Exploring Relationships and Connections to Others Mike P. Cook,Leilya A. Pitre,2021-10-13 Exploring Relationships and Connections to Others: Teaching Universal Themes through Young Adult Novels offers readers opportunities to explore the most common universal themes taught in secondary English Language Arts classrooms using contemporary young adult literature. Authors discuss adolescence and adolescent readers, young adult literature and its possibilities in the classroom, and ways to teach thematic analysis. The book provides context, traditional approaches to teaching, and examples of thematic explorations of each of the chosen themes. Chapters include developed teaching instructional units to study four universal themes: love and loss; friendship and betrayal; hate, its destructive consequences, and healing; and dreams and hope for tomorrow. Each instructional unit includes rationale, essential questions and objectives, calendar plans for up to five weeks, examples of introductory, reading and discussing, and enrichment activities and assessments. The activities target academic skills for ELA curricula and create safe spaces for exploring topics of relationships and connections to others, both of which are vital to adolescent growth and development. Each instructional chapter suggests a wide range of additional texts and resources for theme explorations.

Key Words for Academic Writers Rebecca Brittenham,Hildegard Hoeller,2004 This brief, flexible guide features dictionary-style entries on the key terms and concepts associated with academic and research-based writing, including models and exercises in each entry. Offering instructors enormous flexibility, the alphabetically-organized entries in this text can be introduced in any order to present discussions of writing college papers--from developing a thesis statement to citing

sources. Each entry uses examples from scholarly writing to explain a particular aspect of the writing or research process--analysis, argument, summary, synthesis--and provides concrete, manageable techniques and exercises to help students make their writing work. Entries from different disciplines show the development of specialized knowledge and specific rhetorical practices. A guide to academic culture as well as a writing guide, the text helps students develop skills such as how to interpret a syllabus or analyze an assignment.

Community-Engaged Performance Tours James Spinazzola, 2023-07-04 *Community-Engaged Performance Tours* addresses the role of performance touring as a form of classroom and community engagement. Performance tours have long been a part of the collegiate and high school music ensemble experience, bringing student bands, choirs, and orchestras into connection with a wide variety of audiences, venues, and cultural contexts. This book presents a new approach to the performance tour that integrates touring with community engagement and service-learning. Emphasizing reciprocity, cross-cultural exchange, and global awareness, the author addresses how visiting ensembles can work with host communities instead of performing for them. The book includes student and community perspectives and case studies from the author's experience leading university wind symphony tours in Haiti and the Dominican Republic, and provides a practical and hands-on model for ensemble leaders and educators.

The Book of Job in Wonderland Ryan M. Armstrong, 2024-10-08 The Book of Job in Wonderland explores the theme of mediation in the biblical book of Job with a unique approach that examines the Hebrew language, the history of its interpretation, and a comparative literary analysis of Lewis Carroll's Alice's Adventures in Wonderland. Both of these classics relentlessly subvert genre expectations in order to protest didactic religious instruction. In addition to biblical studies, this book makes contributions to lexicography, hermeneutics, medieval Jewish thought, early and modern Christianity, literary theory, and Victorian literature.

The Process of Writing News Brian Richardson, 2007 Using examples and exercises, The Process of Writing News takes an impact, elements, and words approach to demystify reporting and writing for beginners. This is a concise book that approaches writing as a process, using a pedagogy that has proven effective. In each chapter, the book addresses the roles of journalists at several levels of abstraction, beginning with their responsibilities to audiences in a democratic society, and continuing with ethical decision-making in fulfilling those responsibilities. Each chapter ends with reporting and writing exercises which allow the reader to develop skills for informing audiences and telling compelling stories in print, broadcast, and online news media and to practice and be evaluated on those skills. The reader is taken through a year in the life of a fictional community, revisiting issues and stories in a series of more than two dozen linked exercises of increasing complexity, from lede writing to handling a major breaking story on deadline. There are even opportunities to report and write from the reader's own community.
