of a shipwreck, a ruse which—initially, at least—fooled their Dutch hosts. This new edition of the Memorandums includes full colour reproductions of the original manuscripts, making available for the first time this hugely important document, alongside a transcript with commentary describing the events and key characters. The book also features a scholarly introduction which examines their escape and early convict absconding in New South Wales more generally, and, drawing on primary records, presents new research which sheds light on the fate of the escapees after they reached Kupang. The introduction also assesses the voluminous literature on this most famous escape, and critically examines the myths and fictions created around it and the escapees, myths which have gone unchallenged for far too long. Finally, the introduction briefly discusses Jeremy Bentham's views on convict transportation and their enduring impact.

Places Made After Their Stories Paul Carter, 2015 *Places Made After Their Stories* shows how the emotional geographies we carry inside us and the ecstatic desire at the heart of democratic community-making can come together to inform contemporary landscape and urban design. Using Australian case studies of public space design from Alice Springs to Perth and Melbourne. Paul Carter describes a new approach to place-making in which topography and choreography fuse. He counters the symbolic neglect of functionalist design with a brilliant account of poetic and graphic techniques developed to materialize ambience. Carter describes a practice of sense-making and form-making that embodies fundamental gestures of welcome, arrangement, and exchange in the built setting.

Journeys to the Commonwealth of Australia Kalman Dubov, 2021-11-24 The continent of Australia has an ancient and modern history. Aborigines arrived at this continent an estimated 40,000 to 60,000 years ago, living a hunter-gatherer existence while developing unique ways to live and thrive on this land. That idyllic life ended in 1770 when the great British explorer James Cook discovered the continent. Just eighteen years later, in 1788, the First Fleet of convict ships from England established a colony at Botany Bay, near today's city of Sydney. The settlement grew and developed, while additional convict ships and settlers came to this continent to make a new home and life for themselves. As the number of settlers increased, there was a corresponding series of attacks on the Aborigines. Massacres took many lives, while European diseases for which the Aborigines had no immunity, decimated these ancient communities. I review this tragic interaction between these two diverse cultures which continues today. I also explore the Stolen Generation, the racist and genocidal policy of forcibly removing Aboriginal children from their parents and community, then giving these children to white parents to be raised in an atmosphere intolerant to the Aboriginal culture and history. An estimated 100,000 children were taken in this manner, remembered nationally and annually as Sorry Day. In addition, an estimated 500,000 white children were taken

from parents and given to others. While forcibly negating and outlawing native cultures has taken place in many countries, where dominant values are identified as superior to the older and subjugated culture, the forcible removal of hundreds of thousands of white children from parents reflects a policy that begs to be examined in depth. I also review the establishment of a Royal Commission that examined sexual predatory attacks on children, both in the Roman Catholic Church, by diocesan and order priests (brothers) while these children were wards of these religious institutions by order of the federal government. I also explore the percentages of prelates who acted in this criminal manner. This issue has been faced in several other countries, with resulting questions regarding the role Catholic priests and their bishops have in teaching religious values while protecting their charges from sexual abuse. The Jewish community too has been charged in this scourge. Two religious schools in Melbourne were charged with knowledge of such attacks taking place in these schools but the rabbinic leadership neither reported the abuse to civil authorities nor made efforts to stop it. In this regard, I explore the Jewish law inhibiting such reporting to secular authorities. In fact, the historic and traditional Jewish community standard prefers to protect the predator and not protect the victimized child. This standard is gradually changing as progressive awareness is made into the corrosive atmosphere surrounding a victimized child and the enormous psychological and emotional costs endured by the child for the remainder of his or her life. The theme of sexual abuse is also present with regard to Malka Leifer. This woman was charged with over seventy counts of criminal behavior while having a senior administrative and teaching role in a leading ultra-Orthodox religious school for girls. She became a cause célèbre with international intrigue between Australia and Israel when she escaped Australian shores for refuge in Israel. Years of legal wrangling ensued, by many Israeli courts, including the Supreme Court, each examining the increasing furor if this woman should be extradited to face criminal charges in Australia. Malka Leifer was only recently returned to Australia, now finally awaiting has moment of facing her accusers in open court. This volume also reviews and analyzes each war Australians fought in, from the Second Boer War, First World War, Second World War, Korean and Vietnam Wars, the wars in Iraq and Afghanistan. These conflicts culminated with the ANZUS Treaty, with a military cooperation agreement between the United States, Australia and New Zealand. The United States identified New Zealand as standing against the West when it promulgated its anti-nuclear zone. New Zealand identified with smaller Pacific island nations that condemned nuclear testing on remote Pacific islands and the resulting fallout with consequent health issues they face because of such testing. I was on the Holland American Grand Voyage while visiting Australian ports. I review the different Australian ports the Amsterdam came to, such as Darwin, Brisbane, and Sydney. I review each of these cities, both as the country developed and modernly, with these cities taking on more developed economic power.
