**Francis Andrew**

**14 Fun Facts About Mercury** Jeannie Meekins, When was Mercury discovered? Does Mercury have a magnetic field? How big is Mercury's atmosphere? Was Mercury bigger in the past? Learn the answer to these questions and many more fun facts in this 15-Minute Book. The closest planet to the sun is Mercury – a tiny, hot, lifeless ball of rock that races around the sun in less than three months. What could possibly fascinate us about that? Read on and find out. LearningIsland.com believes in the value of children practicing reading for 15 minutes every day. Our 15-Minute Books give children lots of fun, exciting choices to read, from classic stories, to mysteries, to books of knowledge. Open the world of reading to a child by having them read for 15 minutes a day.

A Great Man of Astronomy Francis Andrew, 2023-01-30 Is this a book that you would read from cover to cover? The simple answer is no! It is a book that the reader would dip into every now and again to get the flavour of one of Sir Patrick's works. There is an appraisal of each of Sir Patrick's works contained within it. This book constitutes the first of two, or perhaps three volumes of appraisals of Sir Patrick's books. Why have I found it necessary to spread out his works across two or three volumes? For two reasons basically: firstly, Sir Patrick wrote around 200 books throughout his long life; secondly is the issue of book availability; all of Sir Patrick's books are now out of print, and, the earlier ones mostly, are only sporadically available from antiquarian booksellers. It is a great honour for me to have this first volume ready for publication for the centenary year of Sir Patrick's birth in 2023.

The Real World Reader James S. Miller, 2015 From academic essays to blogs, magazine articles to social media posts,

newspaper editorials to public service announcements, and advertisements to emails, *The Real World Reader* brings together a wide collection of formal writing with an equally diverse array of popular writing from everyday life. This innovative rhetorical reader for first-year composition courses divides the process of rhetorical analysis into logically sequenced steps that focus on five key concepts-purpose, audience, argument, voice, and credibility. Author James Miller encourages students to use this step-by-step process in order to identify, analyze, and master the multiple modes of writing that they will encounter at school, work, and home. Features \* Uses a rhetorical framework to teach writing--rather than examining different modes of writing in isolation--and reveals what all forms of writing have in common \* Introduces rhetorical concepts through a variety of informal and formal writing examples, showing students how rhetorical patterns intersect \* Combines step-by-step writing instruction with a scaffold of sixty-seven diverse readings, allowing students to critically write and read four distinct types of selections: informal, formal, and academic selections and sample student essays \* Connects rhetorical analysis to cultural analysis with content that ranges from debates on multiculturalism to discussions of online privacy and from critiques of modern political campaigning to analyses of modern consumerism \* Focuses on familiar, real world writing, demonstrating the important role that writing plays in everyday life

*The 20th Century A-GI* Frank N. Magill,2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.
